19:46-1.16 Dice; receipt; storage; inspections and removal from use

(a) When dice for use in the casino or casino simulcasting facility are received from the manufacturer or distributor thereof, they shall, immediately following receipt, be inspected by a member of the casino security department or casino accounting department and a casino supervisor to assure that the seals on each box are intact, unbroken and free from tampering. Boxes that do not satisfy these criteria shall be inspected at this time to assure that the dice conform to Commission standards and are completely in a condition to assure fair play. Boxes satisfying these criteria, together with boxes having unbroken, intact and untampered seals shall then be placed for storage in a locked cabinet in the cashiers' cage or within a primary or secondary storage area. Dice which are to be distributed to gaming pits or tables for use in gaming shall be distributed from a locked cabinet in the cashiers' cage or from another secure primary storage area, the location and physical characteristics of which shall be approved by the Commission. Secondary storage areas shall be used for the storage of surplus dice. Dice maintained in secondary storage areas shall not be distributed to gaming pits or tables for use in gaming until the dice have been moved to a primary storage area. All secondary storage areas shall be located in secure areas, the location and physical characteristics of which shall be approved by the Commission.

(b) All primary and secondary storage areas, other than the cashiers' cage, shall have two separate locks. The casino security department shall maintain one key and the casino department or cashiers' cage shall maintain the other key; provided, however, that no person employed by the casino department below the table games shift manager in the organization hierarchy shall have access to the casino department key. (a) When sets of tiles to be used at pai gow are received from the manufacturer or distributor thereof, they shall immediately following receipt be inspected by a member of the casino security department and a casino supervisor to assure that the seals on each package are intact, unbroken and free from tampering. Packages that do not satisfy these criteria shall be

inspected at this time to assure that the tiles conform to Commission standards and there is no evidence of tampering. Packages satisfying these criteria, together with packages having unbroken, intact and untampered seals shall then be placed for storage in a locked cabinet within a primary or secondary storage area. Sets of tiles which are to be distributed to gaming pits or tables for use in gaming shall be distributed from a locked cabinet in the cashiers' cage or from another secure primary storage area, the location and physical characteristics of which shall be approved by the Commission. Secondary storage areas shall be used for the storage of surplus tiles. Tiles maintained in secondary storage areas shall not be distributed to gaming pits or tables for use in gaming until the tiles have been moved to a primary storage area. All secondary storage areas shall be located in secure areas, the location and physical characteristics of which shall be approved by the Commission.

(b) All primary and secondary storage areas, other than the cashiers' cage, shall have two separate locks. The casino security department shall maintain one key and the casino department or cashiers' cage shall maintain the other key; provided, however, that no person employed by the casino department below the table games shift manager in the organization hierarchy shall have access to the casino department key. Tiles stored in a cabinet within the cashiers' cage shall be secured by a lock, the key to which shall be maintained by a table games shift manager or casino supervisor thereof.

(c) Immediately prior to the commencement of each gaming day and at such other times as may be necessary, the table games shift manager or casino supervisor thereof, in the presence of a casino security officer, shall remove the appropriate number of sets of tiles for that gaming day from a primary storage area.

(d) All envelopes and containers used to hold or transport tiles shall be transparent.

1. The envelopes or containers and the method used to seal them shall be designed or constructed so that any tampering shall be evident.

2. The envelopes or containers and seals shall be approved by the

Commission.

(e) The table games shift manager or casino supervisor thereof shall distribute sufficient sets of tiles to the pit boss in each pai gow pit.

1. The pit boss shall then distribute the sets to the dealer at each table, and shall place extra sets in reserve at the pit stand.

2. Sets of tiles in reserve shall be placed in a locked compartment, keys to which shall be in the possession of the pit boss or casino supervisor thereof.

(f) If during the course of play any damaged tile is detected, the entire set of tiles shall be immediately replaced. The dealer or floorperson shall request that the pit boss bring a substitute set of tiles to the table from the reserve in the pit stand.

1. The set of damaged tiles shall be placed in a sealed envelope, identified by table number, date and time and shall be signed by the dealer and casino supervisor.

2. The pit boss shall maintain the envelope or container in a secure place within the pit until collection by a casino security officer.

(g) Tiles used at pai gow shall be changed at least every 12 hours. The casino supervisor shall collect used tiles which shall be placed in a sealed envelope or container.

2. The pit boss shall maintain the envelopes or containers in a secure place within the pit until collection by a casino security officer.

(h) The casino licensee shall remove any tiles at any time of the gaming day if there is any indication of tampering, flaws, scratches, marks or other defects that might affect the integrity or fairness of the game, or at the request of the Commission or Division.

(i) All extra sets of tiles in reserve which have been opened shall be placed in a sealed envelope or container, with a label attached to each envelope

or container which identifies the date and time and is signed by the pit boss.

(j) At the end of each gaming day or at such other times as may be necessary, a casino security officer shall collect and sign all envelopes or containers with damaged tiles, tiles used during the gaming day, and all extra tiles in reserve which have been opened, and shall return the envelopes or containers to the casino security department.

(k) At the end of each gaming day or at such other times as may be necessary, a table games shift manager or casino supervisor thereof may collect all extra sets of tiles in reserve which have not been opened. If collected, all unopened sets of tiles shall either be cancelled or destroyed or returned to the storage area.

(l) When the envelopes or containers of used tiles and reserve sets of tiles which have been opened are returned to the casino security department, they shall be inspected for tampering, marks, alterations, missing or additional tiles or anything that might indicate unfair play.

1. The casino licensee shall cause to be inspected all sets of tiles used during the gaming day.

iii. The Commission Inspector receiving the tiles shall sign the original, duplicate and triplicate report and shall retain the original at the Commission Booth. The duplicate copy shall be delivered to the Division office located within the casino hotel facility. The triplicate copy shall be retained by the casino licensee.

(m) If after completing the inspection procedures required in (l) above, it is determined that a complete set of 32 tiles removed from a gaming table is free from tampering, markings or alterations, that set may be returned to the pai gow storage area for subsequent gaming use in accordance with procedures approved by the Commission. In no event may individual tiles from different sets be used to make a complete set for subsequent gaming use.

(n) The casino licensee shall submit to the Commission for approval, procedures for:

1. An inventory system which shall include the recordation of at least the following:

3. A physical inventory of the sets of tiles at least once every three

months.

i. This inventory shall be performed by an individual with no incompatible functions and shall be verified to the balance of the sets of tiles on hand as required in (n)1i above.
