RELIABILITY & SECURITY

IN THE MATTER OF ABBREVIATED,
DIALING CODES TO DESIGNATE
811 FOR ONE CALL NOTIFICATION

ORDER

DOCKET NO. TO07010013

BY THE BOARD:

The Board of Public Utilities (the "Board") is vested with the authority to oversee the implementation of N11 Dialing codes, as delegated by the Federal Communications Commission ("FCC") Order FCC 05-59. The FCC has designated 8-1-1 as a national abbreviated dialing code to be dedicated exclusively to access state One Call Centers as mandated by the Pipeline Safety Improvement Act of 2002, (Pub. L. No. 107-355, § 17, 116 Stat. 2985, 3008 (2002)) and the FCC Order I/M/O The Use of N11 Codes and Other Abbreviated Dialing Arrangements, CC Docket No. 92-105, 20 FCC Rcd 5539, FCC Release No. 05-59 (March 14, 2005) ("N11 Order").

In the above referenced Docket the FCC found that the state commissions are in the best position to address issues associated with implementing 8-1-1 because many of the One Call Centers were developed by or under the auspices of the state commissions. Pursuant to the Underground Facility Protection Act ("UFPA"), N.J.S.A. 48:2-73, et seq., the Board is the authority vested with the jurisdiction to oversee the establishment and operation of the statewide New Jersey One-Call Damage and Prevention System ("One-Call"). In New Jersey the 8-1-1 dialing code will coexist with the current toll free phone number for the New Jersey One Call System – 800-272-1000. Both numbers shall route calls to the operator of the One Call System as described in the UFPA, which requires anyone who intends to engage in excavation or demolition to give advance notice to facility operators to allow facility operators to mark underground facilities prior to excavation to prevent facility damage and service outages.

Under the Order, the FCC set an implementation deadline of Spring, 2007 for all telecommunications carriers throughout the United States, including wireline, wireless and payphone service providers, to provide access to state One Call Centers via 8-1-1. N11 Order, at ¶ 32. Furthermore, as to implementation, the FCC delegated authority to state commissions-- in this case, the Board -- to address the technical and operational issues associated with the implementation. Id., at ¶ 35. Accordingly, and in light of these requirements and in compliance with the FCC's Order, the Board HEREBY ORDERS that each New Jersey Telecommunications Carrier shall:

1. Implement the 8-1-1 dialing code in addition to the current 800-272-1000 phone number as described in the N11 Order by March 15, 2007; and
2. Issue a letter to the Board by March 15, 2007, certifying that the technical implementation is completed, has been tested, and is ready for public use; and
3. Not advertise or make public the availability of the 8-1-1 dialing code until April 30, 2007, or any other date set by the Board; and
4. Advise Board Staff of any non-technical issues between parties that arise and cannot be resolved as to this implementation. These issues shall not delay the implementation of the 8-1-1 Dialing Code but shall take a separate path to resolution with Board Staff assistance.

In the event that Staff's assistance with any non-technical issues does not produce a resolution, Staff shall so advise the Board, and the Board will take such further action as it deems appropriate within one hundred fifty (150) days of receipt.
