

**NOTICE OF OPPORTUNITY FOR PUBLIC COMMENT  
ON DRAFT SIGNIFICANT MODIFICATION  
TO AN AIR POLLUTION CONTROL OPERATING PERMIT (TITLE V)**

The New Jersey State Department of Environmental Protection (NJDEP) is seeking public comment on its intent to approve a significant modification to an Air Pollution Control Operating Permit for The Trustees of Princeton University, pursuant to the provisions of Title V of the Federal Clean Air Act, the federal rules promulgated at 40 CFR 70, and the state regulations promulgated at N.J.A.C. 7:27-22.

The Trustees of Princeton University is an institution of higher learning that provides college education. The address of the facility is Elm Drive in Princeton Boro, Mercer County, New Jersey.

The equipment subject to the significant modification is a new 1500 kW Diesel Emergency Generator (E54). The new generator is subject to NSPS III and NESHAP ZZZZ. Additionally, multiple clarifications for combustion adjustment, N.J.A.C. 7:27-19 conditions, insignificant sources conditions based on the current procedures and rule changes have been included.

This modification will increase the potential to emit to the atmosphere of nitrogen oxides for 1.45 tons per year.

This public notice with additional details, statement of basis, and the draft significant modification have been posted at the Air Quality Permitting website: <http://www.state.nj.us/dep/aqpp/publicnotices.htm>. Copies of these documents and additional information on this draft permit can be obtained by calling [Sunila Agrawal \(609-292-9202\)](tel:609-292-9202).

All persons, including the applicant, who believe that any condition of the draft significant modification to the Air Pollution Operating Permit or the Department's tentative decision to approve this modification is inappropriate, must raise all reasonable issues of concern and submit all arguments and factual grounds or materials supporting their position during the public comment period. Any comments on this draft permit and/or a request for public hearing must be received within thirty days of the date of this notice and addressed to [Sunila Agrawal](tel:609-292-9202), Bureau of Air Permits, New Jersey Department of Environmental Protection, 401 E State Street, 2<sup>nd</sup> Floor, PO Box 27, Trenton, New Jersey 08625-0027

The draft permit is also available for inspection at NJDEP, 401 E State Street, Trenton, New Jersey, (contact [Sunila Agrawal](tel:609-292-9202) at 609-292-9202) and at the Central Regional Enforcement located at 300 Horizon Center Robbinsville, NJ, phone number 609-584-4100. If you would like to inspect the draft permit at either location, please call in advance for an appointment. You may also inspect the application and supporting materials, and other information and documents contained in the supporting file for the draft permit, at the NJDEP Trenton location by calling [Sunila Agrawal](tel:609-292-9202) for an appointment.

In accordance with N.J.A.C. 7:27-22.11(f), any person may request that the Department hold a public hearing on the draft permit. A request for a public hearing shall be submitted, in writing, within thirty days of the date of this notice to the Department at the Trenton address listed above. The request for public hearing shall include a statement of issues to be discussed at the public hearing. The statement of issues shall be relevant to the draft permit under review by the Department.

The Department will consider and respond to all written and timely submitted comments. The applicant, and each person, who submitted written comments, will receive a notice of the Department's final decision regarding the Operating Permit modifications and a copy of the Response to Comment document.

The Responsible Official at the facility has certified that the facility currently meets all applicable requirements of the Federal Clean Air Act and the New Jersey Air Pollution Control Act. Based on this certification, and the Department's evaluation of the information included in the facility's application, the Department has concluded that this modification to air pollution control operating permit should be approved.
