

Dear Friends:

We are hard at work to better serve our residents, and it gives me great pleasure to offer this electronic newsletter as a way for you to keep abreast of news and events in Mercer County government.

I consider it an honor to serve as your County Executive, and this publication is another step toward one of my Administration's priorities: making Mercer County government open, accessible, and responsible.

We have made great strides toward transparency in government, sustainability and many other goals since I took office in 2004, but I know that we have much more to achieve. County government brings our communities together, because it is large enough to improve the quality of life countywide, yet small enough to touch individual citizens. I will continue to improve the quality of life for all Mercer County residents, always looking for new ways to make Mercer County a better place to work, live, play, and raise a family.

Thank you.

Sincerely,
Brian M. Hughes
Mercer County Executive
