BY COMMISSIONER DIANNE SOLOMON:

The Board of Public Utilities ("Board") is empowered to ensure that regulated public utilities provide safe, adequate and proper service to the citizens of New Jersey. N.J.S.A. 48:2-23. Pursuant to N.J.S.A. 48:2-13, the Board has been vested by the Legislature with the general supervision and regulation of and jurisdiction and control over all public utilities, "so far as may be necessary for the purpose of carrying out the provisions of [Title 48]." The courts of this State have held that the grant of power by the Legislature to the Board is to be read broadly, and that the provisions of the statute governing public utilities are to be construed liberally. See e.g., In re Public Service Electric and Gas Company, 35 N.J. 358, 371 (1961), Twp. of Deptford v. Woodbury Terrace Sewerage Corp., 54 N.J. 418, 424 (1969), Bergen County v. Dep't. of Public Utilities, 117 N.J. Super. 304 (App. Div. 1971).

On April 2, 2015, New Jersey Natural Gas ("NJNG" or "Company"), a New Jersey public utility that supplies natural gas to approximately 510,000 customers in Monmouth, Ocean, Morris, Middlesex and Burlington Counties, filed a petition with the Board pursuant to N.J.S.A. 40:55D-19 of the New Jersey Municipal Land Use Law ("MLUL"). Under cover letter dated June 5, 2015, the Company filed an amended petition to account for revisions in the proposed route, including the routing as adopted by Upper Freehold.

According to the petition, NJNG's customers at the southern end of its pipeline system, particularly those in Ocean, Burlington and Monmouth Counties are likely to be adversely affected by a supply interruption or system failure. The Company represents that the proposed Southern Reliability Link project ("Project") will connect the natural gas system in these counties to a new Transco supply point in Chesterfield, New Jersey, adjacent to the New Jersey Turnpike. The Company further represents that, by creating a new redundant major feed, the Project will support safe, reliable, and resilient delivery of natural gas to its customers in Ocean, Burlington and Monmouth counties.

To aid in the setting of an appropriate schedule, a proposed preliminary procedural schedule was generated by Board staff and circulated to the Company, the New Jersey Division of Rate Counsel ("Rate Counsel"), the Municipal Clerks, the County Administrators, Joint Base McGuire-Dix-Lakehurst and the Burlington County Board of Chosen Freeholders. The Company proposed an alternative schedule, and Rate Counsel recommended some minor date changes to Board staff's proposed schedule. No other comments on the proposed schedule were received.

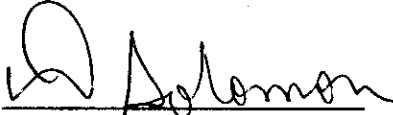

I have reviewed the proposals exchanged for a preliminary schedule, and have concluded that the shortened procedural schedule proposed by the Company does not provide sufficient time for Rate Counsel, Board staff and possible interveners/participants to thoroughly review the Project and create a full record for review by the Board.

After giving due consideration to the positions of Staff, Rate Counsel, and the Company, I **HEREBY ISSUE** the attached as the Prehearing Order for this matter, along with the procedural schedule identified as Exhibit A, and **HEREBY DIRECT** the parties to comply with its terms.

I **HEREBY DIRECT** Staff to post this Order on the Board's website and serve a copy of the Order to the service list electronically.

In addition, in the interests of economy, all parties are **HEREBY DIRECTED** to serve all documents electronically, while still providing hard copies to the Board for those documents which must be filed with the Board, and to any party upon request.

In this proceeding, New Jersey Natural Gas ("NJNG" or "Company") seeks a Board order approving the Southern Reliability Link project ("Project") which will connect the Company's existing natural gas system in Ocean, Burlington, and Monmouth Counties to a new Transco supply point in Chesterfield, New Jersey.
