Hi Beth,

We have no concerns with regard to peregrine falcons and this project.

Thanks for providing the files for review.

Kathy

Hi Beth,

I've forwarded to Kathy Clark who will be doing the review for the state-listed species. Just a reminder, according to the new guidance on bat species, ENSP is no longer the contact for potential bat concerns – you can contact FWS directly.

Pat

Subject: ENVIRONMENTAL REVIEW HUD-CDBG-DR PROJECT RRE0031126MF - Endangered Species Review for EA

Dear Patrick:

During the EA Environmental Record Review for the Endangered Species Act, the NJDEP HUD Environmental Tool centroid data indicated a "YES" for a State Listed Endangered Species for the following project:

Application ID Number: RRE0031126MF
PAMs_PIN Number: 0102_342_11
Project Location: 120 North Texas Avenue, Unit RR 3, Atlantic City, Atlantic County, New Jersey
Block: 342, Lot: 11
Project Description: Rehabilitation of a single residential unit within a multi-family structure. Elevation of the entire multi-family structure is also assumed.

I am contacting you to conduct a review of the proposed project activities at the above location to determine if any State Listed Endangered species would be affected by any eligible activity on the previously developed portions of the project site and whether consultation with the U.S. Fish and Wildlife Service is required. Your examination will enable us to provide the appropriate response in our EA Environmental Record of Review and your conclusion will be attached to the form as supporting documentation. Consultation with DLUR indicates that DLUR permits are not required for this project. Per NJDEP guidance, if centroid data shows a "YES" for State Listed Endangered Species and no DLUR permits are required, consultation with ENSP is required.

This project is the rehabilitation of a single residential unit (Unit RR 3) damaged by Superstorm Sandy within a multi-family structure (five units total) to be funded under the Department of Community Affairs' RREM Program. Elevation of the entire multi-family structure is assumed.

I have attached the following to aid in your review:

- Maps of the property location (Project Location, Topographic and T & E maps showing centroid results)
- Shapefile for the project location
- Photographs of the front of the property
- A copy of the DLUR Jurisdictional Determination for this project
- A copy of the NHP report for this project
- A copy of the IPaC Trust Resource Report

Please let me know if you need any additional information.

Thank you.

Beth
