Subject: Fwd: Variable Registration Fees for Boat Engines

>>> "Melissa Danko" <*omitted*> 6/8/2006 10:30 AM >>>
Hello Sandy,

I have a number of questions regarding one of the White Papers that was written for the Non-Automotive Gasoline Engines Workgroup. It is the Control Measure- NA008- Variable Registration Fees for Boat Engines. As you know, I was involved in the workgroup discussions in which we reviewed at length all of the proposal control measures. Unfortunately, I was not able to attend the workshop but a member of my staff did attend. I do not recall any discussions that involved establishing a new fee for boat engines. Can you provide some background on this proposal? When was it created? What are your plans for implementation? What will the fee schedule be? Any additional information you can provide on this new control measure is appreciated.

Thank you,
Melissa
