BY THE BOARD¹:

This Order memorializes action taken by the Board of Public Utilities (Board) at its April 27, 2009 Agenda Meeting. The Board of Public Utilities' Customer On-Site Renewable Energy (CORE) program offers prescribed financial incentives to New Jersey property owners to encourage the installation of Class I renewable energy technologies. Eligible applicants may receive rebates for a portion of the cost of installing solar, wind, or sustainable biomass at their site.

The Staff of the Office of Clean Energy (OCE) has reviewed the CORE applications described below as well as the amount of rebates requested. In addition, Honeywell, the Contract Market Manager, executed appropriate documentation affirming that, consistent with the terms of its contract, Honeywell is not acting as both the Contract Market Manager and a market participant in any of the CORE rebate applications submitted for Board approval. The signed documents are appended to this Order. Therefore, the OCE finds that each application is complete and fully conforms to all Board requirements for a rebate commitment under this program.

*Rebates for private sector applications and public sector applications utilizing a Power Purchase Agreement ("PPA") are limited to a maximum amount based on 100 kilowatts ("kW") of installed capacity, which is the monetary equivalent of \$245,000 or a lesser amount if the installed capacity is less than 100kW. I/M/O Comprehensive Energy Efficiency and Renewable Energy Resource Analysis for 2005-2008: 2008 Programs and Budgets: Compliance Filings, Docket Number EX04040276 (Mar. 31, 2008). Public sector applicants are approved based on the public and non-profit rebate levels that were in effect at the time that the application was deemed complete. If a public sector applicant will utilize a PPA, the applicant must notify the Market Manager and supply a copy of the PPA. Any previously issued approval letter will then be revised to reflect the rebate level for the private sector and the payment cap of \$245,000 will be applied if the system capacity is greater than or equal to 100 kW.

¹ Commissioner Frederick Butler did not participate in this matter.

Based on the foregoing, the OCE recommends that the Board approve the above referenced rebate applications. Upon review, the Board **FINDS** that the applications fully conform to all relevant requirements for the CORE program. The Board **HEREBY APPROVES** the aforementioned rebate applications for the amounts requested and **AUTHORIZES** the Staff of the OCE to direct the renewable energy market managers to issue a standard commitment letter to the applicants identified above, setting forth the terms and conditions of this rebate commitment.

1. I am a responsible official and I hold the position of Finance Manager (president; secretary; treasurer; or vice-president, general manager who is in charge of a principal business function) with the following corporation:

Company Name: Honeywell International Inc.
Street Address: 199 Rosewood Drive, Suite 300
City: Danvers State: MA Zip: 01923
Telephone Number(s): 978-774-3007
E-Mail Address: john.cascio@honeywell.com

2. I am authorized to make and submit this affidavit as a representative of Honeywell International Inc. (Company Name).
3. I am familiar with the Customer On-site Renewable Energy ("CORE") applications referenced in Attachment A to this affidavit and I have made an inquiry of those individuals immediately responsible for obtaining the information contained therein.
4. The Renewable Energy Contract Market Manager has affirmed that the Renewable Energy Contract Market Manager, its affiliates, its subcontractors, and/or the affiliates of subcontractors are prohibited from being and are not acting as:
 - a. the applicant for a CORE rebate listed in Attachment A to this Affidavit;
 - b. the recipient of a CORE rebate listed in Attachment A to this Affidavit; and
 - c. the entity performing the installation of the systems related to the applications listed in Attachment A to this Affidavit.
5. The Renewable Energy Contract Market Manager has affirmed that the Renewable Energy Contract Market Manager, its affiliates, its subcontractors, and/or the affiliates of subcontractors will not submit a bid for any of the projects listed on Attachment A in the Public School K-12 and Public Non-School categories.
6. The Renewable Energy Contract Market Manager has affirmed that the Renewable Energy Contract Market Manager, its affiliates, its subcontractors, and/or the affiliates of subcontractors will not submit a bid for any of the Public School K-12 and Public Non-School projects for which an application has been received and placed in the respective public sector queue by the Renewable Energy Contract Market Manager.

7. I acknowledge that the Renewable Energy Contract Market Manager has a continuing affirmative duty to immediately notify the Program Coordinator and Board Staff of any change with respect to paragraphs 4-6 herein above.

I certify under penalty of law that I am familiar with the information submitted in this document and all attached documents and, based on my inquiry of those individuals immediately responsible for obtaining the information, I further certify that the foregoing statements and the information contained in the affirmances referenced in ¶¶ 4-6 are true, accurate and complete. I am aware that there are significant civil and criminal penalties, including the possibility of fine or imprisonment or both, for making false, inaccurate, or incomplete statements.
