## Permit Descriptions

---

**CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

**Federal Consistency Activity:** Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Flood Hazard Area:** A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

**Freshwater Wetlands:** A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

**General Groundwater Petroleum Products Cleanup:** This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits:** A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility:** A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Special Highlands Resource:** A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules.

**Tidal Wetlands:** A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval:** A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development:** A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

**Coastal Wetlands:** A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Narrative	
	Applicants received an Exemption from the Highlands Act under N.J.A.C. 7:38-2.3(a)3 to construct a house and septic system on each of two (2) separate lots (130.09[4.8 acres] and 130.08[6.5 acres], Block 1). They subsequently built a house and septic on Lot 130.09. Lot 130.08 is still vacant. Applicants want to merge the two lots and construct a barn/garage structure on the approved house location on Lot 103.08 instead of another house and septic. The house they could build has a footprint of 2713 sq foot + 640 sq. ft garage with a septic system. The proposed barn is 1,288 sq ft and a 724 sq. ft porch with no septic system. As part of the proposal to build a barn and merge the two lots, applicants will subdivide a 0.7 acre parcel located on the opposite side of the Ramapo River from the main parcels and donate it to the Township to provide River access to Township residents. Waiver of strict compliance with the N.J.A.C. 7:38-2.3(a)3 will further the core missions of NJDEP to "maintain, protect, and enhance New Jersey's natural resources and to protect the public health, safety, and the environment." (N.J.A.C. 7:1B-1.1(a), and the purposes of the Highlands Act. The Highlands Act emphasizes the value of preserving pristine sources of drinking water, exceptional natural resources such as watersheds, habitat for flora and fauna and abundant recreational opportunities for citizens of the state. Granting the waiver will eliminate the construction of a subsurface disposal system and single family residence with related disturbance and improvements thereby benefitting flora and fauna habitat as a smaller area will be disturbed. Clean and plentiful drinking water will be protected and there will be more area for ground water recharge. Recreational use of the Ramapo River by the local community will be facilitated.

<b>Narrative</b>	<p>The applicant is proposing to construct the new dwelling to meet the affordable housing needs of the community. The project is being constructed in conjunction with the ARC of Hunterdon County. The applicant has done everything practicable to design the project to minimize the disturbance of wetlands. However, the only developable upland onsite is to the north of Plum Brook Creek. The front portion of the site which provides frontage and access to the parcel is entirely wetland. The applicant has requested access through the adjoining parcels to minimize wetlands disturbance and was rejected. The proposed driveway must cross approximately 415 feet of wetlands to access the upland area. The applicant has reduced the driveway width to the maximum extent possible to minimize wetland disturbance but the project still exceeds the 0.10 acres allowed without mitigation. The project will disturb 0.18 acres and mitigation is required. The applicant has contacted the mitigation bank for the watershed and the cost to purchase the required credit is \$72,000. The mitigation cost is excessive and the project is no longer economical to build. The applicant has prepared two estimates for the project with and without mitigation. The project turns a slight profit of \$2568 per year without any required mitigation. If the applicant is required to mitigate, the project results in a yearly loss of \$3432.</p>

Narrative	
	<p>Mr. Mortara has owned the subject parcel for several decades. Being aware that the Township of Raritan is and the State of New Jersey is in need of affordable housing, Mr. Mortara decided to construct a four(4) unit affordable housing dwelling. Mr. Mortara has spent a significant amount of funds on fees to obtain approval from NJDEP for the required permits. However, the conditions in the permit have added tremendously to the cost of the project. NJDEP has required the applicant to replace 0.342 acre of wooded riparian buffer at the a 2:1 ratio. Therefore, the applicant will have to plant 0.684 acre of new buffer. The replanting cost will add greatly to the overall project and makes the project less viable for affordable housing. Also, the requirement for compensation cannot be provided because the entire site is wooded. The applicant has limited to area to be cleared to the minimum required to provided ingress egress, construction of the dwelling, driveway and septic system. These areas must remain open and cleared and cannot be replanted.</p>

<b>Narrative</b>	We request the ability to take treated medical waste under "Alternative or innovative technology" means any technology that permanently alters the composition, volume, weight, or other relevant waste or material characteristics of regulated medical waste, through chemical, biological, or physical means so as to have a beneficial and long-term effect on the environment by reducing the quantity (volume or weight), infectiousness, toxicity, or constituent mobility of waste or materials generated, recovered, recycled, treated, transported, disposed of or otherwise managed. The term also includes products or production processes that promote or enhance material recovery, recycling or marketing of secondary materials, or that reduce or eliminate waste or emissions at the source of generation. Benefits of processing Treated Regulated Medical Waste at an Energy From Waste Facility increasingly, waste materials are being viewed as a resource. The US EPA and the European Union have both developed solid waste management hierarchies, designed to promote the more sustainable management of waste materials. Managing treated medical waste at Covanta's Warren facility is consistent with the hierarchy, allowing the recovery of energy that would otherwise be lost in a landfill. Furthermore, landfills are a non-sustainable use of land and present a long-term environmental risk. Treated medical waste contains significant amounts of energy that can be recovered at the Warren facility. Based on the estimated overall waste composition outlined in Table 1 below, we estimate that the combustion of the treated medical waste at the Warren facility will result in a net generation and export to the grid of 1,300 kWh / ton, displacing electricity that would have otherwise been generated from fossil fuels. For every 10 tons of treated medical waste (approximately 1 load) we would divert from landfills, Covanta Warren would generate enough electricity to supply an avg. US home for 1 year of electric.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
NOTICE OF FINAL SETTLEMENT  
FRESHWATER WETLANDS LETTER OF INTERPRETATION**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION has entered into a Settlement Agreement which will result in the reissuance of a Freshwater Wetlands Letter of Interpretation (LOI). A Notice of Intent to Settle was published on April 3, 2013, and no comments were received. The reissued LOI will amend the resource classification of a small isolated wetland area on the subject property from exceptional resource value to intermediate resource value. The wetland location plan is shown on a single sheet, prepared by Lippincott Jacobs Consulting Engineers, entitled "WETLANDS LOCATION PLAN, BLOCK 5074, LOTS 25 & 25.01, LANDS SITUATE IN CITY OF NEWARK, ESSEX COUNTY, NEW JERSEY, PREPARED FOR ARCADIS S.S., INC.", signed by Robert E. Lee, dated December 3, 2010, last revised August 1, 2012. This settlement has been entered into because the Department determined that the small isolated wetland area, depicted on the revised plans as Wetland A, is not suitable habitat for a threatened or endangered species due to its actual size and condition, and is therefore of intermediate resource value. The larger complex of wetlands on the subject property, depicted on the revised plans as Wetland B-1 through B-12, is documented and suitable habitat for a threatened or endangered species, and retains its

exceptional resource value classification. The ordinary resource value classification for Wetland B-12 through B-37 remains unchanged from the original LOI.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
NOTICE OF SETTLEMENT  
WATERFRONT DEVELOPMENT PERMIT**

**TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION** has issued a Waterfront Development Permit that authorizes the legalization of the existing fixed pier, floating dock and boatlift, and authorizes the following modifications to these structures:

- Construct a  $\pm 2'$  x 17' addition to the existing fixed pier to increase the width to 8';
- Remove a  $\pm 2'$  x 16' section from the terminus of the existing fixed pier to reduce the width to 8';
- Relocate the existing  $\pm 3'$  x 11.5' ramp to the floating dock;
- Construct a  $\pm 3'$  x 13.5' addition to the existing floating dock (parallel to the bulkhead) and a  $\pm 2.5'$  x 45' addition to the existing floating dock (perpendicular to the bulkhead), to increase the overall width of the "L-shaped" floating dock to 8';
- Remove 250 square feet of existing timber decking from the approximate center of the existing fixed pier;
- Remove a  $\pm 5'$  x 8.5' section of the existing floating dock to provide  $\pm 9'$  of open water between the floating dock and the fixed pier; and,
- Relocate five (5) mooring piles.

The property is located on Block 45, Lots 1, 1.01, 2.01 and 2.011 in the Borough of Wildwood Crest, Cape May County. The Applicant is Michael DiAntonio. This permit satisfies the appeal of File #0515-07-0007.1, WFD 100001 and the appeal of the AONOCAPA of the same file.

DIVISION OF REMEDIATION MANAGEMENT AND  
OPERATIONS ELEMENT**

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at [www.nj.gov/dep/opra](http://www.nj.gov/dep/opra), or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

**Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at [www.nj.gov/dep/opra](http://www.nj.gov/dep/opra), or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

**Written comments should be submitted to:**
