REG = HMDC/Pinlands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Special Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs

**NOTICE OF INTENT TO SETTLE
WATERFRONT DEVELOPMENT PERMIT**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to issue a Waterfront Development Permit that would authorize the legalization of the existing fixed pier, floating dock and boatlift, and authorize the following modifications to these structures:

- Construct a $\pm 2'$ x $17'$ addition to the existing fixed pier to increase the width to $8'$;
- Remove a $\pm 2'$ x $16'$ section from the terminus of the existing fixed pier to reduce the width to $8'$;
- Relocate the existing $\pm 3'$ x $11.5'$ ramp to the floating dock;
- Construct a $\pm 3'$ x $13.5'$ addition to the existing floating dock (parallel to the bulkhead) and a $\pm 2.5'$ x $45'$ addition to the existing floating dock (perpendicular to the bulkhead), to increase the overall width of the "L-shaped" floating dock to $8'$;
- Remove 250 square feet of existing timber decking from the approximate center of the existing fixed pier;
- Remove a $\pm 5'$ x $8.5'$ section of the existing floating dock to provide $\pm 9'$ of open water between the floating dock and the fixed pier; and,
- Relocate five (5) mooring piles.

The property is located on Block 45, Lots 1, 1.01, 2.01 and 2.011 in the Borough of Wildwood Crest, Cape May County. The Applicant is Michael DiAntonio. This settlement will satisfy the appeal of File #0515-07-0007.1, WFD 100001 and appeal of the AONOCAPA of the same file.

This Notice was previously published in the February 20, 2013 edition of the Bulletin; however, the structure(s) were subsequently modified by the Applicant to remove those portions of the structure(s) which extended onto Borough property. Therefore, the Department is republishing Notice of Intent to Settle in accordance with N.J.A.C. 7:7-5.4.

IN THE MATTER OF:

Michael DiAntonio
File #: 0515-07-0007.1, WFD100001
Block(s): 45 Lot(s): 1, 1.01, 2.01 and 2.011
6310 Park Boulevard
Wildwood Crest, Cape May County

Comments regarding this settlement or requests for a copy of the project plan should be sent to: Bureau of Urban Growth & Redevelopment, Southern Region Supervisor, Division of Land Use Regulation, NJDEP, Mail Code 501-02A, P.O. Box 420, Trenton, New Jersey 08625-0420, or the office may be reached by telephone: (609) 984-6216. Comments must be received by NJDEP within 10 days of this publication, or by April 26, 2013.

**New Jersey Department of Environmental Protection
Division of Water Quality
Bureau of Surface Water Permitting**

PUBLIC NOTICE

The New Jersey Department of Environmental Protection (NJDEP) is hereby giving Notice in accordance with N.J.A.C. 7:14A-15.10(d) of three New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions, a public hearing on those permits as well as a request for input on a related matter as described below.

The NJDEP proposes to revoke and reissue Camden County MUA's (CCMUA) Discharge to Surface Water (DSW) Permit NJ0026182 to consolidate CCMUA's Combined Sewer Overflow (CSO) General Permit Authorization NJG0108791 under the individual Category "A" Permit NJ0026182 as well as to incorporate updated CSO permit requirements.

NJDEP also proposes to terminate the authorization to discharge for Camden City’s NJPDES CSO Permit NJG0108812 and Gloucester City’s NJPDES CSO Permit NJG0108847 which are presently authorized under the Master General Permit NJ0105023 and issue individual permits to authorize discharges from CSOs. Upon the effective date of the individual permits, Camden City’s and Gloucester City’s authorization under the Master General Permit will terminate. The above action is executed in accordance with N.J.A.C. 7:14A-1 et seq., and by authority of the Water Pollution Control Act at N.J.S.A. 58:10A-1 et seq., for the following discharge:

Applicants/Permittees

Facilities

Camden County MUA
1645 Ferry Avenue
Camden, NJ 08104

Delaware No. 1 Water Pollution Control Facility
2nd & Jackson Streets
Camden, NJ 08104

Camden City
Mayor’s Office
520 Market Street
4th Floor, City Hall
Camden, NJ 08101

Camden City
520 Market Street - 4th Floor, City Hall
Camden, NJ 08101-5120

Gloucester City
512 Monmouth Street
Gloucester City, NJ 08030

Gloucester City
512 Monmouth Street
Gloucester City, NJ 08030

Combined Sewer Overflows are discharges from Combined Sewer Systems (CSS). CSSs are sewers that were designed many decades ago to collect rainwater and snowmelt runoff, domestic sewage, and industrial wastewater in the same pipe. CSSs are no longer permitted in New Jersey for new communities, but many older cities in the State continue to operate existing CSSs. Most of the time, the CSSs transport all wastewater to a sewage treatment plant, where it is treated and then discharged to a water body. However, during periods of rainfall or snowmelt, the wastewater volume in a CSS can exceed the hydraulic capacity of the sewer system or treatment plant. For this reason, CSSs were designed to overflow during these periods and discharge excess wastewater directly from CSOs to nearby streams, rivers, or other water bodies prior to reaching the sewage treatment plant.

NJDEP has historically been regulating the majority of discharges from CSOs through authorizations under a Master General Permit NJ0105023 and others through individual permits, consistent with the National Policy for CSO Controls, N.J.A.C. 7:14A-11.12 Appendix C. NJDEP has determined that it is more appropriate to regulate all CSO discharges under individual permits in order to address the site-specific regulatory requirements of each of the permittees and to promote better coordination of a Long Term Control Plan (LTCP) among all permittees contributing to the hydraulically connected systems.

Camden County MUA

The existing CCMUA discharges treated and disinfected domestic wastewater with industrial contribution from the Delaware No. 1 Water Pollution Control Facility into Zone 3 of the Delaware River. The existing facility has a NJPDES flow value of 80 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 57 MGD. This action proposes effluent limitations based on a flow of 80 MGD. Treatment consists of bar screens, grit removal units and washers, primary and secondary sedimentation tanks, pure oxygen aeration units, and sodium hypochlorite disinfection. In addition, the existing CCMUA discharges combined sewage from one (1) CSO outfall, which has solids/floatables removal equipment installed just prior to the discharge. This CSO outfall also discharges into Zone 3 of the mainstem of the Delaware River.

Modification provisions as cited in the permit for monitoring frequency reduction may be initiated in accordance with the provisions set forth in Part IV of the permit and upon written notification from the Department.

Camden City

Camden City currently discharges combined sewage from twenty-eight (28) CSO outfalls. The majority of these CSO discharges have solids/floatables removal equipment installed just prior to the discharge. Camden City is consolidating their CSO outfalls, and through this process the number of CSO outfalls will be reduced from 28 to 22, and solids/floatables removal equipment will be installed on the remaining CSO outfalls during this permit cycle. These CSO outfalls discharge into Zone 3 of the Delaware River, and the tidal portions of Newton Creek and Cooper River. Newton Creek and Cooper River are classified as Freshwater 2-Non-Trout-Category 2 (FW2-NT(C2)) waters and are also located within Zone 3 of the Delaware River Basin.

Gloucester City

Gloucester City discharges combined sewage from seven (7) CSO outfalls, which have solids/floatables removal equipment installed just prior to the discharge. These CSO outfalls discharge into Zone 3 of the mainstem of the Delaware River and the tidal portion of Newton Creek. Newton Creek is classified as FW2-NT(C2) waters and is also located within Zone 3 of the Delaware River Basin.

These above mentioned draft NJPDES permit actions have been prepared for these facilities based on the administrative record filed at the NJDEP, 401 East State Street, Trenton, New Jersey 08625. Copies of the fact sheet which describes in more detail the principal facts and significant considerations examined during the preparation of the draft permit, and the draft permit are posted on NJDEP's website at _____. Draft documents are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday. If you are interested in scheduling an appointment or requesting specific information regarding the draft documents, contact Robert Hall of the Bureau of Surface Water Permitting at (609) 292-4860.

A non-adversarial public hearing has also been scheduled on these topics for May 21, 2013, from 3:00 to 5:00 pm, or until the end of testimony (whichever comes first) at the Camden County MUA, located at 1645 Ferry Avenue Camden, NJ, 08104.

Written comments on these proposals must be submitted in writing to Pilar Patterson, Chief, or Attention: Comments on Public Notice, specifically noted as comments on NJ0026182, NJ0108847, or NJ0105023, Bureau of Surface Water Permitting, P.O. Box 420, Trenton, NJ 08625 by the close of the public comment period, which will close sixty calendar days after publication of this notice in the newspaper. All persons, including the applicant, who believe that any condition of this draft document is inappropriate or that the Department's decision to issue this draft document is inappropriate, must raise all reasonable arguments and factual grounds supporting their position, including all supporting materials, during the public comment period.

The NJDEP will respond to all significant and timely comments upon issuance of the final document. The permittee and each person who has submitted written comments, or oral comments at the public hearing, will receive notice of the Department's permit decision.

NOTICE OF INTENT TO SETTLE A FRESHWATER WETLANDS VIOLATION

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to settle an enforcement action pertaining to the below sites and responsible party for violations of the Freshwater Wetlands Protection Act pursuant to N.J.S.A. 13:9B-21.j.

IN THE MATTER OF:

Phillip & Terri Lynn Rich, Jr.
Enforcement File # NEA130001 – 1432-05-0015.1

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element
PO Box 028
Trenton, NJ 08625

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:
