PO Box 800
Trenton, NJ 08625-0800

This Notice is related to Federal assistance provided in response to the Presidentially-declared disaster, Superstorm Sandy. This notice shall satisfy the procedural requirements for activities to be undertaken by the New Jersey Department of Community Affairs (DCA).

Per 24 CFR 58.33, the Notice of Intent to Request Release of Funds (NOI-RROF) will be published simultaneously with the submission of the Request of Release of Funds (RROF). The funds are needed on an emergency basis due to a declared disaster from the impacts of Superstorm Sandy, which made landfall on October 29, 2012. As a result, the comment periods for the NOI-RROF and RROF have been combined. Commenters may submit comments to DCA and objections to the U.S. Department of Housing and Urban Development (HUD) to ensure they will receive full consideration.

REQUEST FOR RELEASE OF FUNDS

On or about February 8, 2016, the DCA will submit a request to HUD for the release of Federal funds under the Community Development Block Grant Program (CDBG) pursuant to the Disaster Relief Appropriations Act of 2013 (Public Law 113-2, approved January 29, 2013) for the Rehabilitation, Reconstruction, Elevation and Mitigation (RREM) Program. DCA expects to fund the project using approximately \$58,370.40 of RREM funds.

PROJECT DESCRIPTION

Application ID number: RRE0029262MF
Project Title: Claudette O'Malley
Location: 438 Highway 35 North, Unit 1102, Mantoloking, Ocean County, New Jersey
The total estimated project cost is \$58,370.40.

The purpose of this proposed project is the rehabilitation of a single residential unit (Unit 1102) within a multifamily structure (5 or more units) located at 438 Highway 35 North, in Mantoloking (Brick Township), Ocean County, New Jersey (Block 36, Lot 31_C1102). The multifamily residential structure, built in 1969 (per tax records), contains a total of 29 units and occupies approximately 0.21 acres (8,987 square feet) of land based on measurement of the building using the NJDEP ArcGIS Screening Tool. No elevation is proposed. The unit subject to the environmental review occupies approximately 0.0311 acres of land based on property tax records. The proposed activities to be completed include interior rehabilitation such as the

application of anti-microbial agent to foundation, addition of batt insulation, moisture protection for crawl space, rewiring of residence, addition of rough plumbing including supply and waste lines, patch/repair of drywall, sealing, priming and painting of walls, ceilings and baseboards, repair/replace baseboards and plywood sheathing, removal of carpet pad and carpet, installation of new carpet pad and carpet, and installation of baseboard electric heater. The total estimated cost of repair is \$58,370.40 and is considered minor rehabilitation (not substantially damaged) as the cost of repair is less than 50 percent of the pre-disaster market value of the entire structure, \$1,506,800.00, as reported on tax records.

The RREM Program provides up to \$150,000 in grant funding assistance to eligible homeowners. The RREM Program will provide funding to help homeowners repair their primary residence damaged by Superstorm Sandy.

The Responsible Entity, DCA, has determined that the proposed project is Categorically Excluded Subject to §58.5 authorities per 24 CFR 58.35(a). As such, a Statutory Checklist has been completed in order to determine whether the project is in compliance with the authorities cited at 24 CFR§58.5.
