NOTICE OF FILING AND PUBLIC HEARINGS
TO CUSTOMERS OF ATLANTIC CITY ELECTRIC COMPANY

IN THE MATTER OF THE COMBINED AND CONSOLIDATED APPLICATION OF ATLANTIC CITY ELECTRIC COMPANY TO ADJUST THE LEVEL OF ITS "RIDER EECEC" CHARGES ASSOCIATED WITH ITS SUCCESSOR SOLAR RENEWABLE ENERGY CERTIFICATE ("SREC II") FINANCING PROGRAM, ITS SOLAR TRANSITION INCENTIVE ("TREC") PROGRAM, ITS SUCCESSOR SOLAR INCENTIVE ("SuSI") PROGRAM, ITS ENERGY EFFICIENCY ("EE") T1 and T2 ("EE T1 and "EE T2", RESPECTIVELY) PROGRAMS, AND ITS COMMUNITY SOLAR ENERGY PILOT ("CSEP") PROGRAM (2026)

BPU Docket No. ER26070403

PLEASE TAKE NOTICE that, on July 24, 2026, Atlantic City Electric Company ("ACE" or "Company") filed a petition with the New Jersey Board of Public Utilities ("Board" or "BPU") to report on, reconcile, update, and approve certain proposed changes to the Company's Energy Efficiency and Clean Energy Charge ("EECEC") Tariff for its Successor Solar Renewable Energy Certificate ("SREC II") Financing Program, its Transition Renewable Energy Certificate ("TREC") Program, its Successor Solar Incentive ("SuSI") Program, its Energy Efficiency ("EE") Programs, and its Community Solar Energy Pilot ("CSEP") Program ("Petition"). Further, on October 8, 2026, the Company filed an Amended Petition in this docket to reflect the impact of the Board's Order dated September 24, 2026, in BPU Docket No. ER25070444 on the Company's requests in this matter.

The SREC II Program is a program wherein ACE purchases SRECs from solar projects and sells the SRECs in an auction with other New Jersey electric distribution companies ("EDCs"). The TREC Program is a statewide program established by the Board to provide incentives to solar developers in the form of TRECs. Under the TREC Program, ACE and the other New Jersey EDCs are required to acquire TRECs through a joint program administrator. The SuSI Program is a statewide program established by the Board to provide incentives to solar developers in the form of SREC IIs. Under the SuSI Program, ACE and other New Jersey EDCs are required to acquire SREC IIs through a joint program administrator. The EE Programs, comprised of EE Triennium 1 ("T1") and EE Triennium 2 ("T2"), are statewide programs established by the Board pursuant to which the Company administers energy conservation programs, materials, and education to its customers. The CSEP Program is a statewide program designed to facilitate access to solar energy on a community-wide basis for customers who are otherwise unable individually to participate in solar development programs or projects.

As set forth in the Amended Petition, the Company seeks to maintain the tariff charge for the SREC II Program at its current rate of $0.000000 per kWh; decrease the charge for its TREC Program from the current per kWh charge of $0.002026 to $0.001574, including Sales and Use Tax ("SUT"); increase the charge for its SuSI Program from the current per kWh charge of $0.002443 to $0.003163, including SUT; decrease the per kWh charge for the EE T1 program from the current charge of $0.002348 to $0.002231, including SUT; increase the charge for its EE T2 program from $0.003556 to $0.006325 per kWh, including SUT; and increase the charge for the CSEP program from the current per kWh charge of $0.000137 to $0.000399, including SUT, for the period November 1, 2026 through October 31, 2027. The Company's proposed tariff rates are based upon actual costs and revenues through May 31, 2026, and projected data from June 1, 2026, through October 31, 2027.

The net effect of all proposed changes to the EECEC tariff components for SREC II, TREC, SuSI, EE T1, EE T2 and CSEP charges from current rates is a combined annual revenue requirement increase of $26,764,363. The following demonstrates the Company's rate components applicable to all rate schedules, based upon actual data as noted above and projected data thereafter:

SREC II	TREC	SuSI	EE T1	EE T2	CSEP	Total RGGI
$0.000000	$0.001574	$0.003163	$0.002231	$0.006325	$0.000399	$0.013692

The effect of the changes in the SREC II, TREC, SuSI, EE T1, EE T2 and CSEP charges on the EECEC tariff for a typical residential customer's monthly electric bill using 649 kWh represents an increase of approximately $2.06 or 1.07 percent. Residential customers using other monthly usage amounts, based on the Company's proposed rates, are illustrated below:

Monthly kWh Use	Present Bill	Proposed Bill	Increase ($)	Increase (%)
100	$35.32	$35.64	$0.32	0.91%
300	$92.45	$93.41	$0.96	1.04%
500	$149.59	$151.18	$1.59	1.06%
750	$221.01	$223.40	$2.39	1.08%
1000	$294.63	$297.81	$3.18	1.08%
2000	$589.14	$595.51	$6.37	1.08%
2500	$736.40	$744.35	$7.95	1.08%
3000	$883.66	$893.20	$9.54	1.08%

The percentage increases noted above are based upon a comparison with rates in effect as of October 1, 2026. The Board has statutory and regulatory authority to approve and establish rates it finds just and reasonable. Therefore, the Board may determine and establish these charges at levels other than those proposed by ACE.

A copy of this Notice of Filing and Public Hearings on the Amended Petition is being served upon the clerk, executive or administrator of each municipality and county within the Company's service territory. The Petition and this Notice have been posted on ACE's website at www.atlanticcityelectric.com/PublicPostings and have also been sent to the New Jersey Division of Rate Counsel ("Rate Counsel"), who will represent the interests of all ACE customers in this proceeding. The Petition is also available to review online through the Board's website, https://publicaccess.bpu.state.nj.us where you can search by the above-captioned docket number. The Petition and Board file may also be reviewed at the Board located at 44 South Clinton Avenue, 1st Floor, Trenton, New Jersey, with an appointment. To make an appointment, please call (609) 913-6298.
