CABLE TELEVISION

IN THE MATTER OF THE PETITION OF COMCAST OF)
NORTHWEST NEW JERSEY, LLC FOR A) RENEWAL
CERTIFICATE OF APPROVAL TO CONTINUE TO) CERTIFICATE OF APPROVAL
OPERATE AND MAINTAIN A CABLE)
TELEVISION SYSTEM IN AND FOR THE TOWN OF)
HACKETTSTOWN, COUNTY OF WARREN, STATE OF)
NEW JERSEY) DOCKET NO. CE08121025

(SERVICE LIST ATTACHED)

BY THE BOARD

On March 2, 1978, the Board of Public Utilities ("Board") granted CATV Service Co. a Certificate of Approval in Docket No. 7711C-6336 for the construction, operation and maintenance of a cable television system in the Town of Hackettstown ("Town"). Through a series of transfers with required Board approvals, Storer Cable Communications of Northwest New Jersey, Inc. d/b/a Storer Cable Communications ("Storer") became the holder of the Certificate. On October 7, 1988, the Board granted Storer a Renewal Certificate of Approval for the Town in Docket No. CE88040553. Through a series of additional transfers, with required Board approvals, the holder of the Certificate became Comcast Cablevision of Northwest New Jersey, Inc. ("Comcast"). On May 27, 1998, the Board granted Comcast a Renewal Certificate of Approval for the Town in Docket No. CE98030111, which Certificate was amended on May 9, 2001. Based on a name change, the current holder of the Certificate is Comcast of Northwest New Jersey, LLC ("Petitioner"). Although by its terms the Petitioner's above referenced Certificate expired on March 2, 2008, the Petitioner is authorized to continue to provide cable television service to the Town pursuant to N.J.S.A. 48:5A-25, pending disposition of proceedings regarding the renewal of its Certificate of Approval.

The Petitioner filed an application for the renewal of its municipal consent with the Town on June 1, 2007 pursuant to N.J.S.A. 48:5A-23 and N.J.A.C. 14:18-13.1 et seq. The Town, after public hearing, adopted a municipal ordinance granting renewal consent to the Petitioner on October 14, 2008. On November 10, 2008, the Petitioner formally accepted the terms and conditions of the ordinance. On December 2, 2008, pursuant to N.J.S.A. 48:5A-16, the Petitioner filed with the Board for a renewal of its Certificate of Approval for the Town.

The Board has reviewed the application for municipal consent, the petition for a Renewal Certificate of Approval, and the municipal consent ordinance. Based upon this review and the recommendation of the Office of Cable Television, the Board **HEREBY FINDS** the following:

1. The Petitioner possesses the requisite legal, character, financial and technical qualifications for the awarding of a Renewal Certificate of Approval. Further, the Town reviewed these qualifications in conjunction with the municipal consent process.
2. The design and technical specifications of the system will ensure that the Petitioner provides safe, adequate and proper service.
3. The Petitioner has represented that all previously required construction within the franchise territory is complete.
4. The franchise period as stated in the ordinance is 15 years. The Board finds this period to be of reasonable duration.
5. The Town has reserved the right to conduct a formal review of the performance of the Petitioner at the five and ten year anniversary. The review shall commence upon notification by the Town and shall afford the Petitioner with an opportunity to respond to all inquiries and participate in all proceedings. The review shall conclude no later than six months after the five and ten year anniversary. If the Town determines that the Petitioner has failed to substantially comply with the material terms and conditions of the ordinance, the Town shall provide written notice to the Petitioner of such alleged instances of non-compliance, and shall grant the Petitioner 90 days to cure such deficiency. The Town may petition the Board for appropriate administrative action, including revocation of the franchise or reduction of the franchise term, but only after the 90-day opportunity to cure has passed and the deficiency has not been cured.
6. The Petitioner's rates shall be regulated and tariffs shall be filed for all services, in accordance with the rules and regulations of the Federal Communications Commission, the Board and the Office of Cable Television. The Petitioner shall maintain and file with the Board an informational schedule of prices, terms and conditions for unregulated service and promptly file any revisions thereto.
7. Pursuant to statutory requirements, the ordinance specifies a complaint officer to receive and act upon complaints filed by subscribers in the Town. In this case, it is the Office of Cable Television. All complaints shall be received and processed in accordance with the applicable rules.
8. The Petitioner shall maintain a local business office for the purpose of receiving, investigating and resolving complaints. The office or agent shall be located at the present Port Murray office (155 Port Murray Road in Port Murray (Mansfield Township), New Jersey) or at a location closer to the Town if so chosen by the Petitioner and approved by the Board.

9. The franchise fee to be paid to the Town is specified to be 2% of the Petitioner's gross revenues from all recurring charges in the nature of subscription fees paid by subscribers for its cable television reception service in the Town, and shall be increased as required by N.J.S.A. 48:5A-30. Additional regulatory fees shall be paid to the State in an amount not to exceed 2% of Petitioner's gross operating revenues derived from intrastate operations. The Board finds these fees to be reasonable.
10. The Petitioner shall utilize the line extension policy ("LEP") attached to the Certificate as Appendix "I." The minimum homes per mile figure is 35.
11. The Petitioner shall provide public, educational and governmental ("PEG") access channels and facilities in accordance with its renewal application and the ordinance. Specifically, the Petitioner shall continue to provide one dedicated PEG access channel for use by the Town and its agents and/or representative for the purpose of providing non-commercial PEG access programming to residents of the Town.
12. The Petitioner shall continue to maintain an access return line at the Town High School. Within one year of the date of issuance of this Certificate, the Petitioner shall construct a second access channel return line at a location of the Town's choosing, which location must be within 200 feet of active cable plant. Upon completion, the Petitioner shall provide the Office of Cable Television with proof of satisfaction of this obligation.
13. The Petitioner shall appoint an access coordinator, who, upon reasonable request, shall conduct training sessions in basic television production for interested groups and individuals in the Town.
14. Within 12 months of receipt of this Certificate, the Petitioner shall provide to the Town a one-time grant in the amount of \$45,000.00 for the purchase of video production equipment or to be otherwise used in support of access programming or as the Town deems appropriate. Upon payment, the Petitioner shall provide the Office of Cable Television with proof of satisfaction of this obligation.
15. The Petitioner shall provide standard installation and monthly expanded basic cable television service, to up to 15 outlets, free of charge, in each school in the Town, public and private, elementary, intermediate and secondary. Each additional outlet installed, if any, shall be paid for on a materials, equipment (including monthly charges), plus labor basis by the school requesting such additional outlet(s). Monthly service charges shall be waived on all additional outlets. Conversion of any non-company authorized outlets to Petitioner's standards, including wiring, equipment and installation charges shall also be on a materials plus labor basis.
16. The Petitioner shall provide one standard installation and monthly expanded basic cable television service, free of charge, to one outlet to each police, fire, first aid squad, emergency management facility, and public library as well as to the Public Works Department and Community Center. Each additional outlet

installed, if any, shall be paid for on a materials, equipment plus labor basis by the Town. Monthly service charges shall be waived on all additional outlets. Conversion of any non-company authorized outlets to Petitioner's standards, including wiring, equipment and installation charges shall also be on a materials plus labor basis.

17. Upon written request from the Town, the Petitioner shall appear at least once annually at a public meeting of the governing body to discuss matters pertaining to the provision of cable television service to residents of the Town and other related issues as the Town and Petitioner may see fit.

Based upon these findings, the Board **HEREBY CONCLUDES**, pursuant to N.J.S.A. 48:5A-17(a) and 28(c), the Petitioner has the municipal consent necessary to support the petition, that such consent and issuance thereof are in conformity with the requirements of N.J.S.A. 48:5A-1 et seq., that the Petitioner has complied or is ready, willing and able to comply with all applicable rules and regulations imposed by or pursuant to State or federal law as preconditions for engaging in the proposed cable television operations, that the Petitioner has sufficient financial and technical capacity, meets the legal, character and other qualifications necessary to construct, maintain and operate the necessary installations, lines and equipment, and is capable of providing the proposed service in a safe, adequate and proper manner.

Therefore, the Petitioner is **HEREBY ISSUED** this Renewal Certificate of Approval as evidence of Petitioner's continued authority to construct and operate a cable television system within the entirety of the Town.

This Renewal Certificate is subject to all applicable State and federal laws, the rules and regulations of the Office of Cable Television, and any such lawful terms, conditions and limitations as currently exist or may hereafter be attached to the exercise of the privileges granted herein.

The Petitioner shall adhere to the standards set forth by the Federal Communications Commission's rules and regulations, 47 C.F.R. §76.1 et seq., including but not limited to, the technical standards 47 C.F.R. §76.601 through §76.630. Any modifications to the provisions thereof shall be incorporated into this Certificate.

Failure to comply with all applicable laws, rules, regulations and orders of the Board or Office of Cable Television and/or the terms, conditions and limitations set forth herein may constitute sufficient grounds for the suspension or revocation of this Certificate.

This Renewal Certificate is issued on the representation that the statements contained in the Petitioner's applications are true, and the undertakings therein contained shall be adhered to and enforceable unless specific waiver is granted by the Office of Cable Television pursuant to the authority contained in N.J.S.A. 48:5A-1 et seq.

This Certificate shall expire on March 2, 2023

APPENDIX "I"
OFFICE OF CABLE TELEVISION
LINE EXTENSION POLICY

COMCAST OF NORTHWEST NEW JERSEY, LLC
TOWN OF HACKETTSTOWN

A cable operator is required to absorb the cost of extensions to the system in the same proportion that the extension is to the remainder of the system.

Actual subscribers served by the extension are required to absorb the remainder of the cost.

If new subscribers are added to the extension the cost is adjusted and those who previously paid receive an appropriate rebate.

- | | | | |
|----|---|---|---|
| 1. | <u># of homes in extension</u>
mileage of extension | = | homes per mile (HPM) of extension |
| 2. | <u>HPM of extension</u>
Minimum HPM that company actually constructs in the system * | = | ratio of the density of the extension to the minimum density which the company constructs in the system ("A") |
| 3. | Total cost of building the extension times "A" | = | company's share of extension cost |
| 4. | Total cost of building extension less company's share of extension cost | = | total amount to be recovered from subscribers |
| 5. | <u>Total amount to be recovered from subs</u>
Total subscribers in extension | = | each subscriber's share |

In any case, the company shall extend its plant along public rights of way to:

- 1. All residences and businesses within 150 aerial feet of the operator's existing plant at no cost beyond the normal installation rate.
- 2. All residences and businesses within 100 underground feet of the operator's plant at no cost beyond the normal installation rate.

 * The minimum HPM that the company actually constructs in the system or municipality is the minimum number of homes that the company has historically constructed at its own cost. This is a function of the operator's break-even point and its rate of return. Unbuilt systems will use the primary service area rather than construction.

The operator's installation policies shall apply to construction beyond the public right of way.

Detailed accounting and/or financial information to support the minimum HPM shall be supplied to the Office for its approval in such form as required. The minimum HPM shall be updated as appropriate.

When a request for service is received, and unless good cause is shown, cable companies shall:

1. Provide a written estimate within 30 days of such a request.
2. Begin construction within 60 days of receipt of any deposit monies from potential subscribers.
3. Complete construction within six months of receipt of any deposit monies from potential subscribers.
4. Inform each home passed along the extension of the potential costs for subscribers.

Subscribers who pay for an extension shall be entitled to rebates in the following manner:

1. If the company acquires new subscribers subsequent to the initial calculation of step 5 above, the formula will be adjusted and those who have previously paid for the extension will be entitled to an appropriate rebate. In no event shall the amount of the rebate exceed the subscriber's contribution.
2. The company shall keep accurate records of the cost of the extension, the amounts paid by subscribers and any appropriate adjustments.
3. The company shall notify subscribers in the extension of their rights and responsibilities concerning the extension.
4. Once an individual dwelling has paid its share of the extension cost future reconnections or installations shall be made at the company's standard rates.
5. After a period of five years from the installation of the first dwelling unit in the extension no further adjustments shall be made. Installations after five years shall be at the company's standard rate.
6. Once a subscriber is installed, that person shall not normally be entitled to a refund of any monies paid for the installations, except in accordance with the rebate procedure outlined in this policy.

Definitions

Primary Service Area

The Primary Service Area (PSA) can be an entire municipality, but in many instances the PSA is a limited area within a community outside of which a line extension policy may apply. The PSA is depicted by a franchise map and narrative, presented and recorded during the franchise proceedings. It normally remains a fixed geographic area throughout the life of the franchise.

Line Extension Survey

Potential subscribers residing outside the PSA who request service are entitled to an estimate of their share of the cost to secure service. When conducting a survey and estimating costs, a cable company should factor in all potential subscribers who could practicably be included in the extension and give consideration to apparent residential construction in areas contiguous to the proposed extension.
