

**EARLY NOTICE AND PUBLIC REVIEW OF A PROPOSED
ACTIVITY IN A 100-YEAR FLOODPLAIN**

September 25, 2015:

To: All Interested Agencies, Groups & Individuals

This Notice is related to Federal assistance provided in response to the Presidentially-declared disaster, Superstorm Sandy. This is to give notice that the New Jersey Department of Community Affairs (DCA) has determined that the following proposed action under the Landlord Rental Repair Program (LRRP), developed by the state to rehabilitate or reconstruct properties damaged by Superstorm Sandy, is located in the 100-year floodplain. DCA will be identifying and evaluating practicable alternatives to locating the action in the floodplain and analyzing the potential impacts on the floodplain from the proposed action, as required by Executive Order 11988, in accordance with HUD regulations at 24 CFR 55.20 Subpart C, Procedures for Making Determinations on Floodplain Management and Protection of Wetlands.

Project Description

Application ID number: SRP0043978

The proposed project is located at 224 East Poplar Avenue, Wildwood, Cape May County, New Jersey.

This proposed project involves the rehabilitation of the common area and four residential units (Units 1, 2, 3, and 4) within a multifamily rental structure located at 224 East Poplar Avenue, Wildwood, Cape May County, New Jersey (Block 236, Lot 13). The multifamily rental structure, built prior to 1909 based on review of historical Sanborn Fire Insurance maps, comprises a total of 21 units, four of which were damaged as a result of Superstorm Sandy. Elevation of the entire structure is also proposed. The entire project area, approximately 0.124 acres, is located within the Special Flood Hazard Area Zone AE, as shown on the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM) number 3453290001C dated February 16, 1996.

There are three primary purposes for this notice. First, people who may be affected by activities in floodplains and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Second, an adequate public notice program can be an important public education tool. Commenters are encouraged to offer alternative methods to serve the same project purpose, and methods to minimize and mitigate impacts. The dissemination of information and request for public comment about floodplains can facilitate and enhance Federal efforts to reduce the risks associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in floodplains, it must inform those who may be put at greater or continued risk.

Written comments must be received by DCA on or before October 12, 2015, or fifteen (15) days from the actual date of publication, whichever is later. DCA encourages electronic submittal of comments at <http://www.nj.gov/dca/divisions/sandyrecovery/review/>. In the alternative, comments may be submitted on paper to: Stacy Bonnaffons, Assistant Commissioner, Sandy Recovery Division, New Jersey Department of Community Affairs, 101 South Broad Street, PO Box 800, Trenton, NJ 08625-0800.

Commissioner Charles A. Richman
