

## Addendum to New Jersey Energy Resilience Bank Grant and Loan Financing Program Guide

**The addendum below to Section 4.3.1, paragraph two of the Program Guide modifies eligibility for applicants who suffered indirect impact from Superstorm Sandy or another qualifying disaster.**

### 4.3.1 HUD Requirements

2. At present, applicants must show that the critical facility was directly impacted by Superstorm Sandy or another qualifying disaster listed in Appendix A. Direct impact means physical damage to the facility caused by the eligible disaster. At this time, discussions with HUD to be able to include applicants claiming an indirect impact continue and therefore applicants claiming an indirect impact are encouraged to apply, although there is no guarantee that they will be eligible. The determination of an indirect impact will be made on a case-by-case basis and likely will require guidance from HUD.
