

NEP 0086 West Alpine
Prepared by: Shawn Bulger, NJDEP Quality Assurance Team
85-89 West Alpine, Newark NJ

On 8/19/14 I met with James Thorpe of A&A Construction and Development at a property located on 85-89 West Alpine Street, Newark, New Jersey. The aforementioned site consists of solely vacant land and is in preparation for redevelopment. Additionally, the site consists of three (3) contiguous lots situated on approximately 0.17-acres and identified on the City of Newark tax assessor's map as Block 2678, Lots 20-22. All staged soils situated on the property have been removed from, and the site is now at a grade comparable with rest of the neighborhood. No other concerns observed.

Site Pre removal.
