CABLE TELEVISION

IN THE MATTER OF THE PETITION OF  
COMCAST OF MONMOUTH COUNTY, LLC FOR )  
A RENEWAL CERTIFICATE OF APPROVAL TO )  
CONTINUE TO CONSTRUCT, OPERATE AND )  
MAINTAIN A CABLE TELEVISION SYSTEM IN )  
AND FOR THE BOROUGH OF OCEANPORT, )  
COUNTY OF MONMOUTH, STATE OF NEW )  
JERSEY )

RENEWAL  
CERTIFICATE OF APPROVAL

DOCKET NO. CE08010006

(SERVICE LIST ATTACHED)

BY THE BOARD:

On April 18, 1974, the Board granted Futurevision Cable Enterprises, Inc. ("Futurevision") a Certificate of Approval ("Certificate"), in Docket No. 735C-5011, for the construction, operation and maintenance of a cable television system in the Borough of Oceanport ("Borough"). On July 23, 1981, the Board granted Futurevision a Renewal Certificate of Approval in Docket No. 803C-6666. Through a series of transfers with required Board approvals, Storer Cable Communications of Monmouth County, Inc. ("Storer") became the holder of the Certificate. On September 23, 1993, the Board issued a Renewal Certificate of Approval to Storer in Docket No. CE91061128. Through a series of subsequent transfers, with the required Board approvals, the holder of the Certificate was Comcast Cablevision of Monmouth County, Inc. ("Comcast"). On June 20, 1996, the Board granted Comcast a Renewal Certificate of Approval in Docket No. CE96040346. Based on a name change, the current holder of the Certificate is known as Comcast of Monmouth County, LLC ("Petitioner"). Although by its terms the Petitioner's above referenced Certificate expired on July 23, 2006, the Petitioner is authorized to continue to provide cable television service to the Borough pursuant to N.J.S.A. 48:5A-25, pending disposition of proceedings regarding the renewal of its Certificate.

The Petitioner filed an application for the renewal of its municipal consent with the Borough on October 24, 2005, pursuant to N.J.S.A. 48:5A-23 and N.J.A.C. 14:18-13. The Borough, after public hearing, adopted a municipal ordinance granting renewal consent to the Petitioner on July 19, 2007. On September 19, 2007, the Petitioner formally accepted the terms and conditions of the ordinance.

On January 2, 2008, pursuant to N.J.S.A. 48:5A-16, the Petitioner filed a petition with the Board for a renewal of its Certificate for the Borough. On May 15, 2008, to correct certain inconsistencies, the Borough adopted a revised ordinance which superseded its July 19, 2007 ordinance. On June 16, 2008, the Petitioner accepted the terms and conditions of the revised ordinance. On October 6, 2008, the Petitioner filed an amended petition for the Borough, reflecting the revised ordinance and the Petitioner's acceptance thereof.

The Board has reviewed the application for municipal consent, the petition and amended petition for a Renewal Certificate of Approval, and the revised municipal consent ordinance. Based upon this review and the recommendation of the Office of Cable Television, the Board **HEREBY FINDS** the following:

- 1 The Petitioner possesses the requisite legal, character, financial and technical qualifications for the awarding of a Renewal Certificate of Approval. Further, the Borough reviewed these qualifications in conjunction with the municipal consent process.
2. The design and technical specifications of the system will ensure that the Petitioner provides safe, adequate and proper service.
3. The Petitioner has represented that all previously required construction within the franchise territory is complete.
4. The franchise period as stated in the ordinance is 15 years. Pursuant to N.J.S.A. 5A-19, the Board finds this period to be of reasonable duration.
5. The Borough may review the performance of the Petitioner with regard to the ordinance after the fifth year of the franchise. If the Borough determines that the Petitioner has failed to substantially comply with the material terms and conditions of the ordinance, the Borough shall provide written notice to the Petitioner of such alleged instances of non-compliance and shall grant the Petitioner reasonable notice and opportunity days to cure such deficiency. The Borough may petition the Board for appropriate administrative action, including revocation of the franchise, if the deficiency has not been cured after provision of notice and opportunity to cure.

6. The Petitioner's rates shall be regulated and tariffs shall be filed for all services, in accordance with the rules and regulations of the Federal Communications Commission, the Board and the Office of Cable Television. The Petitioner shall maintain informational schedules for unregulated service rates and promptly file any revisions thereto.
7. Pursuant to statutory requirements, the ordinance specifies a complaint officer to receive and act upon complaints filed by subscribers in the Borough. In this case, it is the Office of Cable Television. All complaints shall be received and processed in accordance with the applicable rules.
8. The Petitioner shall maintain a local business office or agent for the purpose of receiving, investigating and resolving complaints. Currently, the local office serving this provision is located at 403 South Street in the Borough of Eatontown.
9. The franchise fee to be paid to the Borough is specified to be 2% of the Petitioner's gross revenues from all recurring charges in the nature of subscription fees paid by subscribers for its cable television reception service in the Borough and shall be increased as required by N.J.S.A. 48:5A-30. Additional regulatory fees shall be paid to the State in an amount not to exceed 2% of Petitioner's gross operating revenues derived from intrastate operations. The Board finds these fees to be reasonable.
10. The Petitioner shall provide service to any person's residence or business located in the primary service area as indicated on the map on file with the Office of Cable Television at no cost beyond standard and non-standard installation charges. For any extension outside of the primary service area, the Petitioner shall utilize the line extension policy ("LEP") attached to the Certificate. The minimum homes per mile figure is 35.
11. The Petitioner shall provide public, educational and governmental ("PEG") access channels and facilities in accordance with its renewal application. Specifically, the Petitioner shall continue to maintain a system-wide public access channel and a system-wide municipal access channel for the purpose of cablecasting non-commercial access programming for individuals, groups and organizations from the municipalities that the Petitioner serves. The Petitioner has S-VHS cameras and related equipment available for the production of PEG access programming. In addition, the Petitioner's access coordinator is available to answer technical questions.
12. Within 12 months of the date of issuance of this Certificate, the Petitioner shall pay to the Borough a one-time capital contribution in the amount of \$18,000.00 for technology support. Upon payment, the Petitioner shall provide the Office of Cable Television with proof of satisfaction of this obligation.

13. The Petitioner shall provide or continue to provide the standard installation of one outlet and monthly Total Preferred cable television service, free of charge, to each school, elementary, intermediate or secondary, public or private, and to each police, fire, emergency management facility and public library located in the Borough. To qualify for free installation, the facility must be within 175 feet of the Petitioner's active cable television plant. Each additional outlet installed, if any shall be paid for on a materials plus labor basis by the facility requesting the installation. Monthly service charges shall be waived on additional outlets.
14. Upon written request, the Petitioner's representatives shall appear, at least once annually, at a public hearing of the governing body or before the Borough's Cable Television Advisory Committee to discuss matters pertaining to the provision of cable television service to residents of the Borough and other related issues as the Borough and the Petitioner may see fit.

Based upon these findings, the Board **HEREBY CONCLUDES**, pursuant to N.J.S.A. 48:5A-17(a) and 28(c), the Petitioner has the municipal consent necessary to support the petition, that such consent and issuance thereof are in conformity with the requirements of N.J.S.A. 48:5A-1 et seq., that the Petitioner has complied or is ready, willing and able to comply with all applicable rules and regulations imposed by or pursuant to State or federal law as preconditions for engaging in the proposed cable television operations, that the Petitioner has sufficient financial and technical capacity, meets the legal, character and other qualifications necessary to construct, maintain and operate the necessary installations, lines and equipment, and is capable of providing the proposed service in a safe, adequate and proper manner.

Therefore, the Petitioner is **HEREBY ISSUED** this Renewal Certificate of Approval as evidence of Petitioner's authority to construct and operate a cable television system within the entirety of the Borough.

This Renewal Certificate is subject to all applicable State and federal laws, the rules and regulations of the Office of Cable Television, and any such lawful terms, conditions and limitations as currently exist or may hereafter be attached to the exercise of the privileges granted herein. The Petitioner shall adhere to the standards set forth by the Federal Communications Commission's rules and regulations, 47 C.F.R. §76.1 et seq., including but not limited to, the technical standards 47 C.F.R. §76.601 through §76.630. Any modifications to the provisions thereof shall be incorporated into this Certificate.

Failure to comply with all applicable laws, rules, regulations and orders of the Board or Office of Cable Television and/or the terms, conditions and limitations set forth herein may constitute sufficient grounds for the suspension or revocation of this Certificate.

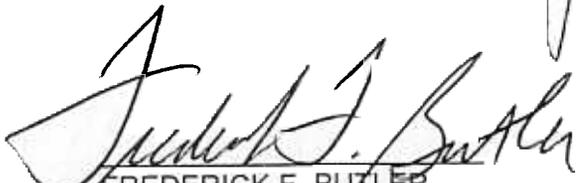

This Renewal Certificate is issued on the representation that the statements contained in the Petitioner's applications are true, and the undertakings therein contained shall be adhered to and enforceable unless specific waiver is granted by the Office of Cable Television pursuant to the authority contained in N.J.S.A. 48:5A-1 et seq.

This Certificate shall expire on July 23, 2021.

SECRETARY

I HEREBY CERTIFY that the within document is a true copy of the original in the files of the Board of Public Utilities

**APPENDIX "I"**  
**OFFICE OF CABLE TELEVISION**  
**LINE EXTENSION POLICY**

**COMCAST OF MONMOUTH COUNTY, LLC**  
**BOROUGH OF OCEANPORT**

A cable operator is required to absorb the cost of extensions to the system in the same proportion that the extension is to the remainder of the system.

Actual subscribers served by the extension are required to absorb the remainder of the cost.

If new subscribers are added to the extension the cost is adjusted and those who previously paid receive an appropriate rebate.

- |    |   |   |   |
|----|---|---|---|
| 1. | <u># of homes in extension</u><br>mileage of extension                                  | = | homes per mile (HPM) of extension   |
| 2. | <u>HPM of extension</u><br>Minimum HPM that company actually constructs in the system * | = | ratio of the density of the extension to the minimum density which the company constructs in the system ("A") |
| 3. | Total cost of building the extension times "A"  | = | company's share of extension cost   |
| 4. | Total cost of building extension less company's share of extension cost                 | = | total amount to be recovered from subscribers   |
| 5. | Total amount to be <u>recovered from subs</u><br>Total subscribers in extension         | = | each subscriber's share   |

In any case, the company shall extend its plant along public rights of way to:

1. All residences and businesses within 150 aerial feet of the operator's existing plant at no cost beyond the normal installation rate.
2. All residences and businesses within 100 underground feet of the operator's plant at no cost beyond the normal installation rate.

-----  
\* **The** minimum HPM that the company actually constructs in the system or municipality is the minimum number of homes that the company has historically constructed at its own cost. This is a function of the operator's break-even point and its rate of return. Unbuilt systems will use the primary service area rather than construction.

The operator's installation policies shall apply to construction beyond the public right of way.

Detailed accounting and/or financial information to support the minimum HPM shall be supplied to the Office for its approval in such form as required. The minimum HPM shall be updated as appropriate.

When a request for service is received, and unless good cause is shown, cable companies shall:

- 1 Provide a written estimate within 30 days of such a request.
2. Begin construction within 60 days of receipt of any deposit monies from potential subscribers.
3. Complete construction within six months of receipt of any deposit monies from potential subscribers.
- 4 Inform each home passed along the extension of the potential costs for subscribers.

Subscribers who pay for an extension shall be entitled to rebates in the following manner:

- 1 If the company acquires new subscribers subsequent to the initial calculation of step 5 above, the formula will be adjusted and those who have previously paid for the extension will be entitled to an appropriate rebate. In no event shall the amount of the rebate exceed the subscriber's contribution.
- 2 The company shall keep accurate records of the cost of the extension, the amounts paid by subscribers and any appropriate adjustments.
3. The company shall notify subscribers in the extension area of their rights and responsibilities concerning the extension.
- 4 Once the share of extension costs have been paid for an individual dwelling unit future reconnections or installations to that unit shall be made at the company's standard rates.
5. After a period of five years from the installation of the first dwelling unit in the extension no further adjustments shall be made. Installations after five years shall be at the company's standard rate.
- 6 Once a subscriber is installed, that person shall not normally be entitled to a refund of any monies paid for the installations, except in accordance with the rebate procedure outlined in this policy.

## **Definitions**

### Primary Service Area

The Primary Service Area (PSA) can be an entire municipality, but in many instances the PSA is a limited area within a community outside of which a line extension policy may apply. The PSA is depicted by a franchise map and narrative, presented and recorded during the franchise proceedings. It normally remains a fixed geographic area throughout the life of the franchise.

### Line Extension Survey

Potential subscribers residing outside the PSA who request service are entitled to an estimate of their share of the cost to secure service. When conducting a survey and estimating costs, a cable company should factor in all potential subscribers who could practicably be included in the extension and give consideration to apparent residential construction in areas contiguous to the proposed extension.
