

## COMBINED PUBLIC NOTICE

### NOTICE OF INTENT TO REQUEST RELEASE OF FUNDS AND NOTICE AND PUBLIC EXPLANATION OF A PROPOSED ACTIVITY IN THE 100-YEAR FLOODPLAIN

#### ATLANTIC COUNTY

October 30, 2014

New Jersey Economic Development Authority  
36 West State Street  
PO Box 990  
Trenton, NJ 08625-0990  
609-858-6700

This notice shall satisfy the procedural requirements for activities to be undertaken by the New Jersey Economic Development Authority (EDA).

Per 24 CFR 58.33 and 24 CFR 55.20(b)(1), the Notice of Intent to Request Release of Funds (NOI-RROF) and the Notice and Public Explanation of a Proposed Activity in a 100-Year Floodplain will be published simultaneously with the submission of the RROF. The funds are needed on an emergency basis due to a declared disaster from the impacts of Superstorm Sandy, which made landfall on October 29, 2012. As a result, the comment periods for the NOI-RROF and 100-Year Floodplain have been combined.

#### REQUEST FOR RELEASE OF FUNDS

On or about October 30, 2014, the New Jersey Department of Community Affairs (DCA) on behalf of EDA will submit a request to the U.S. Department of Housing and Urban Development (HUD) for the release of Federal funds under the Community Development Block Grant Program (CDBG) pursuant to the Disaster Relief (DR) Appropriations Act of 2013 (Public Law 113-2, approved January 29, 2013) for the Neighborhood and Community Revitalization (NCR) program. EDA expects to fund the project using approximately \$4,860,050 of NCR funds.

The following information pertains to this project:

Project Title: NCR39563 "Mansion Avenue Drainage Improvement Project"

Location: 1133 Boardwalk, Atlantic City, Atlantic County, New Jersey

Estimated Cost: \$4,860,050

Project Description: The project is designed to rehabilitate and repair an existing storm water drainage system in order to get runoff to the ocean during high tide and heavy rainfall events. This project would significantly increase the ability of the municipal system to drain the area to the ocean during such peak storm events. The proposed project will consist of the installation of a new vaulted pump and associated backup generator. In addition, new piping will be installed and existing piping will be upgraded.

The Stronger NJ Neighborhood and Community Revitalization (NCR) Program supports the long-term recovery of small businesses and communities by funding projects that contribute to the economic revitalization throughout New Jersey, but focusing on the nine most impacted counties. NCR supports projects that retain or hire new employees, contribute to the State's economy, serve Low or Moderate Income (LMI) areas, create or maintain LMI jobs, remove slum or blight, or address an urgent need related to Superstorm Sandy. These projects are commercial or mixed use projects, typically development and public improvement or streetscape revitalization.

EDA has determined that the proposed project is Categorically Excluded SUBJECT to §58.5 authorities per 24 CFR 58.35(a)(4)(i). As such, a Statutory Checklist has been completed in order to determine whether the project is in compliance with the authorities cited at 24 CFR§50.4 and 58.5.

Additional project information is contained in the Environmental Review Record (ERR) on file at the New Jersey Economic Development Authority, 36 West State Street, PO Box 990, Trenton, New Jersey 08625. The record is available for review and may be examined or copied weekdays 9 A.M. to 5 P.M. by contacting Erin B. Gold at 609-858-6718 or may be viewed online at <http://www.nj.gov/dca/divisions/sandyrecovery/review/>.

#### NOTICE AND PUBLIC EXPLANATION OF A PROPOSED ACTIVITY IN A 100-YEAR FLOODPLAIN

This is to give notice that the DCA has conducted an evaluation as required by Executive Order 11988, in accordance with HUD regulations at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management and Wetlands Protection. The activity is funded under the NCR program under (B-13-DS-34-001). The property is located within the AE and VE Flood Zone, as indicated on Flood Insurance Rate Map (FIRM) Panel 5 of 5 no. 3452780005D, revised August 15, 1983. The project includes the rehabilitation and repair of an existing storm water drainage system.

DCA has considered the following alternatives and mitigation measures to minimize adverse impacts and to restore and preserve natural and beneficial values. Alternatives included repairing and rehabilitating the drainage system (Option A) and the "No Action" alternative (Option B). Under Option B, the storm water outfall and drainage system would remain in its current state and would be unable to handle flood waters from future major storm events. This alternative would not meet the State's need to rehabilitate and revitalize storm-impacted communities nor would it meet the proposed project goal of reducing future flood hazard risks to the community. Option A would involve repairing and rehabilitating the storm water system. This option would allow the system to better protect the drainage area from future flood events, thereby reducing the impact of flood hazard impacts on the community. Therefore, this option is the preferred alternative.

DCA has reevaluated the alternatives to building in the floodplain and has determined that it has no practicable alternative. Environmental files that document compliance with steps 3 through 6 of Executive Order 11988 are available for public inspection, review and copying upon request at the times and location delineated in the last paragraph of this notice for receipt of comments.

DCA has determined that construction and operation of the proposed project would not result in significant adverse impacts to flood levels, flood risk, or the flow of floodwaters on the project site or surrounding areas. The project would reduce flood risk and the impact of development on the floodplain. Therefore, the proposed project would be compliant with the National Flood Insurance Act of 1968 (44 CFR § 59) and EO 11988 on Floodplain Management (42 FR 26951).]

## PUBLIC COMMENTS

Any individual, group, or agency disagreeing with this determination or wishing to comment on this project may submit written comments to Stacy Bonnaffons, Assistant Commissioner, Sandy Recovery Division, New Jersey Department of Community Affairs, 101 South Broad Street, PO Box 800, Trenton, NJ 08625-0800 or online at <http://www.nj.gov/dca/divisions/sandyrecovery/review/> and to Tennille Smith Parker, DRS, Acting Division Director, HUD, 451 Seventh Street SW, Washington, D.C. 20410. All comments received by November 7, 2014 will be considered by DCA and EDA. Comments should specify which Notice they are addressing.

## RELEASE OF FUNDS

DCA certifies (on or about November 11, 2014) to HUD that Richard E. Constable, III, in his capacity as Commissioner of DCA consents to accept the jurisdiction of the Federal Courts if an action is brought to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. HUD's approval of the certification satisfies its responsibilities under the National Environmental Policy Act and related laws and authorities, and allows DCA to use Program funds.

## OBJECTIONS TO RELEASE OF FUNDS

HUD will accept objections to its release of funds and DCA's certification for a period of seven (7) days following the anticipated submission date or its actual receipt of the request (whichever is later) only if they are on one of the following bases: (a) the certification was not executed by the Certifying Officer of DCA; (b) DCA has omitted a step or failed to make a decision or finding required by HUD regulations at 24 CFR Part 58; (c) the grant recipient has committed funds or incurred costs not authorized by 24 CFR Part 58 before approval of a release of funds by HUD; or (d) another Federal agency, acting pursuant to 40 CFR Part 1504, has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality. Objections must be prepared and submitted in accordance with the required procedures (24 CFR Part 58) and shall be addressed to Tennille Smith Parker, DRS, Acting Division Director, HUD, 451 Seventh Street SW, Washington, D.C. 20410. Potential objectors should contact HUD to verify the actual last day of the objection period.

Commissioner Richard E. Constable, III  
New Jersey Department of Community Affairs
