General Questions	
QUESTIONS	ANSWERS
I received an Error Report for the Annex B. I followed the directions and successfully enabled the macros but I am still not permitted to put salary values in the personnel form. I am being asked for a password. What do I do?	Please use the scroll bar to navigate through the sheet and enter data.
I received an Error Report for the Annex B. I am unable to enter data. I have lowered the protection and have re-saved and enabled as instructed in the Annex B Instructions. How can I enter data?	Please view the tutorial. It will tell you where to enter data. Some of the fields are linked and some information is populated automatically. Use your scroll bars to navigate and enter data.
I received an Error Report for the Annex B. I need a password to remove information from a cell from a sheet that I am trying to unprotect. Please help!	You should be able to remove the information from the cells that are not highlighted in blue. All the blue highlighted cells have formulas and links that cannot be unprotected.
