Telephone & Internet Registration

Registration into courses will be exclusively through the Web-based Course Registration Process. **Phone registration will not be accepted.** To register for courses using the Internet, go to the New Jersey State website, www.nj.gov and click away! For those of you who have previously created a myNewJersey account, simply log-in and enter yourself into the courses!

Registration Periods

The registration period begins on **March 1, 2016**, and continues through the semester. You may register for a maximum total of six (6) courses for the spring 2016 semester. In special cases you may register for additional classes over the maximum limit; however, registration will be permitted only on a space available basis and must be approved by the Division of Fire Safety staff at 609-777-3552. Credit will not be issued for repeat courses which have already been completed within your active certification cycle, with the exception of Code Update. The Division of Fire Safety reserves the right to limit the number of enrollments per person.

Withdraw From a Course - You must contact the Division of Fire Safety by phone to withdraw from a course. Withdrawals are not accepted via the internet. Please contact our office no later than 48 hours prior to the course date at 609-777-3552 between the hours of 9 a.m.- 3 p.m., Monday- Friday. Please provide the course name, date, location and your DFS six digit Fire Service Identification Number (1XXXXX) when withdrawing from a course. For your records, a withdraw notice will be automatically mailed to you. Failure to withdraw or receiving a no show on your record could result in the DFS revoking registration privileges for future classes. Please be courteous to other fire service members who are on course standby lists and have the opportunity to fill your seat in the event that you are unable to attend the class.

Course Confirmation Notice - If you do not receive a reminder within two days of the course date, please call the Division of Fire Safety to verify your registration at 609-777-3552. You may change and/or verify your address at any time on-line through your account personal information screen.

Multiple Dwelling Inspector Information - UCC Fire Inspectors/Officials who also hold a Multiple Dwelling Inspector license may use any ONE of the Code Enforcement courses per three year license cycle for renewal of a multiple dwelling license. Further information may be obtained by calling 609-984-7834. The following course codes qualify for Multiple Dwelling Inspector credit: CE153, CE501, CE547, CE755, CE765, C2T23, CE537.

*New Email Requirement

The Division of Fire Safety has modified its computer system to require that each person registering into a course must have a valid, permanent email address on the personal information page of their myNewJersey account. A permanent email address is one which will not be affected by a change in internet service provider, for example yahoo, gmail, aol or msn. Please check your personal information page to ensure a complete email address is displayed. For example johndoe@yahoo.com. Should you attempt to register without an email address on your record, the computer will present an error message which will instruct you to add an email address. **You will be prohibited from enrolling into the courses unless a complete, permanent email address is added to your record.** This new requirement is to ensure that the Division of Fire Safety has valid email addresses for each person registered. This will facilitate communicating to enrolled students should a course delivery be cancelled due to illness of the instructor or weather conditions. Please go to Registration Help and select Videos for a video on how to update your email address. <http://www.keanfiresafety.com/RegistrationHelp/Video.html>.

Web-based Registration - Online access through an individual myNewJersey account is now available at www.nj.gov. Through myNewJersey, you are now able to access and update your personal information, review and print your course enrollment list, review and print your completed course list, obtain a certificate of attendance for any course you have completed, review and print your current certification list and certificates, and review and print your courses completed for certification as well as register for current courses. For your assistance, video tutorials have been created to show you, screen by screen, how myNewJersey functions. To view these videos, from the home screen go to Registration Help and select Videos. <http://www.keanfiresafety.com/RegistrationHelp/Video.html>.

Video tutorials are available on the following topics:

- How to create a myNewJersey account
- How to login to myNewJersey
- How to reset your password
- How to link an already created myNewJersey account
- The registration process
- How to update your email address

For students who have NEVER registered for courses online: From the home screen of www.keanfiresafety.com go to Registration Help and then click on myNewJersey Account Set-Up and Authorization to begin the registration process. <http://www.keanfiresafety.com/RegistrationHelp/NewAccount.html>. It is highly recommended that the video, "How to register for NJ Division of Fire Safety courses" be viewed prior to beginning to register in order to obtain important procedural information. For all other technical support, please call our office at 908-737-3060, Monday - Friday, 10 a.m. to 2 p.m.

For All Students - If you are unable to attend a course, please call 609-777-3552 to cancel as soon as possible so that someone else may use your space. Failure to cancel will be recorded and action may be taken. Do not call the academy where the course is being held to cancel. Credit will not be given for repeating a course within a three-year period, with the exception of Code Update. Although computer records are kept, you should keep a record of the courses you have completed. All courses begin promptly at 8:30 a.m. and conclude at approximately 3:30 p.m., unless otherwise indicated. In order to receive course credit, you must be present prior to the start of class and in the classroom for the entire course. Credit may not be granted if you arrive late, return late from lunch and breaks, leave early, or if you are not in the classroom while the course is in session. The use of electronic devices (i.e. texting, ipad/laptop usage or any other electronic devices) that will disturb the instruction of the course delivery is strictly prohibited. Students who do not adhere to the guidelines will be asked to remove themselves from the classroom and will not receive credit for the enrolled course.

Confirmation of Attendance - Students can receive same-day confirmation of attendance at a course. If you are interested in receiving verification on the day you attend a course, you must bring your confirmation notice with you to class. After the class has concluded, the facilitator will stamp this notice as proof that you attended the course.

Dress Code - The Division of Fire Safety has instituted a dress code for attendance at courses. Appropriate dress includes long pants, shirts with sleeves, and shoes. Sleeveless shirts, shorts, and hats are not permitted at any DFS course, exam or conference. Facility representatives will enforce this dress code, and those who do not comply may be dismissed from the course and/or lose credit.

The Division of Fire Safety reserves the right to cancel a course for any reason related to program delivery. For example, a course may be canceled due to low enrollment.

The NJ Division of Fire Safety strives to provide the NJ Fire Service and Code Enforcement officials with access to timely, informative and effective training and education. To stay current with changing demands and requirements placed on all first responders, the Division, in cooperation with Kean University, issues this Request for Course Proposals for upcoming semesters from qualified individuals interested in teaching and training the Fire Service community.

Specifically, the Division of Fire Safety requests proposals for continuing education courses related to training, education and communications issues relevant to fire service personnel throughout New Jersey. New proposals can cover a myriad of topics ranging from management and leadership skills to inspections and instructor specific courses. Current hot topics, including operations as well as fire service health and safety, also will be considered.

The Division encourages potential instructors to submit new ideas, teaching methods and programs as part of this call for proposals. Ultimately, these proposals will be judged on their timeliness, effectiveness, quality and relevance to the fire service. All proposals must include a detailed fee structure for development and execution.

This Request for Course Proposals is detailed and comprehensive. To be reviewed and/or considered for an upcoming teaching assignment, please submit all materials outlined in the Course Proposal checklist attached to this notice. Submissions that do not include all items referenced on the checklist will not be reviewed.

Please mail completed materials to:

Mrs. Karen A. Grant-Haber
Program Director
Kean University
Fire Safety Training Program
1000 Morris Avenue, L-145
Union, NJ 07083

For more information, contact the Fire Safety Training Program at:
908-737-3060 or via email at firesafety@kean.edu.

FIRE SAFETY TRAINING PROGRAM 2016 REQUEST FOR COURSE PROPOSAL

BURLINGTON COUNTY EMERGENCY SERVICES TRAINING CENTER

53 Academy Drive, West Hampton, NJ 08060
Phone: 609-702-7157, Fax: 609-702-7157
www.co.burlington.nj.us/etsc

Originally opened in the early 1970's, the Burlington County Fire Academy became the Burlington County Emergency Services Training Center in 2002. The current 35,000 sq. ft. facility opened in August of 2004 and includes a 149 seat auditorium, five classrooms, four bay apparatus room / practical area, including an indoor SCBA confidence room and confined space training area. Also included within the facility is a full cafeteria and administrative offices. The offices of the Burlington County Fire Marshal are within the facility as well.

The fire training grounds include three burn buildings, a Class "A" residential/commercial, a five story training tower with a Class "A" burn room, and a Class "B" residential/commercial with three story stair tower. There are three vehicle burn areas, a propane car fire simulator, a propane highway tanker fire/HAZMAT simulator, and a natural gas rail car fire simulator. There is an SCBA confidence building, vehicle extrication area, natural gas simulators, a flammable liquids training area, drafting pond and roof simulator. Most recently a Flashover simulator was added. There are several smaller upgrade projects still underway.

With an instructor staff of fifty full and part time instructors, each year the ESTC offers basic and advanced Fire and EMS training to more than 2500 First Responders from Burlington County and beyond. Additional programs include NJ DFS certification and ceu programs for Fire Inspector/Official, Fire Officer, Fire Instructor and Incident Management. Through an agreement with Rowan College at Burlington County the ESTC offers courses that earn credit toward an Associate in Applied Science Degree in Fire Science Technology.

ATTENTION NEW JERSEY FIRE DEPARTMENTS

PEOSH FIRE SERVICE UPDATE

Public Employees Occupational Safety and Health

Please join us at one of six locations throughout NJ for a PEOSH Fire Service Update. PEOSH representatives from the New Jersey Department of Labor and Workforce Development (Safety) and NJ Dept. of Health will be providing information on what PEOSH Enforcement is looking for when they inspect Fire Departments. PEOSH will also provide details on their cooperative services including Consultation and Training which can help you comply with their adopted rules. Some topics that will be discussed include:

- NJAC 12:100 SUBCHAPTER 10 STANDARDS FOR FIREFIGHTERS
- TRAINING REQUIREMENTS
- TURNOUT GEAR
- FIRE APPARATUS
- RESPIRATORY PROTECTION
- HAZARD COMMUNICATION
- CONTROL OF HAZARDOUS ENERGY
- BLOODBORNE PATHOGENS
- AND MANY MORE

There will be time for questions and answers following each training session.

PROGRAM PRESENTED BY THE NEW JERSEY DIVISION OF FIRE SAFETY

COACHING FOR POSITIVE OUTCOMES

CE063

Instructor: *Claudia A. Monte, CAM Consulting Group LLC*

Goals provide structure and direction. In organizations, they are integral to aligning individual performance with strategic objectives. Personally, they keep us focused and moving forward. Whether we have formal or informal leadership roles, we can help develop the strengths of others so they can acquire the skills and knowledge needed to do their jobs effectively. Coaching, mentoring, and counseling are all part of the process of goal achievement. Participants will leave with a coaching style that motivates people to continually move towards goal achievement.

THURSDAY, APRIL 21

CAMDEN COUNTY FIRE ACADEMY

SATURDAY, APRIL 23

MONMOUTH COUNTY FIRE ACADEMY

COMMUNICATING FOR RESULTS

CE092

Instructor: *Claudia A. Monte, CAM Consulting Group LLC*

We communicate all the time, but are we achieving the results we want? There are many communication mediums available today – in person, written (correspondence and email), telephone, video and teleconferences, etc. The challenges are several: choosing the appropriate way to share a message; showing sensitivity to others; creating understanding across generations; and focusing on results. The rewards are many when interpersonal dynamics are managed properly and respectfully. Participants will leave feeling more confident in their ability to interact professionally with others.

MONDAY, APRIL 25

OCEAN COUNTY FIRE ACADEMY

SATURDAY, APRIL 30

MORRIS COUNTY FIRE ACADEMY

COMMUNITY RISK REDUCTION: INTEGRATING OUR EFFORTS

NEW

N2N77

Instructor: *Lt. Michael O. McLeieer, City of Olivet (MI) Fire Department*

This course is intended to familiarize fire operations personnel with the concepts of community risk reduction, stressing their importance in today's tough economic times. It is more important than ever for the fire service to seek innovative mitigation strategies to manage call volume and improve firefighter and public safety. This course was created by Vision 20/20, a project of the Institution of Fire Engineers, USA in cooperation with the National Fallen Firefighters Foundation and the National Fire Academy. The goal of this course is to provide national strategies to be utilized at the local level for fire loss prevention.

WEDNESDAY, APRIL 13

BERGEN COUNTY FIRE ACADEMY

EMOTIONAL INTELLIGENCE - OUR OTHER INTELLIGENCE

NEW
CE171

Instructor: *Claudia A. Monte, CAM Consulting Group LLC*

Why, despite equal intellectual capacity, training, or experience, do some people excel while others with the same abilities don't achieve the same level of success? Emotional Intelligence (EI/EQ) is the critical factor that helps us harness the power of our emotions to achieve personal and professional success. You are not only known by the results you accomplish, but are most remembered by how you did it. Learn how Emotional Intelligence can positively impact your life, your performance, and your relationships.

FRIDAY, APRIL 29

PASSAIC COUNTY FIRE ACADEMY

FIRE AND LIFE SAFETY EDUCATION THAT YOUR COMMUNITY CAN LIVE WITH

CE167

Instructors: *Helge Nordtveit, Captain (ret.), Cranford Fire Department*
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course is designed for both volunteer and career members of the fire service. It provides an opportunity for local departments to shift focus to fire and life safety education and prevention by using creative programming to include all personnel in the process. Examples of successful low-cost programming will be described and presented as well as networking strategies to enlist cooperation from local government, school districts and influential community groups. Some dynamic class assignments will be included.

THURSDAY, APRIL 14

MERCER COUNTY FIRE ACADEMY

TUESDAY, MAY 10

BURLINGTON COUNTY ESTC

"FIRE IS"**CE159**

Instructors: *Andrew Stratton, Captain, Cranford Fire Department*
Helge Nordtveit, Captain (ret.), Cranford Fire Department
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course will provide fire service personnel with a comprehensive overview of the "Fire Is" fire safety education curriculum. The goal of this program, is not only reaching middle school-aged children as they begin to understand fire, but their parents/guardians and caregivers as well. The curriculum is centered on a home-based learning system employing television, the internet, and public volunteers to put a new face on fire safety. Session attendees will receive copies of the program, letters of endorsement from pilot schools in NJ who have heralded its success; a course curriculum guide; and simplified instruction on how to implement the program without taxing the schools' current curriculum or teacher workload. The instructor will present the media and public views on how fire safety and the fire service are portrayed in the media to children and their families.

FRIDAY, MARCH 18**GLOUCESTER COUNTY FIRE ACADEMY****TUESDAY, MARCH 22****MORRIS COUNTY FIRE ACADEMY****WEDNESDAY, MARCH 30****BURLINGTON COUNTY ESTC**

LEADERSHIP: A SELF ANALYSIS

CE061

Instructor: *Michael J. Corbo, Deputy Chief (ret.), Pleasantville Fire Department Director, Atlantic County Fire Training Center*

This course will provide students with the opportunity to look at the leadership qualities they already possess and the qualities they need to develop to become better leaders. We will examine the 11 characteristics that effective leaders possess and the traits that make up each characteristic. Each attendee will work through exercises to determine if they already exhibit any of the 11 characteristics and which traits they need to develop in order to become a more effective leader.

WEDNESDAY, MAY 4

PASSAIC COUNTY FIRE ACADEMY

WEDNESDAY, JUNE 1

MONMOUTH COUNTY FIRE ACADEMY

LEADERSHIP IN THE REAL WORLD

CE168

Instructor: *Robert T. Burns, Battalion Chief (ret.) FDNY*

This class will involve a candid discussion of proven leadership principles and demonstrate how they can be applied in today's emergency service work environment. Unlike many leadership programs which only describe the characteristics and traits that leaders should possess, "Leadership in the Real World" combines cutting edge theories with skills and behaviors that students will be able to use "on the job", in their departments, every day. The curriculum will cover the four core concepts required for effective leadership: promote yourself, find your voice, know the tools of the leadership trade, and communicate effectively. The technical knowledge and no-nonsense skills presented in this class will serve as a foundation for effective leadership development.

WEDNESDAY, MAY 25

BERGEN COUNTY FIRE ACADEMY

THURSDAY, MAY 26

MIDDLESEX COUNTY FIRE ACADEMY

MOVING FORWARD TOGETHER

CE153

Instructor: *Claudia A. Monte, CAM Consulting Group LLC*

The challenge of group dynamics is having diverse individuals work together as a team to achieve a common goal. The quality of team relationships directly impacts performance, motivation, retention, and customer satisfaction (internal and external). Lessons learned from the development, growth, and success of the 1980 Olympics USA Gold Medal Hockey Team can be applied in any professional setting. When teamwork exists, amazing goals can be achieved.

TUESDAY, APRIL 26

OCEAN COUNTY FIRE ACADEMY

PRESENTATION SKILLS FOR THE FIRE SERVICE: HOW TO PROVIDE AN EFFECTIVE PRESENTATION

C1C11

Instructor: *Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group, Detective Sergeant (ret.), Arson Investigations Unit, Bergen County Prosecutor's Office*

Want that new \$900,000 Tower Ladder? Thinking of asking for additional manpower? How best to save those firefighter jobs that the administration always wants to cut? As a fire service leader, it is inevitable that you will be called upon to make a departmental presentation, provide instruction to other fire fighters, or perhaps, you may have to speak in front of a civic group or a group of non-fire service people on a fire service topic. Feel comfortable with that idea? It's all about presentation skills. Knowing what to say is probably not the issue at hand, it's knowing how to say it, and how to present the topic and the material that often is the problem for the speaker. This course will focus on developing those skills.

TUESDAY, APRIL 12

MERCER COUNTY FIRE ACADEMY

TUESDAY, APRIL 26

GLOUCESTER COUNTY FIRE ACADEMY

PUBLIC EDUCATION FIRE SAFETY AND PREVENTION PROGRAMS FOR FAMILIES AND SENIORS

CE151

Instructor: *Joseph Vallo, Jersey City Fire Department*

Developing a fire safety and prevention program for families and seniors requires the careful consideration of many factors. Seniors-individuals over 65 years of age make up the fastest growing segment of the population and they have a variety of special needs. The traditional family unit is also changing to a growing diversity and may include multiple generations and even multiple families in one building. Attendees will learn to develop and implement a program focused on the varying needs of these groups. This course will emphasize preparedness, communication and consistency in educating families and the senior community. Information will be given on how to utilize volunteer and professional organizations as well as draw upon internal personnel, equipment and other resources. Attendees will also be provided with tips and drills to use in the field.

TUESDAY, MARCH 29

CAPE MAY COUNTY FIRE ACADEMY

THURSDAY, APRIL 7

SOMERSET COUNTY ESTA

RECOGNIZING AND PREVENTING WORKPLACE HARASSMENT

UPDATED CE146

Instructor: *Robert V. Hill, Sr., Director, Gloucester County College/Fire Academy*

What constitutes as harassment? What is acceptable workplace behavior, and what are my rights as a victim or obligations as a supervisor? This timely course seeks to answer these and other critical questions. Through case study review, participation, and the use of assessment tools, the students will obtain a full understanding of employee rights as well as employer obligations, and be able to help prevent claims of harassment.

MONDAY, APRIL 11

MIDDLESEX COUNTY FIRE ACADEMY

SATURDAY, MAY 14

ATLANTIC COUNTY FIRE ACADEMY

STRESS FIRST AID FOR FIRE & EMS PERSONNEL

NEW CE172

Instructor: *John Dixon, NJ Advocate for the National Fallen Firefighters Foundation*

Firefighter Life Safety Initiative #13 states: "Firefighters and their families should have access to counseling and psychological support." Stress First Aid (SFA), an important component of fulfilling this Life Safety Initiative, is a set of supportive actions designed to help emergency responders assist each other in reducing the negative impacts of stress. SFA was designed specifically to support firefighters, EMS, and rescue personnel. This module teaches SFA at the awareness level, focusing on understanding stress, recognizing how stress manifests in thoughts, words, and actions, and delivering the "Seven C's" of Stress First Aid (Check, Coordinate, Cover, Calm, Connect, Competence, Confidence) to each other. This method of assisting a co-worker undergoing stress is practical, flexible, and can be tailored to the specific need.

SATURDAY, APRIL 9

MIDDLESEX COUNTY FIRE ACADEMY

TUESDAY, APRIL 12

BURLINGTON COUNTY ETSC

TUESDAY, MAY 10

PASSAIC COUNTY FIRE ACADEMY

THE ART OF NEGOTIATING

CE170

Instructor: *Claudia A. Monte, CAM Consulting Group LLC*

Negotiation is a part of life. Sometimes it is done formally, but most times it is done informally on the job, at home, or in social situations. Communication, respect, preparation, and focus are the heart and soul of the negotiation process. Successful negotiations allow two parties to resolve their differences and leave feeling like they both won. By effectively managing interpersonal dynamics, a situation can change from one of confrontation to one of cooperation. Participants will leave knowing how to manage differences and achieve success.

THURSDAY, APRIL 28

BERGEN COUNTY FIRE ACADEMY

YOUTH FIRESETTER AWARENESS

CE705

Instructors: *Helge Nordtveit, Captain (ret.), Cranford Fire Department*
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course deals with identifying juvenile firesetters and successful intervention and prevention approaches to address the problem. Motivation and legal issues on juvenile firesetting will be discussed. There will be an emphasis on how to establish a community-based program, as well as how to work within the framework of existing programs. The mechanics of how to report statistical information on juvenile firesetters to the Division of Fire Safety also will be provided.

MONDAY, MARCH 21

***KEAN UNIVERSITY – UC (MSC) ROOM 228**

THURSDAY, MARCH 31

OCEAN COUNTY FIRE ACADEMY

BUSINESS WRITING

NEW
CE537

Instructors: *Rita Williams-Bogar, Office of Administrative Support and Logistics partnering with New Jersey Community College Consortium for Workforce and Economic Development*

Written communication skills are extremely important in today's business environment. This one-day course will assist participants in developing the skills and confidence necessary to prepare clear, concise and effective written communication. Through instruction, professional coaching, and practice exercises, participants will learn basic writing techniques for delivering information in a logical and persuasive manner.

TUESDAY, MAY 3
MIDDLESEX COUNTY FIRE ACADEMY
THURSDAY, MAY 19
MORRIS COUNTY FIRE ACADEMY

CAUSE AND ORIGIN: A SYSTEMATIC AND COMPREHENSIVE INVESTIGATION

CE753

Instructor: *Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group, Detective Sergeant (ret.), Arson Investigation Unit, Bergen County Prosecutor's Office*

The "students as investigators" approach focuses on actual fire investigation scenes, coupled with interactive classroom dialogue, and an exchange of ideas that enhance the students' skills in examining the fire scene. This is a "from the time of the call, to the time you leave the scene" outline of the components and essential elements which should be part of every fire scene examination. The program focuses on the elements necessary for documenting the entire scene, the examination and documentation of all potential sources of ignition, determining the fire's origin, and ultimately identifying the actual heat source, origin and cause of the fire in a thorough, complete and systematic manner. The resulting comprehensive investigation report will be suitable for use in criminal or civil litigation proceedings.

SATURDAY, APRIL 9
ATLANTIC COUNTY FIRE ACADEMY

CODE UPDATE

CE501

Instructor: *Patrick W. Bigoss, Camden County College, Coordinator Fire Science Program*

This seminar is a required course for working officials as part of the three year renewal cycle. Topics covered will include a focus on UFC 5:70 Subchapter 2 - permits and imminent hazards; a recap of statutes related to the resale requirements for carbon monoxide detectors, smoke detectors and fire extinguishers; the IFC 2006 regarding the use of appliances and emergency planning; and a review of chapter 27- hazardous materials.

COURAGE TO BE SAFE

NEW
C1D79

Instructor: *Anthony Correia, National Fallen Firefighters Foundation*

This course is a provocative and moving presentation by the National Fallen Firefighters Foundation, through the Everyone Goes Home® Program, that is designed to change the culture of accepting the loss of firefighters as a normal occurrence. Building on the untold story of line of duty death survivors, it reveals how family members must live with the consequences of a firefighter death. This presentation provides a focus on the need for firefighters and officers to change fundamental attitudes and behaviors in order to prevent line of duty deaths. The central theme promotes the courage to do the right thing in order to protect yourself and other firefighters and ensure that "Everyone Goes Home" at the end of the day. Firefighters must have the courage to face a multitude of risks in order to save lives and protect their communities. Their courage allows them to willingly risk their own lives so that others can be saved. A different type of courage is required to stay safe in potentially dangerous situations, avoiding needless risks and tragic consequences.

ATLANTIC COUNTY FIRE ACADEMY

EVERYDAY FIRE INVESTIGATIONS - TIPS & TECHNIQUES FOR MUNICIPAL OFFICIALS

NEW**CE789**

*Instructors: David T. Phelan, Principal Investigator, Special Call LLC
Christopher Weniger, Chief Fire Marshal, Hillsborough Township*

Are you or your agency time, cost, and manpower limited to perform a fire investigation? Do many of your 'small' fires get handled at the scene by officers and firefighters? What does NFPA 921 and NFPA 1033 mean to municipal investigations? The majority of your investigations are not criminal acts and leave you with limited resources to meet the statutory obligation of conducting a fire investigation. Make the most of your resources and efficiently handle your everyday fires from small appliances, motor vehicles, and up. This program will help you streamline the process and avoid the pitfalls of the changing civil litigation and subrogation claim landscape which often accompany 'accidental' fires. Case studies and classroom exercises based on real events will be used to demonstrate various interview and documentation tips which you can apply at your next fire. In addition to receiving DFS continuing education credit a brief end of class test is provided for attendees who must demonstrate testable continuing education for a fire investigator certification.

WEDNESDAY, MAY 18**MIDDLESEX COUNTY FIRE ACADEMY**

FIRE INVESTIGATION: CONSIDERING THE ROLE OF NATURAL GAS AND/OR ELECTRICITY

CE760

*Instructor: Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group,
Detective Sergeant (ret.), Arson Investigations Unit, Bergen County Prosecutor's Office*

This program is designed to provide you with a thorough, comprehensive and complete understanding of the properties of both natural gas and electricity, and the steps necessary for the examination of a fire scene where there is the potential that natural gas or electricity were involved in either the origin or the cause of the fire. The emphasis of the program will be on how any and all components associated with either natural gas or electricity services must be subject to a detailed examination at every scene to either eliminate them, or attribute them, as to having any role or involvement in the origin or the cause of the fire, and what steps are necessary for this process to be completed.

TUESDAY, MARCH 29**SOMERSET COUNTY ESTA****TUESDAY, APRIL 5****GLOUCESTER COUNTY FIRE ACADEMY**

FUNDAMENTALS OF AUTOMATIC SPRINKLER AND STANDPIPE SYSTEMS

CE765

Instructor: *Paul T. Dansbach, Fire Official, Borough of Rutherford*

The course will present timely and up to date material covering fundamental design and water supply requirements for automatic sprinkler and standpipe systems including when and why building fire pumps are required. The participants will be able to identify the various component parts of automatic sprinkler systems, standpipe systems and fire pumps. The importance of ensuring these fire protection systems are maintained in full service while identifying common system impairments and violations which lead to these fire protection systems being out of service will be reviewed throughout the course.

HAZARDOUS MATERIALS: FROM BULK STORAGE TO BIG BOX STORE

CE773

Instructor: *Chief Ron Kanterman, Wilton, CT Fire Department*

New Jersey is one of the largest manufacturers of chemicals in the United States, second only to Texas. Add to that, home centers, gas stations, hardware stores and other mercantile outlets and we realize there are “hazmats” everywhere. This one day course will take participants through large bulk industrial facilities to mom & pop shops and occupancies in between. Topics covered are, but not limited to, Federal and State laws, applicable fire code sections (IFC Ch.27 and other applicable chapters), cited NFPA standards, identification systems, storage quantities and allowable limits, tanks and vessels, site surveys and inspection methodology and fire protection requirements. Case histories and discussion of failures in code enforcement are part of the day. Participants will come away with a good direction on the compass towards inspecting facilities containing hazardous materials.

FRIDAY, MAY 6

MORRIS COUNTY FIRE ACADEMY

HEALTHCARE FACILITY UFC INSPECTIONS

NEW**CE749**

Instructor: *Andrew J. Fosina, Jr., Emergency Services Specialist*

Modern health-care facilities present many challenges for fire department responses and fire inspections. This course will provide an in depth review of various health-care facilities including hospitals, nursing homes, assisted living and ambulatory health-care occupancies. The course will provide examples of pre-planning and response strategies emphasizing the importance of all life safety equipment in the health-care environment, focusing on the special hazards found in health-care facilities. Emphasis will be placed on how the NJ Uniform Fire Code applies to health-care facilities in this heavily regulated environment.

HOT ISSUES IN FIRE CODE ENFORCEMENT

UPDATED**CE758**

Instructor: *Paul T. Dansbach, Fire Official, Borough of Rutherford*

The program will present material on means of egress requirements of the NJ Uniform Fire Code and the NJ Uniform Construction Code for special locking devices and door hardware. An understanding of how the installation of special locking devices and door hardware will provide the fire inspector with the understanding of how the devices shall be maintained to ensure the compliance with the requirements of Chapter 10 of the NJ IFC. ESFR sprinkler systems and residential sprinkler systems are systems which the fire inspector will encounter more frequently during inspections. Understanding the technology and the basic code requirements for these unique systems will ensure the systems are maintained in accordance with the applicable codes and standards. Commercial cooking operations present some inspection challenges to the fire inspector. The course will present the latest code changes and requirements for cookline exhaust systems and fire protection systems as well as reviewing previous codes and standards to which many of the existing systems have been installed. Inspection principles and a review of common violations will be presented.

LEGAL ISSUES FOR CODE ENFORCEMENT AND EMERGENCY SERVICE PERSONNEL

UPDATED C1D74

Instructor: *Kathleen I. Kirvan, Esquire, Lieutenant, Mount Laurel Fire Department*

In emergency services, there are potential legal consequences for everything we do. The consequences can be civil or criminal and your actions can be intentional or unintentional. For Fire Officers and Fire Officials, in addition to your own actions, you can be held accountable for the actions or inactions of your subordinates. This course will address a number of legal issues, including, but not limited to: Freedom of Speech; social media policies; use of cameras and video footage from emergency scenes; laws against discrimination; code enforcement liability; and civil and criminal liability for Chiefs, Company Officers, Training Officers, Firefighters, Fire Officials and Fire Inspectors.

PRINCIPLES OF MODERN BUILDING CONSTRUCTION

CE547

Instructor: *Michael S. Scardino, NJ Division of Fire Safety*

Principles of Modern Building Construction is designed to raise the awareness of Fire Service personnel of the dangers inherent in the construction methods and materials prevalent today, and compare them with the construction methods of old. A brief review of construction types and methods is used as a platform to introduce new lightweight materials and methodology. Factors such as high-heat-release fuel loading, energy efficiency, thermo pane windows, tighter building envelopes, and the impacts these have on the time temperature curve will be introduced. This course encourages students to document new construction using digital photography. This will afford the firefighter advanced knowledge of vulnerabilities and exposures, and will hopefully facilitate better tactical decision making and outcome prediction.

RAISE YOUR RIGHT HAND AND REPEAT AFTER ME

C2T21

Instructor: *Kathleen Kirvan, Esquire, Lieutenant, Mount Laurel Fire Department*

This course will provide each attendee with insight into what to expect if he or she is ever called to testify as a witness or is personally sued because of his or her affiliation with the emergency services community. The course will take attendees through the pre-trial and trial process, what a party to lawsuit can expect and the rigors of testifying at trial. Students will also be provided with insight into the legal process of a court case by defining the similarities and differences between criminal and civil trials, and emphasizing the elements of trial testimony of both lay and expert witnesses. This course is for all members of the emergency services community, with a special emphasis on fire officials, fire inspectors, training officers and superior officers.

TIPS AND TOOLS FOR EFFECTIVE INSPECTIONS

CE774

Instructor: *Patrick W. Bigoss, Camden County College, Coordinator Fire Science Program*

This program is intended to expand knowledge for newly appointed or recently re-appointed inspectors. It will also serve as a refresher for inspectors who perform a very limited number of inspections per year. Topics covered include duties and responsibility, interagency cooperation, inspection preplanning, performing the inspection, documenting the inspection and completing the inspection process. The program will also include a review of legal requirements, do's and don'ts and the consequences and remedies for inspectors who deviate from the stated requirements. There will be examples of violations and the proper reference under the IFC 2006. Seasoned inspectors taking the program for CEU requirements may find the program to be a re-statement of what they already know.

2016 CHUBB SPRINKLER LAB COURSES

*Instructors: Tom LaCorte, CFPS, Assistant Vice President, Mid-Atlantic Zone
Senior Property Specialist
Rich Luongo, PE, Property Specialist*

The Chubb Services Corporation Loss Control Training Center is located in Warren, New Jersey. This facility is equipped with state-of-the-art fire protection equipment including sprinkler systems, fire pumps and fire detection systems. All courses at the Chubb training facility are hands-on.

MODULE ONE: WET PIPE AUTOMATIC SPRINKLER SYSTEMS AND WATER SUPPLIES

CE553

This hands-on class will cover the basics of automatic sprinkler systems including the wet pipe sprinkler system, the most common sprinkler system found in NJ. The components of the sprinkler system will be reviewed including piping, sprinklers, fire department connections, alarm check valves, and sprinkler control valves. Testing requirements of the UFC and NFPA 25 will be demonstrated including valve inspection, testing of sprinklers, and the main drain test. Water supplies for sprinkler systems will be overviewed including fire pumps, gravity tanks, and city water mains. A fire hydrant water flow test will be conducted by students and test results analyzed to determine adequacy for fire protection systems.

THURSDAY, APRIL 14

CHUBB LOSS CONTROL TRAINING CENTER

MODULE TWO: DRY PIPE, DELUGE AND PRE-ACTION SPRINKLER SYSTEMS

CE554

This course builds on Module 1 and covers the remaining sprinkler systems found in NJ. This course will overview and demonstrate the dry pipe valve; single, double and cycling on-off preaction valves; and the closed and open deluge systems. Topics covered will include the operational components, trip testing and resetting of valves, and occupancies where this equipment is found. The testing requirements of the UFC and NFPA 25 will be reviewed and demonstrated

TUESDAY, APRIL 26

CHUBB LOSS CONTROL TRAINING CENTER

MODULE THREE: WAREHOUSE FIRE PROTECTION AND FIRE DOOR TESTING

CE564

This class will review the NFPA fire protection standards for warehouses including NFPA 13, 1999 edition. Topics covered will include hydraulically calculated sprinkler systems, commodity classification, storage configurations i.e. rack and pallet, common problems found in warehouse occupancies, idle wood and plastic pallet storage, specialty sprinklers including ESFR, Large Drop, and ELO sprinklers will be demonstrated. Common types of fire doors and problems found in warehouses will be overviewed. Annual fire door testing procedures required by the UFC will be reviewed including a demonstration of a rolling steel fire door drop test.

TUESDAY, MAY 24**CHUBB LOSS CONTROL TRAINING CENTER**

MODULE FOUR: AUTOMATED FIRE PUMPS

CE581

This course will provide an overview of various fire pumping system components commonly found in automatic sprinkler and standpipe systems. Booster and fire pumps will be overviewed as well as vertical and horizontal centrifugal pumps. Fire pump diesel and electric controllers and drivers will be highlighted, including the testing requirements of the UFC and NFPA 25 which will be reviewed and demonstrated. Participants will conduct an annual fire pump test and review and analyze results.

WEDNESDAY, JUNE 8**CHUBB LOSS CONTROL TRAINING CENTER**

MODULE FIVE: COMMERCIAL FIRE DETECTION SYSTEMS

CE582

This course will overview the components of a commercial fire detection and fire alarm system. Detector types such as heat and smoke detectors will be demonstrated. The proper location of fire detection devices will be overviewed. Location of manual pull stations, horn strobe and testing will be demonstrated. The class will include a hands-on review of the site fire protection equipment for compliance of NFPA and UFC standards.

THURSDAY, MAY 19**CHUBB LOSS CONTROL TRAINING CENTER**

MODULE SIX: STANDPIPE SYSTEMS

CE761

This one day seminar is a mix of classroom and live demonstrations that review the standpipe systems. NFPA 14, IBC and NFPA 25 will be discussed, as well as installation and testing of standpipe systems. Hands on activity includes the flow testing of the standpipe valves as required by NFPA 14 and 25.

THURSDAY, JUNE 23**CHUBB LOSS CONTROL TRAINING CENTER**

Fire Instructor Certification Program

The Fire Service Instructor Safety courses are components of the New Jersey State Fire Service Instructor Credentialing Program. Information regarding the requirements for certification for Instructor Level 1, Instructor Level 2, and Special Instructor Certificate for Drill Ground Instructor can be obtained from the New Jersey Division of Fire Safety, Office of Training and Certification at 609-777-3552. Contact your local fire academy to determine additional course offerings. Completion of the Drill Ground Instructor program is a pre-requisite for admittance into the Fire Service Instructor Level 1 Written Examination. It is strongly suggested that individuals first complete the Fire Service Instructor Level 1 course prior to taking the written examination. Turnout gear is not required for the Drill Ground Instructor program or the written examinations. The courses needed for Fire Service Instructor Certification are being offered to those interested in certification as a Fire Service Instructor Level 1 or Level 2. An individual must successfully complete a program of instruction sanctioned by the Division of Fire Safety that meets the requirements of NFPA 1041, Standard for Fire Service Instructor Professional Qualifications, 2012 edition, utilizing the International Fire Service Training Association (IFSTA) publication titled "Fire and Emergency Services Instructor, 8th Edition." This publication is used for both the Level 1 and Level 2 instructional programs. The State written examination will be administered at the end of each sanctioned training program.

DRILL GROUND INSTRUCTOR

DGI01

Instructor: *Michael J. Corbo, Deputy Chief (ret.), Pleasantville Fire Department Director, Atlantic County Fire Training Center*

This one-day course is required for anyone wishing to obtain or renew a Drill Ground Instructor Certification issued by the Division of Fire Safety. The intent of this course is to ensure that instructors understand the safety issues and adopted NFPA Standards inherent in SCBA/Smokehouse and Live Burn firefighting training. The students will be provided with a basic understanding of identifying and correcting unsafe situations as they occur, and will review various safety concerns regarding drill ground instructional activities and student performance criteria. Turnout gear is not required for this course.

Fire Instructor 1 and 2 Certification Programs

New instructor certification programs are being adopted which will meet the requirements of NFPA 1041, Standard for Fire Service Instructor Professional Qualifications, 2012 edition, utilizing the International Fire Service Training Association (IFSTA) publication titled "Fire and Emergency Services Instructor, 8th edition." Both the Fire Service Instructor Level 1 and 2 programs are contained in this one publication. Students will be required to purchase the referenced textbook prior to attending the programs. Should a student take the programs after obtaining certification they will receive 4.0 CEU's Technical credit toward renewal of their fire instructor certification.

FIRE INSTRUCTOR 1

T1001

Instructor: *Michael J. Corbo, Deputy Chief (ret.), Pleasantville Fire Department,
Director, Atlantic County Fire Training Center*

This program is approved by the Division of Fire Safety to satisfy the instruction criteria for certification as Fire Instructor Level 1. The 40-hour program utilizes the IFSTA textbook referenced above, and is designed to present the student with basic skills to assemble course materials, use instructional aids and evaluation tools, review and adapt lesson plans, present a lesson from a prepared lesson plan, and review the administrative record keeping functions of the instructor. Successful completion of the program grants the student eligibility to take the State Fire Instructor Level 1 written examination. Please contact your county fire academy for additional deliveries of this certification course.

MARCH 22, 24, 26, 29, 31, APRIL 5, 7, 9, 12

ATLANTIC COUNTY FIRE ACADEMY

Hours of instruction: Tuesday and Thursday 6 p.m. to 10 p.m.
Saturday 8:30 a.m. to 4:30 p.m.

Students must contact IFSTA to order the Fire and Emergency Services Instructor, 8th edition publication prior to the first session of the class.

Contact Information:

Fire protection publications, Oklahoma State University, 930 N. Willis, Stillwater, Oklahoma 74078-8045.
Tel: 1-800-654-4055; Fax: 405-744-8204. www.ifsta.org

FIRE INSTRUCTOR 2

T2001

Instructor: *Michael J. Corbo, Deputy Chief (ret.), Pleasantville Fire Department, Director, Atlantic County Fire Training Center*

This program is approved by the Division of Fire Safety to satisfy the program of instruction criteria for certification as Fire Instructor Level 2. The 45-hour program utilizes the IFSTA textbook referenced below, and is designed to present the student with advanced skills to manage instructional resources, schedule training sessions, supervise and coordinate the activities of other instructors, evaluate subordinate instructors, develop and review lesson plans, develop evaluation instruments, and analyze the results of student evaluations. Successful completion of the program grants the student eligibility to take the State Fire Instructor Level 2 written examination. Please contact your county fire academy for additional deliveries of this certification course.

FIRE INSPECTOR WRITTEN EXAMINATION

FIW15

The New Jersey Division of Fire Safety announces that a NJ Fire Inspector Written Examination will be presented regionally. Below are listed the exam dates, locations and start times. The written exam has been created to meet the examination requirements contained in the NJ Uniform Fire Code for individuals to obtain a NJ Fire Inspector certification issued by the Division of Fire Safety. This exam will be an 'open book' exam and will permit an individual to bring the referenced Fire Inspector course textbooks/codebooks into the exam room to be referenced throughout the exam. IFSTA Fire Inspection and Code Enforcement - Seventh Edition, NJ Uniform Fire Code, IFC 2006 NJ Edition, IBC 2006 NJ Edition – Chapter 9, 10 and Index or entire book and a solar or battery operated calculator. The exam will present 75 questions. To pass this exam an individual must obtain a minimum passing score of 70% correct. The exam will be 3 hours in length. The examination will not be administered orally to any individual.

SATURDAY, APRIL 16	9 A.M. TO 12 P.M.	BURLINGTON COUNTY ESTC
THURSDAY, MAY 12	7 P.M. TO 10 P.M.	MORRIS COUNTY FIRE ACADEMY
SATURDAY, JUNE 11	9 A.M. TO 12 P.M.	MIDDLESEX COUNTY FIRE ACADEMY

NOTICE

PHOTO IDENTIFICATION AND DFS I.D. NUMBER IS REQUIRED TO TAKE ALL EXAMINATIONS. STUDENTS WILL NOT BE ADMITTED WITHOUT PHOTO IDENTIFICATION. FAXES WILL NOT BE ACCEPTED. NO ELECTRONIC DEVICES, CELL PHONES, OR MOBILE DEVICES WILL BE ALLOWED IN EXAMINATION ROOMS. ONLY ONE EXAM WILL BE ADMINISTERED PER DAY.

The NJ Division of Fire Safety requires Fire Instructor recertification. Part of the recertification program requires completion of Continuing Education Units (CEUs) courses. The Continuing Education courses are one method to meet the requirements.

APPARATUS DRIVING PHASE 1: ESSENTIALS FOR THE PROFESSIONAL DRIVER AND EMERGENCY SERVICE'S ORGANIZATION

NEW**C2T34**

Instructor: *Robert V. Hill, Sr., Director, Gloucester County College/Fire Academy*

Apparatus driving is an essential skill that must be mastered through training and education to ensure the safety of responders and the general public. Additionally, member organizations benefit from the training and education by reducing liability exposure and improving service life of their equipment. Upon completion of this classroom program, participants will have a full understanding of the many facets of what is required of both the professional apparatus driver and the member's organization. Information provided is drawn from codes, regulations, NFPA standards, established driver safety programs and personal commercial driving experience of the author from more than twenty years as a successful commercial motor vehicle driver and commercial motor vehicle driving instructor.

COURAGE TO BE SAFE

NEW
C1D79

Instructor: *Anthony Correia, National Fallen Firefighters Foundation*

This course is a provocative and moving presentation by the National Fallen Firefighters Foundation, through the Everyone Goes Home® Program, that is designed to change the culture of accepting the loss of firefighters as a normal occurrence. Building on the untold story of line of duty death survivors, it reveals how family members must live with the consequences of a firefighter death. This presentation provides a focus on the need for firefighters and officers to change fundamental attitudes and behaviors in order to prevent line of duty deaths. The central theme promotes the courage to do the right thing in order to protect yourself and other firefighters and ensure that “Everyone Goes Home” at the end of the day. Firefighters must have the courage to face a multitude of risks in order to save lives and protect their communities. Their courage allows them to willingly risk their own lives so that others can be saved. A different type of courage is required to stay safe in potentially dangerous situations, avoiding needless risks and tragic consequences.

IN HONOR OF THE CHARLESTON 9: A STUDY OF CHANGE FOLLOWING TRAGEDY

NEW
C2T31

Instructor: *Dr. David Griffin, Captain, Charleston Fire Department (SC)*

In Honor of The Charleston 9: A Study of Change Following Tragedy was developed and is presented by the first due engineer on the scene of June 18, 2007 where nine firefighters perished in a commercial structure fire in Charleston, South Carolina. This course is based off of the best-selling book with the identical name, which includes doctoral research that will help all organizations, whether public, private, for-profit, or non-profit to determine whether organizational change is needed in their respective organization. Students are taken on an emotional ride from the dark days of fighting fire in Charleston, SC, where nine firefighters perished in the line of duty, to today where the organization is now a national model for change. All organizations need to learn the lessons from Charleston to ensure that they do not experience this type of tragic incident. This course utilizes never before seen video footage from June 18, 2007, as well as the radio traffic that coincides.

INSPECTION, TESTING, AND MAINTENANCE OF FIREFIGHTING EQUIPMENT AND APPARATUS

CE190

Instructor: *David T. Phelan, NFPA, Certified Fire Prevention Specialist*

Whether it be a new purchase or the ongoing ownership of existing apparatus and equipment there are a variety of state agency regulations and industry standards which may not be clearly known or understood by NJ fire departments. Even the most conscientious departments may not be fully aware of how various state and federal regulations govern firefighting equipment. In some cases private or third party contractors are relied upon to 'do the right thing' and the host department doesn't have the knowledge or understanding to gauge if they are getting their money's worth to maintain their equipment and member's safety. This program is will bring together those regulations in a direct manner so any department can effectively gauge its compliance and implement changes without violating previously unknown regulations.

WEDNESDAY, APRIL 13

MONMOUTH COUNTY FIRE ACADEMY

LEADERSHIP SO EVERYONE GOES HOME

NEW C1D98

Instructor: *John Dixon, NJ Advocate for the National Fallen Firefighters Foundation*

A course of the Everyone Goes Home® Program of the National Fallen Firefighters Foundation designed to assist in the reduction of LODDs utilizing a series of case studies. Each study will include what happened, why it happened, what could have avoided it, were safety measures available and used, and how can we prevent this in the future. The benefit of this program is the review of cultural change or adaptive challenge, rather than just enacting a technical fix, which in most cases does not work. A great program for senior fire officers and administrative officers. This is learning from actual incidents!

MENTORING AND MODELING FOR ORGANIZATIONAL SUCCESS

NEW C2T32

Instructor: *Anthony Correia, National Fallen Firefighters Foundation*

The most effective way to improve your organization's positive reputation and reduce chances from a firefighter behaving badly to negatively impact on your department is to implement effective modeling and mentoring practices. This presentation will discuss what issues can negatively impact the reputation of your organization, along with the implications and impact on an organization and how these events and activities can single handedly take an organization down. We will transition to discuss what modeling and mentoring best practices will substantially reduce the chance of having Geraldo Rivera show up at your front door. Tools and procedures on how to enact these practices will be provided. Input from the session's participants regarding problems they encounter and best practices they employ regarding this topic will be discussed so we can learn from real situations how to better prepare your employees to be assets instead of liabilities to your organization and your community.

PRESENTATION SKILLS FOR THE FIRE SERVICE: HOW TO PROVIDE AN EFFECTIVE PRESENTATION

C1C11

Instructor: *Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group, Detective Sergeant (ret.), Arson Investigations Unit, Bergen County Prosecutor's Office*

Want that new \$900,000 Tower Ladder? Thinking of asking for additional manpower? How best to save those firefighter jobs that the administration always wants to cut? As a fire service professional, it is inevitable that you will be called upon to make a departmental presentation, provide instruction to other fire fighters, or perhaps, you may have to speak in front of a civic group or a group of non-fire service people on a fire service topic. Feel comfortable with that idea? It's all about presentation skills. Knowing what to say is probably not the issue at hand, it's knowing how to say it, and how to present the topic and the material that often is the problem for the speaker. This course will focus on developing those skills.

PROVIDING EFFECTIVE FIRE AND EMERGENCY SERVICES TO DIVERSE POPULATIONS: A HOLISTIC COLLABORATIVE APPROACH

NEW

C2T33

Instructor: *Michael Allora, Deputy Fire Chief, EFO, Clifton, NJ Fire Department*

The population of the U.S. and N.J. is becoming increasingly diverse. The challenges associated with emergency incidents can be compounded by a lack of awareness and preparedness of the specific challenges associated with the needs of diverse populations. A holistic approach to community risk reduction and the delivery of fire and emergency services will be addressed. Fire and Emergency services agencies must collaborate with partner agencies, such as Health, Social and Human Services, to develop and deliver culturally competent programs, policies, and services before, during, and after emergency incidents. The presentation will address the current and desired future state of the Fire and Emergency Services as it pertains to the delivery of culturally and linguistically appropriate services.

APPARATUS DRIVING PHASE 1: ESSENTIALS FOR THE PROFESSIONAL DRIVER AND EMERGENCY SERVICE'S ORGANIZATION

NEW**C2T34**

Instructor: *Robert V. Hill, Sr., Director, Gloucester County College/Fire Academy*

Apparatus driving is an essential skill that must be mastered through training and education to ensure the safety of responders and the general public. Additionally, member organizations benefit from the training and education by reducing liability exposure and improving service life of their equipment. Upon completion of this classroom program, participants will have a full understanding of the many facets of what is required of both the professional apparatus driver and the member's organization. Information provided is drawn from codes, regulations, NFPA standards, established driver safety programs and personal commercial driving experience of the author from more than twenty years as a successful commercial motor vehicle driver and commercial motor vehicle driving instructor.

COURAGE TO BE SAFE

NEW C1D79

Instructor: *Anthony Correia, National Fallen Firefighters Foundation*

This course is a provocative and moving presentation by the National Fallen Firefighters Foundation, through the Everyone Goes Home® Program, that is designed to change the culture of accepting the loss of firefighters as a normal occurrence. Building on the untold story of line of duty death survivors, it reveals how family members must live with the consequences of a firefighter death. This presentation provides a focus on the need for firefighters and officers to change fundamental attitudes and behaviors in order to prevent line of duty deaths. The central theme promotes the courage to do the right thing in order to protect yourself and other firefighters and ensure that "Everyone Goes Home" at the end of the day. Firefighters must have the courage to face a multitude of risks in order to save lives and protect their communities. Their courage allows them to willingly risk their own lives so that others can be saved. A different type of courage is required to stay safe in potentially dangerous situations, avoiding needless risks and tragic consequences.

FDNY BLACK SUNDAY'S BRONX FIRE

C1D60

Instructor: *FDNY Firefighter Eugene Stolowski, FDNY Rescue 3, Operations Manager, Fire & Family Transport Foundation*

This presentation tells the story of the tragic day that the New York City Fire Department suffered on January 23, 2005 in the Bronx, NY. A total of six Firefighters were trapped above the fire floor in the rear of a tenement. To avoid getting caught in the flash over that was about to occur, the firefighters were forced to bail out windows without the help of ropes and fall five stories to the alley below. Two firefighters were tragically killed with the four others critically injured. Along with another fatal fire in Brooklyn, NY, the day is now known throughout the fire service as the Black Sunday's Bronx Fire. The presentation gives a step by step detailed experience of a fire that went from normal to unimaginable conditions in the blink of an eye. Numerous lessons are shared from this day from two of the firefighters who survived to talk about it. The presentation includes audio of the radio transmissions that day along with video and photos of the building.

IN HONOR OF THE CHARLESTON 9: A STUDY OF CHANGE FOLLOWING TRAGEDY

NEW**C2T31**

Instructor: *Dr. David Griffin, Captain, Charleston Fire Department (SC)*

In Honor of The Charleston 9: A Study of Change Following Tragedy was developed and is presented by the first due engineer on the scene of June 18, 2007 where nine firefighters perished in a commercial structure fire in Charleston, South Carolina. This course is based off of the best-selling book with the identical name, which includes doctoral research that will help all organizations, whether public, private, for-profit, or non-profit to determine whether organizational change is needed in their respective organization. Students are taken on an emotional ride from the dark days of fighting fire in Charleston, SC, where nine firefighters perished in the line of duty, to today where the organization is now a national model for change. All organizations need to learn the lessons from Charleston to ensure that they do not experience this type of tragic incident. This course utilizes never before seen video footage from June 18, 2007, as well as the radio traffic that coincides.

UTILITY EMERGENCIES AND FIRES: WHAT YOU NEED TO KNOW

C2T12

Instructor: *Frank Montagna, Battalion Chief, NYFD Bureau of Training*

Firefighters are not utility experts, but do respond first to utility incidents, and will have to make life and death decisions before the utility experts arrive on scene. There is certain “need to know” information they must have to make intelligent, safe decisions, to ensure that responding firefighters and the people they are sworn to protect are safe. This course is designed to heighten the awareness of responding firefighters by pointing out the obvious, and some not so obvious hazards related to these incidents. This course identifies the hazards and shows how this knowledge can positively affect and guide their decisions at these incidents. The course material is designed to help prevent a relatively minor utility emergency from becoming a major one and to help keep a major incident from becoming a tragedy.

This program is designed to bring those various Federal and State regulations together to raise your awareness and help you achieve compliance. Topics such as NJ-PEOSH, Training, Equipment Maintenance and Personnel will be discussed along with some experiences and lessons learned by agencies who became the subject of injury investigations. The time to begin preparing is before you have a problem and upon completion of this program you will have a better understanding of rules and regulations enforced by other non-fire agencies and how they could impact you and your department.

WEDNESDAY, APRIL 16

MIDDLESEX COUNTY FIRE ACADEMY

STRESS FIRST AID FOR FIRE & EMS PERSONNEL

NEW CE172

Instructor: *John Dixon, NJ Advocate for the National Fallen Firefighters Foundation*

Firefighter Life Safety Initiative #13 states: “Firefighters and their families should have access to counseling and psychological support.” Stress First Aid (SFA), an important component of fulfilling this Life Safety Initiative, is a set of supportive actions designed to help emergency responders assist each other in reducing the negative impacts of stress. SFA was designed specifically to support firefighters, EMS, and rescue personnel. This module teaches SFA at the awareness level, focusing on understanding stress, recognizing how stress manifests in thoughts, words, and actions, and delivering the “Seven C’s” of Stress First Aid (Check, Coordinate, Cover, Calm, Connect, Competence, Confidence) to each other. This method of assisting a co-worker undergoing stress is practical, flexible, and can be tailored to the specific need.

SATURDAY, APRIL 9

MIDDLESEX COUNTY FIRE ACADEMY

TUESDAY, APRIL 12

BURLINGTON COUNTY ETSC

TUESDAY, MAY 10

PASSAIC COUNTY FIRE ACADEMY

THE COMPANY AND COMMAND OFFICER IN 2016 AND BEYOND

NEW CID94

Instructor: *Christopher J. Naum, Chief of Training, Command Institute*

A thought provoking presentation and interactive discussion on the increasing demands for today’s emerging, practicing or future Company and Command Officers and the challenge on how to meet tomorrow’s demands today through self-determination and personal accountability. A look at the emerging fireground in 2016 and beyond and how that translates to the increased needs for advanced training, skill sets and operational models built upon the most current and timely of fire service issues, emerging research and dialog.

MONDAY, MAY 16

CAMDEN COUNTY FIRE ACADEMY

"FIRE IS"**CE159**

Instructors: *Andrew Stratton, Captain, Cranford Fire Department*
Helge Nordtveit, Captain (ret.), Cranford Fire Department
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course will provide fire service personnel with a comprehensive overview of the "Fire Is" fire safety education curriculum. The goal of this program, is not only reaching middle school-aged children as they begin to understand fire, but their parents/guardians and care givers as well. The curriculum is centered on a home-based learning system employing television, the internet, and public volunteers to put a new face on fire safety. Session attendees will receive copies of the program, letters of endorsement from pilot schools in NJ who have heralded its success; a course curriculum guide; and simplified instruction on how to implement the program without taxing the schools' current curriculum or teacher workload. The instructor will present the media and public views on how fire safety and the fire service are portrayed in the media to children and their families.

FRIDAY, MARCH 18**GLOUCESTER COUNTY FIRE ACADEMY****TUESDAY, MARCH 22****MORRIS COUNTY FIRE ACADEMY****WEDNESDAY, MARCH 30****BURLINGTON COUNTY ESTC****YOUTH FIRESETTER AWARENESS****CE705**

Instructors: *Helge Nordtveit, Captain (ret.), Cranford Fire Department*
Joseph Ehrhardt, Firefighter, Nottingham Fire Company

This course deals with identifying juvenile firesetters and successful intervention and prevention approaches to address the problem. Motivation and legal issues on juvenile firesetting will be discussed. There will be an emphasis on how to establish a community-based program, as well as how to work within the framework of existing programs. The mechanics of how to report statistical information on juvenile firesetters to the Division of Fire Safety also will be provided.

MONDAY, MARCH 21***KEAN UNIVERSITY – UC (MSC) ROOM 228**

*Please read the Kean University directions page 61 for parking and building location information.

THURSDAY, MARCH 31**OCEAN COUNTY FIRE ACADEMY**

ICS REVIEW FOR COMMAND AND GENERAL STAFF FUNCTIONS

NEW

C2T35

Instructor: *Dennis Kappler, Chief Public Safety Communicator, Gloucester County ERC*

The course will focus on a fundamental review of the Incident Command System, Roles and Responsibilities of the Command and General Staff, Review the Principle 14 Fundamental Features, commonly used ICS Forms/IAP Development, Reporting Relationship's, Unified Command, Objective writing.

THURSDAY, APRIL 28

BURLINGTON COUNTY ETSC

NFA-TASK FORCE/STRIKE TEAM LEADER (L984 24-HRS.)

NEW

N2N94

Instructor: *T. Steve King, Burlington County Emergency Management Coordinator*

This National Fire Academy three-day course addresses the roles and responsibilities appropriate to a Task Force/Strike Team Leader operating in concert with a local or state-level All-Hazards Incident Management Team (IMT). These responsibilities fall into two categories: (1) responding to the incident command needs of the incident; and (2) effectively fulfilling the position responsibilities of the Task Force/Strike Team Leader in conjunction with an All-Hazards IMT. This is an all-hazard, instructor-led course that facilitates learning through discussion, lecture, and active participation in multiple exercise scenarios. *Target Audience:* Company Level Officers (any rank) or other IMT staff. *Prerequisites:* All students must have obtained a FEMA SID number prior to the class, and have been issued a Division of Fire Safety IMS Level 1 certification to participate in the program. **The student must complete all three days of instruction and pass the course objectives to receive credit for the program.**

This matrix is provided to assist you in determining which programs receive CEU credit toward renewal of Uniform Fire Code, Uniform Construction Code and Fire Instructor Certifications. An X indicates that credit will be issued to a specific certification discipline. Please note that more than one credit type can be issued for the same program. * Multiple Dwelling Inspector CEU for CE153, CE501, CE547, CE755, CE765, C2T23, CE537. The CEU credit awarded is identified in the eighth column. Please use this matrix to assist your program selection.
