This Notice is related to Federal assistance provided in response to the Presidentially-declared disaster, Superstorm Sandy. This notice shall satisfy two separate but related procedural requirements for activities to be undertaken by New Jersey Department of Community Affairs (DCA).

Per 24 CFR 58.33, the combined Notice of Finding of No Significant Impact (FONSI) and Notice of Intent to Request Release of Funds (NOI-RROF) will be published simultaneously with the submission of the RROF. The funds are needed on an emergency basis due to a declared disaster from the impacts of Superstorm Sandy, which made landfall on October 29, 2012. As a result, the comment periods for the FONSI and NOI-RROF have been combined. Commenters may submit comments to DCA and objections to the U.S. Department of Housing and Urban Development (HUD) to ensure they will receive full consideration.

REQUEST FOR RELEASE OF FUNDS

On or about July 18, 2016, the DCA will submit a request to HUD for the release of Federal funds under the Community Development Block Grant Program (CDBG) pursuant to the Disaster Relief Appropriations Act of 2013 (Public Law 113-2, approved January 29, 2013) for the Housing and Mortgage Finance Agency (HMFA) Fund for Multi-Family Restoration (FRM). DCA expects to fund the project using approximately \$14,597,431 of HMFA FRM funds.

PROJECT DESCRIPTION

Application ID number: HMFA03136

Project Title: The Oaks at Jackson Woods

Location: Freehold Road just west of Cedar Swamp Road, Jackson Township, Ocean County, New Jersey

The total estimated project cost is \$25,557,693.

The proposed project, known as The Oaks at Jackson Woods, will involve the construction of a garden-style affordable apartment complex on the subject property. The 18.1-acre subject property is currently entirely wooded with a stream and associated floodplains along the eastern property boundary. The development will include clearing and grading of approximately 10.87

acres for the construction of 11 residential buildings, one clubhouse/rental office building, one maintenance garage, and associated streets, parking and landscaping. There will be a total of 88 units constructed. The buildings will be two-stories in height and contain eight units each. The buildings will be built with slab-on-grade and concrete footings extending approximately 3 feet below grade. The buildings will be built in a ring surrounding the clubhouse/rental office building, maintenance garage and a ball field, which will be located near the center of the property. An approximately 3,000-foot force main will be constructed from the property to a nearby development to the north to provide sewer utilities. The force main will be directionally-bored beneath the wetlands and floodplains to the north of the property.

FINDING OF NO SIGNIFICANT IMPACT

The DCA has determined that this project will have no significant impacts on the human environment. Therefore, an Environmental Impact Statement (EIS) under the National Environmental Policy Act of 1969 (NEPA) is not required.
