

N.J.A.C. 4A:4-2.3(b) provides that applicants shall meet all requirements specified in the open competitive examination announcement by the closing date.

CONCLUSION

The appellant was correctly denied admittance to the subject examination since he lacked one year, nine months of qualifying experience as of the August 31, 2016 closing date. His experience in the second position, as an Implementation Specialist/Project Manager with Atlantic Alarms and Electrical was inapplicable as the duties involved assessment, recommendation, and implementation of electrical, burglary and fire safety detection systems. While the appellant rewords these duties on appeal as construction and renovation projects, the primary focus does not match the scope of the announced experience. Selling and ensuring proper installment of alarms, and electrical systems to support them, does not encompass the range of renovation and/or construction of buildings and structures.

Additionally, selling real estate, providing support for an Internet presence, and other Information Technology support services, is not applicable. Thus the appellant's remaining positions are not qualifying experience. Lastly, the appellant's attendance at Rutgers Center for Government Studies did not involve earning college credits. Therefore, the appellant has not demonstrated the necessary experience to establish eligibility for the title under test.

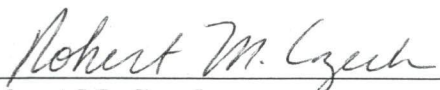

An independent review of all material presented indicates that the decision of the Division of Agency Services, that the appellant did not meet the announced requirements for eligibility by the closing date, is amply supported by the record. The appellant provides no basis to disturb this decision. Thus, the appellant has failed to support his burden of proof in this matter.

ORDER

Therefore, it is ordered that this appeal be denied.

This is the final administrative determination in this matter. Any further review should be pursued in a judicial forum.
