- Dianne Solomon, Commissioner, New Jersey Board of Public Utilities
- Upendra Chivukula, Commissioner, New Jersey Board of Public Utilities
- Awardees: Pay for Performance Partner, Direct Install Contractors, Residential New Construction Builder, and Home Performance with Energy Star,

WHAT:

As New Jersey's Clean Energy Program is about to turn a page with new program administrators and new strategic direction the BPU is taking this opportunity to recognize and honor some of the longest participating contractors in the New Jersey's Clean Energy Awards at the EcoComplex, Bordentown.

Since 2001, The New Jersey's Clean Energy Program (NJCEP) has been promoting increased energy efficiency, the use of clean renewable energy including solar, wind, , and sustainable biomass. The results for New Jersey are a stronger economy, less pollution, lower energy costs, and reduced demand for energy. NJCEP offers financial incentives, programs, and services for residential, commercial, industrial, institutional and governmental customers to implement energy efficiency and renewable energy at their homes and businesses.

NJCEP is recognizing the accomplishments and actions by contactors/developers that have and are currently helping customers save energy, lower energy bills and reduce environmental impacts.
