Subject: NCR38952 Review

Hi Patrick,

Please see attached and below information for a CDBG-DR project with potential species habitat on-site.

NCR38952: Asbury Park, Monmouth County. This project proposes taking down and replacing the old "cobra head" highway styled light fixtures with new energy efficient LED lights along its entire boardwalk, parallel to Ocean Avenue from Asbury Avenue to Deal Lake Drive.

I've also attached the following:

- NHD search result letter (identified some one plant species and several animal on or in vicinity of site)
- Endangered Species map from NJDEP mapping tool
- Landscape Project map
- CAFRA and mean high water line map
- Floodplain map
- A site shapefile

I don't have the JD back from the DLUR, but the site is in CAFRA below the MHWL and in the coastal high hazard 100-year floodplain zone V. No wetlands are present.

Please feel free to give me a call or email if you need any further information at this point. As with the other site, I will send along the JD when I receive it.

Thank you!
