Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Special Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Narrative	
	<p>The 1160 State Street (the Site) is located in an industrial area of Perth Amboy and is adjacent to the Arthur Kill to the east and Cranes Creek to the south. The site has been used for industrial purposes over 110 years and is now currently in the process of site remediation. First Environment, Inc. has prepared a NJDEP approved Remedial Action Work Plan and an EPA approved PCB Remediation Work Plan (approved August 16, 2011 and April 25, 2012 respectively) on behalf of Perth Amboy 1160, LLC to address several areas of concern including petroleum-hydrocarbon impacted soils, areas impacted by PCBs and a paint can disposal area. Remediation strategies within these plans include addressing petroleum-hydrocarbon impacted soils via in-situ soil stabilization using fly ash; addressing PCB areas by excavating soils exhibiting concentrations above 1 parts per million (ppm) and using the material for fill elsewhere on site; and removing paint can material for offsite disposal. In June 2013, FEMA released preliminary work maps that show the Site nearly completely within the flood hazard area, where previously only a portion of the site was within this area (FIRM, 2010). As approved by the NJDEP and EPA work plans, PCB contaminated material will be used as fill on site. Material containing PCB concentrations between 10 and 100 ppm will be relocated to a designated low-occupancy area and capped. Material containing PCB concentrations between 1 and 10 ppm will be used as backfill elsewhere on site provided those areas are also capped. Due to the property's location within the newly designated flood hazard area, the filling and the temporary stockpiling of non-hazardous and hazardous material will occur within the floodplain. A waiver is requested in order to proceed with the approved Action Work Plans to remediate the site and ultimately improve the existing environmental conditions by removing free-phase fuel oil and limiting exposure to PCB near the ground surface.</p>

Waiver Rule Requests

NOTE: Pursuant to N.J.A.C. 7:1B-2.3(c), this section contains only those waiver rule requests related to rules for which the Department publishes notice of permit decisions in the DEP Bulletin. To access information on all waiver rule requests received by the Department, use the interactive reports on the Department's DataMiner website. Please visit <http://www.nj.gov/dep/waiverrule> and click on the "Search for Waiver Requests and Decisions" button to access these reports.

Narrative	<p>Snug Harbor Marina is a privately owned marina with approximately 124 in-water slips and upland support buildings and parking, all located within the Township of Lower, Cape May County NJ. The property is located on the south side of Ocean Drive and is fronted by Cape May Harbor. Privately owned marinas that lease in-water slips to the public are located to the east and west of the project in question. It should be noted that three marinas within Cape May Harbor have expanded in the last 10-12 years and were subject of the same mapping conditions and shellfish habitat definition, an aerial photograph of the marinas within the harbor are attached. The undue burdensome-exceptional hardship exists with the classification of the water area as shellfish habitat. The rule does not allow the expansion of a water dependent use as encouraged by the CZM as a result of a mapping unit performed in the 1960's as outlined in the project narrative attached. While the rule allows maintenance dredging within the shellfish habitat as defined by the rule, the installation of docks is not. The applicant has prepared scientific studies contesting the presence of habitat and therefore the expansion with traditional marine material and dredging should be permitted as submitted and not reconfigured as desired by the Bureau of Shellfisheries.</p>

Narrative
The DeNofa's have applied to the NJDEP-DLURP (file no. 0510-09-0038.1) to grandfather the dock as constructed and the application was denied on 6/14/2010. The existing dock maintains approximately 829 square feet of disturbance below the mean high water line. Historical aerials show a dock structure greater than 700 square feet of coverage below the mean high water line in 1963 and therefore the dock maintains the same environmental impact as historically shown. The owners continue to utilize the fixed pier and floating dock for water dependent, recreational purposes including mooring of boats and launching water vehicles such as kayaks. Existing construction minimizes environmental impact by implementing inert materials for surface decking and fencing for safety. Further discussion of the exceptional hardship is provided in the project narrative.

**NOTICE OF A PUBLIC COMMENT PERIOD
ON THE PROPOSED ISSUANCE OF A PERMIT RENEWAL UNDER
THE RESOURCE CONSERVATION AND RECOVERY ACT**

The State of New Jersey, Department of Environmental Protection (Department) has reviewed the hazardous waste facility permit renewal application submitted by:

Department of the Army
Installation Management Command, North East Region
Headquarters, U.S. Army Garrison, Picatinny Arsenal
Picatinny Arsenal, New Jersey 07806-5000
EPA ID No. NJ3210020704

for the renewal of a hazardous waste storage and treatment facility permit for Picatinny Arsenal's explosive waste incinerator.

THE DRAFT PERMIT

The Department issues hazardous waste facility permits to regulate ongoing activities involving the treatment, storage, or

disposal of hazardous waste. The Department has prepared a draft hazardous waste facility permit renewal for U.S. Army Garrison - Picatinny Arsenal for public comment. The draft permit includes the following:

- ° Strict Specifications of the Activities Allowed Under the Permit
- ° Identification of Waste Types Handled by the Facility
- ° Design Specifications for all Approved Activities and Required Monitoring Systems
- ° A Contingency Plan
- ° Inspection Schedules

FACILITY DESCRIPTION

Issuance of a final hazardous waste facility permit renewal will authorize U.S. Army Garrison - Picatinny Arsenal to continue to conduct business as a hazardous waste facility involving the storage of hazardous waste in containers and tanks and the treatment of hazardous waste by grinding and slurring and then incineration.

WHERE TO OBTAIN ADDITIONAL INFORMATION

Copies of the draft permit and supporting permit application are available at the Department's Solid and Hazardous Waste Management Program office listed below. Anyone wishing to obtain a copy of a facility's fact sheet, the draft permit, further information, or to arrange to review the administrative record should first contact Ms. Lisa Offredo at the address listed below or by calling her at (609) 984-5950. The files may be reviewed by appointment only, weekdays, excluding State holidays, between 9:00 AM and 5:00 PM.

Mail Code 401-02C
Bureau of Landfill and Hazardous Waste Permitting
Solid and Hazardous Waste Management Program
Environmental Management
New Jersey Department of Environmental Protection
P.O. Box 420

Trenton, New Jersey 08625-0420
(609) 984-6985

HOW TO PROVIDE YOUR COMMENTS

The public comment period on the draft permit begins on September 20, 2013 and ends on November 2, 2013. Written comments must be submitted to the above address.

All comments submitted during the comment period will be considered in making the final decision on permit issuance. Should the Department decide to approve the renewal of the permit, a response to comments document will be issued that will identify any changes from the draft permit, and describe and respond to all significant issues raised during the public comment period. A notice of the decision will be sent to each person who submits written comments or who requests such notice.

LEGAL REFERENCES FOR THIS PROPOSAL

This permit covers ongoing hazardous waste activities that are regulated by the Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) on the State level and the Resource Conservation and Recovery Act (RCRA) on the Federal level.

OPERATIONS ELEMENT**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element
PO Box 028
Trenton, NJ 08625

DIVISION OF WATER QUALITY**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:
