New Jersey Resource Guide for Women

The **NJ Resource Guide for Women** is designed to help women access a variety of information on the many programs and services available throughout the state. The Department of Community Affairs' Division on Women is dedicated to developing a strong, progressive, pro-woman agenda for the State of New Jersey.

We understand the unique role of women in our society, and the many challenges women face with the demands of work, families, healthcare, education and abuse. We trust that this guide will serve as a valuable resource to the women of New Jersey and their families.
