RE: Verizon New Jersey, Docket No. TO12020155

Dear Board Members:

I would like to declare my support for the proposed stipulation between your Board Staff and Verizon as it relates to Opportunity New Jersey. The stipulation will help ensure continued deployment of advanced communications services. Access to these services will not only benefit New Jersey's businesses and nonprofits, but consumers of all ages as well. I'm sure you will agree that advanced communications technologies have revolutionized how all residents and businesses in the Garden State communicate and we must ensure that future innovations by this industry find a home here in New Jersey.

New Jersey has benefitted from the significant investments Verizon has made here to build a robust communications network. Our state is now the most wired broadband state in the country and continued investment in broadband technologies will be critical to New Jersey's ongoing economic competitiveness.

Thank you for considering my views and for examining this issue so closely. I strongly urge you to approve the proposed stipulation without further delay.

Sincerely,  
Dan Fatton

**To:** Secretary, Board  
**Subject:** Verizon New Jersey, Docket No. TO12020155".

I am upset and disappointed in My NJ elected officials and their political integrity. I have paid surcharges on my Verizon phone bill, with NJ legislative approval since the early 1990's. This surcharge was so we, as New Jersey residents, would be a state totally wired for Fios service . Verizon has collected, and benefited, from tax breaks and incentives, in the ballpark area of \$15 BILLION. That is 15 BILLION DOLLARS, in taxpayer money, for a product that they have no delivered , and don't plan to deliver. As a matter of fact they are 4 years past their promised deliver date for the whole state, an they still have less then half of the State of New Jersey wired. As a taxpayer I am livid, not only with Verizon, but with the elected official of this State, that they are not willing to stand up to this corporation, and demand that they deliver on their promise to wire the COMPLETE STATE.

They obviously had no problem Taking the WHOLE STATES tax dollars, and Tax incentives. As a concerned citizen I would be leery of any future proposal from any state official with plans and or promises of improvements to the state infrastructure. I am urging you, as a board of public utilities, to hold company's responsible for the promises they made, and to not consider any alternative that would allow them to worm their way of their commitment. I would expect that persons in a position of authority, demand on my part, that Verizon either fulfill their commitment, or reimburse the State taxpayers, and Verizon customers the BILLIONS that was, in other words stolen from them.

Thank You,

Retiredrein425

**RE: Docket No. TO12020155 (Verizon New Jersey)**

To the Members of the New Jersey Board of Public Utilities:

I am writing to express my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Thanks to Verizon's commitment to building an advanced communications network in New Jersey, consumers and businesses in our state have access to high-speed broadband. Access to advanced communications technologies is no longer a luxury; it's a necessity. Because Verizon has invested billions of dollars in our state over the last decade, consumers here can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. And, the future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and I am confident that you can continue to count on Verizon to work with the communities it serves to deliver the benefits of broadband services through this program.

I sincerely appreciate the work you, your Staff and Verizon have done to make New Jersey a broadband leader and hope you will move forward with the proposed stipulation without any reservations.

Thank you for considering my views.

--

Best Regards,

Cristian Gonzalez

Greetings,

Verizon should be forced to make good on it's promises, especially after taking the public's money.

As a JCP&L technician, I work with Verizon employees who work on the copper network. They say that Verizon is actively trying to get rid of the copper network or sell it to someone else. They also say that the problem with FIOS is that it was never marketed correctly. No one did any studies to see where FIOS should be installed...they just put it where they wanted and expected people to come in droves to buy it. That never happened.

Once again, they made the promise, they should stick with it.

Thanks for your time.

Sincerely,

William K. Marshall

**To:** Secretary, Board  
**Subject:** Cumberland County FIOS Verizon Stipulation #12020155

I emailed earlier in the week concerning Verizon Stipulation #12020155 and wanted to add one more thought. Verizon is proposing they should not have to run FIOS wherever a 4G signal is available. All of the mobile plans they offer come with data limits and higher costs that are not comparable to FIOS. Its is unfair for Verizon to offer the lower cost to some and not all. PLEASE VOTE DOWN Verizon Stipulation #12020155
