DEBT SERVICE
OVERVIEW

The primary method for State financing of capital projects is through the sale of state general obligation bonds. The Debt Service section of the budget shows the amounts necessary to pay principal and interest due on capital projects financed via general obligation bonds.

Appropriations for principal and interest payments on general obligation bonds are recommended at \$466.3 million. This projected level of debt service reflects actual principal and interest on bonds outstanding on July 1, 1995, and additional funding for a proposed FY 1996 bond sale. The recommendation for Fiscal Year 1996 is an increase of \$362.8 million from Fiscal Year 1995. The Fiscal Year 1996 debt service appropriation requirements are increasing due to the need to appropriate funds which are no longer being paid from the escrow account established from the proceeds of the 1992 Refunding Bond Sale. The FY 1996 figure also includes interest payments of \$5.8 million as a result of a November 1994 bond sale in the amount of \$59 million, and \$9.5 million for interest payments for a proposed FY 1996 Bond Sale.

Refinancing of bonds began in January 1993 and will continue through June 30, 2012. The Statement of General Long-Term Debt which appears in the Appendix of this Budget shows the status of the State's general obligation bonded indebtedness as of June 30, 1994. These figures include the \$1.8 billion refunding bond sale and all of the general obligation bonds which were retired by this sale.

Notes: (a) The FY 1994 and FY 1995 debt service appropriation requirements are net of the debt service that was paid from an escrow account established from the proceeds of the 1992 Refunding Bond Sale. In FY 1996 this will no longer occur, and the requirements of \$466,330,000 are the General Fund amounts necessary to make the debt service payments.

LANGUAGE PROVISIONS

It is recommended that such sums as may be needed for the payment of interest and/or principal due from the issuance of any bonds authorized under the several bond acts of the State be appropriated and first charged to the earnings from the investments of such bond proceeds.

It is further recommended that there be appropriated such sums as may be needed for the payment of debt service administrative costs.
