SEPTEMBER 2012 HIGHLIGHTS

- New Jersey construction offices issued building permits for \$854.3 million in September. This was about the same as last month.
- Residential work was \$388.5 million, 45.5 percent of all activity. Office, retail, and other nonresidential construction amounted to \$434.6 million, 48 percent.
- Office, retail, and other nonresidential work amounted to \$465.8 million (54.5 percent).
- 530 municipalities reported.
- 1,690 new dwellings were authorized in September. This was 56.3 percent more than last month. Fort Lee in Bergen County and Harrison in Hudson County accounted for 537 and 326 authorized units, respectively--over half of the new houses in New Jersey in September.
- Hanover Township in Morris County reported the highest dollar amount of work, for \$65.9 million. An office renovation and addition by Bayer Pharmaceuticals accounted for most of this. The office complex will serve as Bayer's East coast headquarters.
- Montvale Borough in Bergen County ranked second in September with \$33.5 million of work. A new health club, spa, and pool had an estimated cost in excess of \$31 million.
- Two new apartment buildings in Fort Lee accounted for much of the \$24.6 million of activity in September. Over \$10 million was a partial release for footing and foundation and other early work for a new 47-story, mixed-use high-rise building. It will have 451 market-rate apartments. Also underway is a \$10.8 million conversion of an existing building that will create another 120 rental units.

Year to Date

- The estimated dollar amount of work authorized by building permits is \$8.328 billion. This is only \$65.6 million more than this time last year, an increase of less than one percent. Other major indicators, however, are up by at least one-third.
- 11,169 new houses were authorized by building permits between January and September 2012. This is 2,865 units more than this time last year, an increase of 34.5 percent.

- New office and retail space also is up by 34.9 and 36.3 percent, respectively.
- Jersey City in Hudson County has \$209.2 million of work for the period January through September 2012. No other locality had more. For more than a decade, Jersey City ranked at or near the top with the most work. New homes had a featured role. This trend continued in 2012. Jersey City issued building permits for 552 new dwellings between January and September 2012, second only to Fort Lee with 785 authorized housing units.
- Newark had \$179.6 of construction through September. Two large university developments at Rutgers University-Newark campus and the New Jersey Institute of Technology, accounted for over \$60 million of activity. Other big projects include a new office building for Panasonic Electronics and a new charter school.

- Franklin Township (Somerset County) has \$105.2 million through September mixed between residential and commercial work. The Township had 475 new dwellings in 2012 thus far, ranking third among municipalities. One of the bigger commercial projects was a \$13.5 million expansion and renovation of an existing warehouse to serve as a data storage facility.
- Cliffside Park in Bergen County has \$100.7 million of work. A 14-story, 300-unit condominium development accounted for \$90.6 million.
- “State buildings” is a category of work that includes permits issued to State government agencies or their instrumentalities, like the New Jersey Turnpike Authority and other special-purpose agencies, as well as construction by public colleges and universities. The dollar amount of work authorized for State Buildings through September is \$260.1 million. Some of the bigger developers include work for Kean University (\$40.2 million), Rutgers University (\$24 million), New Jersey Transit (\$20 million), and Rowan University (\$14.3 million).

New House Prices

- A total of 1,433 new houses began enrollment in a new home warranty program in the third quarter 2012. Half of them had a sales price of \$416,000 or more. This was a decline of 3.1 percent compared to second quarter 2012.
- Morris, Bergen, and Hunterdon Counties had the highest priced new houses.

THE NEW JERSEY CONSTRUCTION REPORTER contains statistics on construction activity in New Jersey. Information in the report comes from construction officials who administer the State Uniform Construction Code (UCC) (N.J.A.C. 5:23-1 et seq.) in New Jersey's 566 municipalities.

Each month, construction officials send to the New Jersey Department of Community Affairs (DCA) reports on the permits and certificates they issue. Permits authorize the start of construction and cover four types of activity: (1) New construction permits authorize the start of a new structure. (2) Permits for additions refer to work that will add space (volume and square feet) to an existing building. (3) Alterations also involve existing structures, but the work authorized will not add space. Typically, construction officials issue permits for alterations when the work is subject to one or more of the UCC's major subcodes (building, electrical, plumbing, fire protection). (4) Demolition permits authorize the removal of a building or some other structure. The *CONSTRUCTION REPORTER* identifies only those demolitions that will result in the loss of housing.

In addition to permits, the *CONSTRUCTION REPORTER* has information on the certificates issued by construction officials. While permits authorize the start of construction, certificates are issued for work completed and ready for occupancy. Each month, the *CONSTRUCTION REPORTER* will report on the number of housing units and the amount of office and retail space authorized for construction, along with the number of housing units and the amount of office and retail space completed.

Data Comparability

The *CONSTRUCTION REPORTER* contains information on authorized housing units that is tabulated two different ways. The DCA tabulates Tables 1 through 3 and Tables 8 through 13 based on the use of buildings, defined in "groups" by New Jersey's UCC. Exhibit B on page 3 summarizes these groups.

Tables 4, 5, and 6 show authorized housing units as defined and tabulated by the United States Census Bureau. The New Jersey Department of Labor and Workforce Development prepares these tables for publication in the *CONSTRUCTION REPORTER*. Exhibit C on page 4 describes the housing definitions used by the Census Bureau.

The DCA series and the Census Bureau series on authorized housing units differ two important ways. First, the DCA series includes housing units created as a result of permits issued to alter or make additions to existing structures. The Census Bureau counts only those housing units authorized from permits issued for new construction.

Second, the Census Bureau imputes data for localities that fail to submit monthly reports on time. An asterisk in the Census column of data appearing in the Municipal Summary Data table at the back of the *CONSTRUCTION REPORTER* indicates those towns with imputed data. The Census Bureau bases these imputations on historic trends. The DCA series shows information for only those towns that submitted monthly reports. If a municipality failed to submit a monthly report on time, "No report" appears in the appropriate columns in the Municipal Summary Data table.

Additional Terms

A number of other terms appear in the tables throughout the *CONSTRUCTION REPORTER*. Exhibit A on page 2 defines additional construction permit and certificate terms.

Exhibit A

Summary of Building Permit and Certificate Terms	
Addition	Permit type issued for construction work that adds space (volume and square feet) to an existing structure.
Alteration	Permit type involving one or more subcodes (building, electrical, fire protection, and plumbing). The work is authorized for an existing structure and does not add new space.
Certificate	A document issued by a construction official indicating completion of work for which a permit was issued.
Dollar Amount of Construction	Estimated cost of work, as reported by the permit applicant to the construction official.
Demolition	Permit type authorizing the demolition of an existing structure.
Housing Units Certified	A rental or for-sale unit completed and certified by the construction official for conforming to the standards in the New Jersey UCC.
Housing Units Authorized by Building Permits	A rental or for-sale dwelling unit authorized by a construction permit. See Exhibits B and C for explanations of the different definitions of housing structures. The Table 1 series and Tables 2 and 3 show housing units as classified by the residential use groups defined in Exhibit B. Tables 4, 5, and 6 identify authorized housing as defined by the U.S. Census Bureau. (See Exhibit C.)
Housing Unit Demolitions	Rental or for-sale housing to be demolished, as reported to the construction official by permit applicants.

Exhibit C

Residential Structures (U.S. Census Bureau Definitions)

Tables 4, 5, and 6 show authorized housing units based on the structure types defined below by the U.S. Census Bureau. The number of units shown in these tables refers to those authorized by building permits issued for new construction only.

Single-Family Houses

Include all detached one-family houses and all attached one-family houses separated by a wall that extends from ground to roof with no common heating system or inter-structural public utilities. Include prefabricated, sectionalized, panelized, and modular homes that are manufactured partially off site, but are transported and assembled at the construction site.

Two-Family Buildings

Include all buildings with two housing units that may be above one another or side by side. If built side by side, the structures (1) do not have a wall that extends from ground to roof; or (2) share a heating system; or (3) have inter-structural public utilities, such as water supply and sewage disposal.

Three- and Four-Family Buildings

Include all buildings with three or four housing units. If built side by side, the structures (1) do not have a wall that extends from ground to roof; or (2) share a heating system; or (3) have inter-structural public utilities, such as water supply and sewage disposal.

Five-or-More-Family Buildings

Include all buildings with five or more housing units. If built side by side, the structures (1) do not have a wall that extends from ground to roof; or (2) share a heating system; or (3) have inter-structural public utilities, such as water supply and sewage disposal.

Private Housing Units

Housing owned by a private company or individual during the period of construction. This includes all housing built by nonprofit organizations and "turnkey" housing; for example, housing that will be sold to a local public housing authority when completed.

Public Housing Units

Housing owned by a governmental body during the period of construction.

NOTE:

Users of the monthly *CONSTRUCTION REPORTER* may notice that year-to-date figures in a particular issue may not be obtained by merely summing the monthly totals that appear in previous issues. This is because the construction data compiled by the New Jersey Department of Community Affairs are continuously updated. Monthly construction reports submitted too late to make the January issue of the *CONSTRUCTION REPORTER*, for example, are included in the year-to-date totals that appear in the February issue.
