## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

<b>Narrative</b>	<p>This Waiver Rule request applies to the Flood Hazard Area Control Act regulation at NJAC 7:13-9.4(a) which states: ... an individual permit is valid for five years from its issuance date and shall not be extended. The applicants want to build a modest home in a residential neighborhood of Berkeley Heights Township. Construction on the small (0.64-acre) lot is constrained by the existence of floodplains and wetlands. Thus, the applicants applied for both a Flood Hazard Area (FHA) approval and a Freshwater Wetland approval at the same time for this project. Both permits, once issued, would be valid for 5 years. NJDEP review of the applications required several rounds of revisions to the site plan. The final FHA permit eventually was issued 2 years ago (File # No. 2001-06-0002.1 FHA 090002; APL10001), and it expires on 5 July 2016 (approximately 3 years from now). However, construction of the project cannot begin until the necessary Wetland permit also has been issued (which reportedly is imminent). There have been no changes to the project or site plan since the FHA permit was approved. Thus this waiver will not change the small but unavoidable environmental impact. The building will be constructed on pilings, its first floor more than 1 foot above the flood hazard area design flood. There will be no disturbance in the floodway and no net fill in the floodplain. Only 0.03 acre of wetland and 0.06 acre of transition area will be disturbed (less than 0.1 acre total), primarily for the proposed driveway. The FHA rules have not changed since the FHA permit was granted for this project. This Waiver simply requests NJDEP to allow the expiration date of the FHA permit to be reset such that it will be valid for five years from the issuance date of the Freshwater Wetland permit, so that both necessary NJDEP approvals (FHA and Wetland) then will have the same 5-year timeframe for beginning and completing construction. More detailed narrative is attached.</p>
