NOTES TO USER

Certain areas, both in the special flood hazard areas shown A and F, may be protected by flood control structures.

This event is for flood insurance and floodplain management purposes only. It does not necessarily show all areas subject to flooding in the community or all phenomena that may occur outside flood hazard areas. The coastal flooding elevations shown may differ significantly from those developed by the National Weather Service for hurricane evacuation planning.

For advertising map prices, see separately printed Index To Map Prices.

Coastal zone flood elevations shown on this map include the effect of wave setup.

Coastal zone flood regulations apply only landward of the shoreline shown on VIMS maps.

POTENTIAL SCIENTIFIC USES:

FLOOD HAZARD BOUNDARY MAP REVISIONS:

1000

FLOOD INSURANCE RATE MAP EFFECTIVE:
JULY 1, 1994

FLOOD INSURANCE RATE MAP REVISIONS:
December 26, 1971-to reflect maximum flood hazard.

Supplement 5, 1994-95 include the offices of state attornev and for state corporate affairs.
