Morgan,

Energy – we will be installing 110 high efficiency LED pedestrian lights throughout the park – they will be installed and maintained by PSE&G. Sports lighting employed will also be as energy efficient as possible, and only used as needed.

There will be trash and recycling containers placed throughout the park – collection will be done by City department of public works.

Wastewater/sewer – bathroom waste water will be directed to municipal sewer system. The spray park will be equipped with a recirculation system.

Water supply – municipal water will be supplied throughout the park.

Let me know if you need more detail or if this will suffice.

Ben

Subject: Berry Lane Park - EA Checklist Items

Hi Ben,
Thanks for the information today! If you can please provide the JCRA's plans for the following elements at Berry Lane Park, we will incorporate these plans into the final environmental review:

- Energy consumption/efficiency:
- Solid waste disposal/recycling:
- Wastewater/Sanitary sewers:
- Water supply:

Thanks again and have a great weekend,

Morgan
