BY THE BOARD:

This Order memorializes action taken by the Board of Public Utilities (Board) at its December 20, 2007 Agenda Meeting.

The Board of Public Utilities' Customer On-Site Renewable Energy (CORE) program offers prescribed financial incentives to New Jersey property owners to encourage the installation of Class I renewable energy technologies. Eligible applicants may receive rebates for a portion of the cost of installing solar, wind or sustainable biomass at their site.

The Staff of the Office of Clean Energy (OCE) has reviewed the applications under the CORE Program described herein the amount of monetary rebate requested. OCE finds that each application is complete and fully conforms to all Board eligibility requirements for a rebate commitment under this program.
