REG = HMDC/Pinlands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Special Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Department of Environmental Protection
Partnership Proposal Request
2013 Hurricane Sandy Coastal Resiliency Competitive Grants Program

Overview

The New Jersey Department of Environmental Protection (Department) is seeking partners for project proposals in response to the US Department of the Interior and the National Fish and Wildlife Foundation 2013 Hurricane Sandy Coastal Resiliency Competitive Grants Program.

Grant Program

The US Department of the Interior and the National Fish and Wildlife Foundation (DOI/NFWF), recently announced the Hurricane Sandy Coastal Resiliency Competitive Grant Program which will support projects that reduce communities' vulnerability to the growing risks from coastal storms, sea level rise, flooding, erosion and associated threats through strengthening natural ecosystems that also benefit fish and wildlife.

The DOI/NFWF Hurricane Sandy Coastal Resiliency Competitive Grants Program is expected to award more than \$100 million in grants to states that declared a natural disaster as a result of Hurricane Sandy. The grants will focus on rebuilding, restoring and researching natural defense systems.

The DOI/NFWF Grants Program Request for Proposals identifies five (5) project topic areas for potential projects:

- Project Planning and Design;
- Coastal Resiliency Assessments;
- Restoration and Resiliency Projects;
- Green Infrastructure; and
- Community Coastal Resiliency Planning.

Additional information on the federal RFP and the project categories can be found at <http://www.nfwf.org/hurricanesandy/Pages/home.aspx>. Grants will be awarded to projects that assess, restore, enhance or create wetlands, beaches and other natural systems to help better protect communities and to mitigate the impacts of future storms and naturally occurring events on fish and wildlife species and habitats.

Department Request for Partners

The Department is seeking partners for collaboration on projects in the above listed categories. Applicants for partnership on projects to be proposed by the Department may be:

- 1) Qualified individuals and organizations capable of carrying out technically sound and feasible activities within proposed projects, and/or
- 2) Local entities able to ensure the long-term sustainability of the project and/or integration of the project into local programs and policies, such as, but not limited to, local government agencies, local watershed groups, and communities' leaders.

This DOI/NFWF Grant program requires non-Federal matching funds and/or in-kind services valued at a minimum of 25% of total project costs. Therefore, partners that can contribute non-Federal matching funds and in-kind services will be prioritized.

Project partners must be prepared to begin implementation within six (6) months of the grant award and complete the project within two (2) years of grant award.

Partners on projects selected for funding shall be required to comply with all applicable federal, state, and local laws, rules, regulations and policies set forth therein and, as appropriate, enter into a contractual agreement with the Department.

Partner Statement of Qualifications Requirements

A separate statement of qualifications for projects in each of the categories identified above needs to be submitted.

State of Qualifications Deadline

In order for an entity to be considered for partnership with the Department, a Statement of Qualifications that includes the items outlined below must be submitted to the following address no later than 5:00 PM on December 18, 2013 (postmarked, or stamped "received" if hand delivered):

Statement of Qualifications Delivery Location

Attention: Elizabeth Semple

New Jersey Department of Environmental Protection

Office of Coastal and Land Use Planning

401 East State Street, 7th Floor

PO Box 420, Mail Code 401-07C

Trenton, New Jersey 08625-0420

Attn: 2013 Hurricane Sandy Coastal Resiliency Competitive Grants Program

Statement of Qualifications and Preliminary Proposal Submission and Format

Three (3) hard copies and one (1) electronic copy of a complete statement of qualifications for grant partnership must be submitted. The electronic copy should be emailed to Elizabeth.Semple@dep.state.nj.us.

The Statement of Qualifications and Preliminary Proposal should be no more than three (3) pages, single-spaced, using twelve (12)-point Times New Roman font. The only appendices or supplemental information that will be considered are resumes/CVs and examples of completed applicable projects that demonstrate expertise.

Partnership Statement of Qualifications

All statements of qualifications for partnerships with the Department must include the following information:

- Partner organization's name, including contact person's name, address, phone number, fax number, and e-mail address;
- Identify specific RFP project category for which NJDEP partnership is sought;
- Description of the partner's expertise and experience consistent with the successful completion in the identified category. Said expertise may include, but not be limited to, technical proficiency, local knowledge and efficacy, and communication capability. Applicants should include resumes of key staff.
- Applicants may include examples of completed projects that demonstrate appropriate expertise;
- Description of those likely tasks partner can lead or support;
- Date of statement of qualifications.

Limitation of Liability

In no event will the Department be responsible for statement of qualification preparation costs if this program is canceled or if proposals are not selected. Publication of this announcement does not obligate the Department to select any applicants, award a grant, or fund any specific project.

Partner Selection

Partnership statements of qualification will be reviewed and evaluated based on completeness, and the required information identified above. The Department will select partners based on expertise, experience, and demonstration of other funding/in-kind service and any other relevant contributions.

Selected partners will be contacted in writing with the Department's interest in partnering on grant applications by January 8, 2014.

For additional information, contact Elizabeth Semple at Elizabeth.Semple@dep.state.nj.us or at 609-984-0058.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element
PO Box 028
Trenton, NJ 08625

DIVISION OF WATER QUALITY**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

New Jersey Department of Environmental Protection
Division of Water Quality
Bureau of Surface Water Permitting

PUBLIC NOTICE

The New Jersey Department of Environmental Protection (NJDEP) is hereby giving Notice in accordance with N.J.A.C. 7:14A-15.10(d) of New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions for four (4) permittees, a public hearing on those permits as well as a request for input on a related matter as described below.

The NJDEP proposes to revoke and reissue Joint Meeting of Essex and Union Counties' Discharge to Surface Water (DSW) Permit NJ0024741 to consolidate their Combined Sewer Overflow (CSO) General Permit Authorization NJG0108740 under the individual Category "A" Permit NJ0024741 as well as to incorporate updated CSO permit requirements. Also, NJDEP proposes to issue an individual permit to Elizabeth City for NJPDES number NJ0108782 to authorize discharges from their CSOs. Elizabeth City is in Joint Meeting of Essex and Union Counties' sewer service area. Upon the effective date of the individual permit, Elizabeth City's current authorization under the CSO Master General Permit will terminate.

In addition, the NJDEP proposes to renew Middlesex County Utilities Authority's Discharge to Surface Water (DSW) Permit NJ0020141 as well as to incorporate updated CSO permit requirements. Also, NJDEP proposes to terminate the authorization to discharge for Perth Amboy's NJPDES CSO Permit NJG0156132 which is presently authorized under the Master General Permit NJ0105023 and issue an individual permit with a new NJPDES number, NJ0156132, to authorize discharges from CSOs. Perth Amboy is in Middlesex County Utilities Authority's service area. Upon the effective date of the individual permit, Perth Amboy City's authorization under the Master General Permit will terminate.

The above action is executed in accordance with N.J.A.C. 7:14A-1 et seq., and by authority of the Water Pollution Control Act at N.J.S.A. 58:10A-1 et seq., for the following discharge:

Combined Sewer Overflows are discharges from Combined Sewer Systems (CSS). CSSs are sewers that were designed many decades ago to collect rainwater and snowmelt runoff, domestic sewage, and industrial wastewater in the same pipe. CSSs are no longer permitted in New Jersey for new communities, but many older cities in the State

continue to operate existing CSSs. Most of the time, the CSSs transport all wastewater to a sewage treatment plant, where it is treated and then discharged to a water body. However, during periods of rainfall or snowmelt, the wastewater volume in a CSS can exceed the hydraulic capacity of the sewer system or treatment plant. For this reason, CSSs were designed to overflow during these periods and discharge excess wastewater directly from CSOs to nearby streams, rivers, or other water bodies prior to reaching the sewage treatment plant.

NJDEP has historically been regulating the majority of discharges from CSOs through authorizations under a Master General Permit NJ0105023 and others through individual permits, consistent with the National Policy for CSO Controls, N.J.A.C. 7:14A-11.12 Appendix C. NJDEP has determined that it is more appropriate to regulate all CSO discharges under individual permits in order to address the site-specific regulatory requirements of each of the permittees and to promote better coordination of a Long Term Control Plan (LTCP) among all permittees contributing to the hydraulically connected systems.

Joint Meeting of Essex & Union Counties Sewage Treatment Plant

The existing facility discharges treated, disinfected, domestic wastewater with industrial contribution from seventeen (17) towns in Essex and Union Counties, including one town with combined sewer overflows, Elizabeth City, into the Arthur Kill, classified as SE3 waters. The Arthur Kill is located within the New York/New Jersey Harbor Complex Basin. Please note that the facility's flow value is 85 MGD, but the flow value used for the calculation of the effluent loading limitations is 75 MGD. The higher flow value of 85 MGD was included at the request of the permittee in the 1996 permit and is used to better allow the facility to deal with wet weather flows.

Modification provisions as cited in the permit for monitoring frequency reduction may be initiated in accordance with the provisions set forth in Part IV of the permit and upon written notification from the Department.

Elizabeth City CSOs

Elizabeth City currently discharges combined sewage from twenty-eight (28) active CSO outfalls which have solids/floatables removal equipment installed just prior to the discharge. Elizabeth City has requested authorization to activate a new CSO outfall which will have solids/floatables removal equipment installed prior to activation. These CSO outfalls discharge into the Peripheral Ditch, Great Ditch, Elizabeth River, Newark Bay and Arthur Kill. The Peripheral Ditch, Great Ditch, Elizabeth River, Newark Bay and Arthur Kill are classified as FW2-NT(C2) and SE3(C2) waters and are located within the NY/NJ Harbor.

Middlesex County Utilities Authority Water Reclamation Center

The existing facility discharges treated disinfected, domestic wastewater with industrial contribution from thirty-five (35) towns in Middlesex, Somerset and Union Counties, including one town with combined sewer overflows, the City of Perth Amboy into the Raritan Bay and Raritan River, through outfalls DSN001 and DSN007 respectively, classified as SE1 waters. The existing facility has a NJPDES flow value of 147 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 114 MGD. This action proposes effluent limitations based on a flow of 147 MGD.

Modification provisions as cited in the permit for monitoring frequency reduction may be initiated in accordance with the provisions set forth in Part IV of the permit and upon written notification from the Department.

Perth Amboy City CSOs

Perth Amboy City currently discharges combined sewage from seventeen (17) CSO outfalls, which have solids/floatables removal equipment installed just prior to the discharge. These CSO outfalls discharge into the Arthur Kill and Raritan River. The Arthur Kill and Raritan River are classified as SE2(C2) and SE1(C2) waters respectively.

These above mentioned draft NJPDES permit actions have been prepared for these facilities based on the administrative record filed at the NJDEP, 401 East State Street, Trenton, New Jersey 08625. Copies of the fact sheet which describes in more detail the principal facts and significant considerations examined during the preparation of the draft permit, and the draft permit are posted on NJDEP's website at <http://www.nj.gov/dep/dwq/cso.htm>. Draft documents are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday. If you are interested in scheduling an appointment or requesting specific information regarding the draft documents, contact the Bureau of Surface Water Permitting at (609) 292-4860.

A non-adversarial public hearing has also been scheduled for these four (4) permits on January 15, 2014, from 3:00 pm to 5:00 pm, or until the end of testimony (whichever comes first) at Elizabeth City's Council Chamber, located at 50 Winfield Scott Plaza, Elizabeth, NJ 07201.

Written comments on these proposals must be submitted in writing to Pilar Patterson, Chief, or Attention: Comments on Public Notice, specifically noted as comments on NJ0024741, NJ0108782, NJ0020141, or NJ0156132, Division of Water Quality, Mail Code: 401-02B, Bureau of Surface Water Permitting, P.O. Box 420, Trenton, NJ 08625 by the close of the public comment period, which will close sixty calendar days after publication of this notice in the newspaper or the December 4, 2013 *DEP Bulletin*, whichever is later. All persons, including the applicant, who believe that any condition of this draft document is inappropriate or that the Department's decision to issue this draft document is inappropriate, must raise all reasonable arguments and factual grounds supporting their position, including all supporting materials, during the public comment period.

The NJDEP will respond to all significant and timely comments upon issuance of the final document. The permittee and each person who has submitted written comments, or oral comments at the public hearing, will receive notice of the Department's permit decision.

The sanitary wastewater generated from the homes, golf clubhouse, maintenance building and a pool cabana is conveyed to the on-site wastewater treatment plant (WTP). The WTP has a maximum daily discharge limitation of 61,000 gallons per day (GPD). The sanitary wastewater generated from the facility is treated by an on-site WTP. The facility has two surface impoundments, a spray irrigation area, and six (6) monitoring wells.
GLEN MEADOWS/TWIN OAKS STP NJ0100528 DSW Minor	Lilac Dr Clinton Twp., NJ 08801 Hunterdon County	Lisa Hoare Bureau of Surface Water Permitting (609)633-7021	South Branch Raritan River FW2-TM(C2) Raritan River SB (3 Brdgs to Spruce Run)	Surface Water Renewal Permit Action This is a minor permit action for the renewal of an existing NJPDES/DSW permit that serves two residential developments consisting of 58 single family homes. It authorizes the discharge of a permitted flow of 0.025 MGD of treated and disinfected wastewater to an unnamed intermittent tributary to the South Branch of Raritan River. The effluent travels approximately 300 feet in the tributary before it enters the South Branch of Raritan River, classified as FW2-TM water.
VIKING YACHT CO NJ0106780 DGW NJ0106780 DST	5738 Rte. 9 New Gretna, NJ 08224 Burlington County		Glacial Drift Bass River II-A SE1(C1) Mullica River (GSP bridge to Turtle Ck)	Consolidated Renewal Permit Action This is a renewal permit for Viking Yachts who primarily engages in luxury boat manufacture and maintenance under SIC code 3732. They currently have an SPPP but no DCP. This renewal includes requirements for a DCP, with monitoring and design criteria. This permit authorizes the discharge of stormwater to surface and ground waters of the State, and sanitary water to ground waters of the State.
MEADOWS AT MANSFIELD THE NJ0145564 DGW	Rte. 57 Mansfield Twp., NJ 07865 Warren County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Martinsburg Formation II-A	Ground Water Renewal Permit Action The proposed development consists of a 226 unit adult residential community, including a 6,000 ft2 clubhouse, to be served by an advanced onsite wastewater treatment system. The treated wastewater will be discharged to the ground via a subsurface disposal system.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:
