REG = HMDC/Pinelands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Special Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan
Amendment Applications pursuant to P.L.2011, c.203**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2011, c.203 which was enacted on January 17, 2012. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2011, c.203 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2011, c.203, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Site Specific Amendment Proposals for Changes in Sewer Service Area3
ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING
Proposed Amendment to the Northeast Water Quality Management Plan

Public Notice:

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Northeast Water Quality Management (WQM) Plan. This proposed amendment will also modify the current Bernards Township Sewerage Authority Watershed Wastewater Management Plan (WMP) and the Somerset County Future Wastewater Service Area Map for that portion of the County within the Northeast WQM Planning Area. This amendment would provide for the construction of Mine Brook Road Residential Development to be located on Block 4701, Lot 2 and portions of Block 4701, Lots 3 and 24 in Bernards Township, Somerset County. The proposed project location is bounded to the south by Mine Brook Road, to the east by the Dead River and to the west by Interstate Route 287. The total project area is approximately 89 acres. The Mine Brook Road residential development is proposed to consist of 12 single-family homes and a community center. The area to be developed for the 12 proposed lots and community center would encompass a total of 30.5 acres. The projected wastewater flow from the proposed residential development, calculated in accordance with N.J.A.C. 7:14A-23.3 is 5,000 gallons per day. Generated wastewater is to be treated by an on-site wastewater treatment system, which will discharge to groundwater (DGW). Potable water for the proposed residential development would be provided for by 12 individual on-site public wells.

As part of this proposed amendment, only the 12 proposed residential lots and the community center, to be served by the proposed sanitary treatment plant on approximately 30.5 acres, will be designated as a service area for "Mine Brook Road Development". As part of the proposed project, an area totaling approximately 58.5 acres is to be created as an Open Space/ Natural Resource Conservation Easement.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15-5.24 and 5.25(h). This preliminary notice represents the Department's determination that the proposed amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15-5.24 and 5.25.

In accordance with N.J.A.C. 7:15-5.24(b), environmentally sensitive areas have been assessed to determine what areas are appropriately included in the proposed sewer service area. Pursuant to N.J.A.C. 7:15-5.24, environmentally sensitive areas are defined as contiguous areas of 25 acres or larger, alone or in combination, consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands. These environmentally sensitive areas are not included in the proposed sewer service area except as noted below.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species (Landscape Project), version 3.1. A review of the Landscape Project indicated that the project location is identified as threatened and endangered species habitat for the federally listed Indiana Bat. As part of the Department's Division of Land Use Regulation (DLUR) permit approval process, a United States Fish and Wildlife Service (USFW) evaluation was conducted. The USFW determined that in order to protect the Indiana Bat, a seasonal tree cutting restriction during the breeding/ maternity period be imposed as a condition of any

DLUR issued permits for this proposed project location. Consequently, the DLUR permit issued pursuant to the NJ Flood Hazard Area Control Act (#1802-03-0017.1) contain a condition prohibiting any tree clearing activities from April 1st to September 30th of each year.

In addition, a significant portion of the existing wooded area of the site including the 50 foot riparian buffer associated with the Dead River will remain as 58.5 acre Open Space/ Conservation Easement. The majority of the portion of the project site to be developed and proposed as sewer service area is currently in agricultural use. Based on the above, Department determined that pursuant to N.J.A.C. 7:15-5.24(g)2, the inclusion of the sewer service area for the development of the site will not impact the nesting and breeding nor decrease the likelihood of the survival and/or recovery of the species.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, no portion of the proposed development on site is identified as within a Natural Heritage Priority Site, a special water resource protection area along a Category One water, or wetlands or associated buffer.

The Township of Bernards, Somerset County, New Jersey has adopted a stormwater control ordinance (Ord. No. § 21- 42.1.) in accordance with N.J.A.C. 7:8. Consequently, the requirements of N.J.A.C. 7:15-5.25(g)1 for stormwater control have been satisfied. No portion of the proposed development on site is identified as within a riparian zone as established at N.J.A.C. 7:15-5.25(g)2-5 or areas with a steep slope as required at N.J.A.C. 7:15-5.25(g)6.

Pursuant to N.J.A.C. 7:15-5.25(h)2, the Department has determined that the project has demonstrated that considering dilution available on the project site, wastewater generated from this development can be discharged on site in conformance with the nitrate planning standard of 2.0 mg/L. To meet the nitrate planning standard, the Department's nitrate dilution model projected for a discharge rate of 5,000 gpd within non-hydric soils on site, approximately 21 acres of pervious area are required to remain to provide the necessary dilution. The submitted approved site plans confirmed that 21 acres of the proposed project, not delineated as wetlands and/or containing hydric soils are to be deed restricted as open space and thus will maintain as pervious area.

To provide potable water to the proposed development, the proposed project will utilize 12 privately owned wells associated with the individual parcels. All of the proposed wells are to be located within the Upper Passaic River (above Pine Brook) watershed (HUC11). The proposed wastewater treatment system will discharge effluent back to groundwater within this same HUC11 watershed proportionate to the projected volume of potable water withdrawn; accordingly, potential depletive/consumptive impacts have been addressed.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

This notice is being given to inform the public that a plan amendment has been proposed for the Northeast WQM Plan. All information relating to the WQM Plan and the proposed amendment is located at the Department, Division of Coastal and Land Use Planning, 401 East State Street, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Division of Coastal and Land Use Planning at the Department address cited above with a copy sent to Mr. Gregory Elko, Principal, Langan Engineering & Environmental Services, 2700 Kelly Road, Warrington, New Jersey, 18976. All comments must be submitted within 30 days of the date of this published notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Narrative
We submit that the onsite natural water's edge is situated significantly farther waterward than the existing bulkhead & that the marina basin was created by dredging and filling of wetlands, bay bottoms and other estuarine water areas' (def. Existing Lagoon Edge). A waiver is therefore requested from the definition of this site as a Filled Water's Edge. A waiver is also requested from the requirement of the FWE rule that an area equivalent to the area within 100 ft of the water's edge shall be used solely for water-dependent uses or remain undeveloped for future water-dependent use. The project site is a deteriorated marina, with no public access & inadequate boat mooring throughout the tide cycle. There are 2 houses & a pool on the site, with no significant marina support facilities. The bulkhead must be replaced. There is insufficient parking, no sidewalks & virtually no green space. The cost of repairing the marina cannot be justified without the benefit of a residential community. The proposed development is consistent with the surrounding neighborhood & as such will benefit the area, while preserving & enhancing the environment. The site is zoned residential & appropriate densities will be maintained. The water-dependent marina use will become user-friendly, consistent with DEP's goal to provide waterfront recreation. Sidewalks will be added on the side street, providing safe passage to Yacht Ave. The public good & environment will not be harmed by granting relief. The small, irregular site shape is not conducive to leaving so much contiguous open space. Roughly 1/3, however, will be open space, consistent with local zoning. A water's edge setback will provide public access. The marina-residence marriage is a combined water-dependent use. Residential development will be the driving force to clean up the site to current DEP standards. Strict compliance with the FWE rule in this instance creates undue hardship & the project's benefits are significant.

Narrative	
	The proposed project entails the construction of a new residential dwelling, driveway and septic system. The project is being constructed as an "Affordable Housing" development for low income residence of the Township of Raritan. The property has been continuously owned by the applicant from January 28, 1987 to the present. The applicant obtain approval from the NJDEP for the project, however the applicant is required to purchase wetlands mitigation credits for the loss of 0.18 acre of wetland. The applicant has contact the mitigation bank and the cost to purchase the mitigation credit is \$72,000 dollars. The applicant has designed the project to limit wetland disturbance to the absolute minimum required. The mitigation cost exceeds the value of the property and adds a significant cost to the project. The additional cost make project economically unfeasible. The applicant request elimination of the mitigation requirement for the project.

Narrative
The project as approved by NJDEP requires compensation for the loss of 0.342 acre of forested riparian zone at a 2:1 ratio. The entire site is wooded and all disturbance associated with the project has been minimized. All disturbed areas will be stabilized in accordance with all applicable soil erosion requirements. The disturbed areas will be maintained as grass/lawn and is necessary for future maintenance of the driveway and dwelling. The grass areas cannot be reforested. Therefore, the applicant cannot compensate for the loss of 0.342 acre of riparian zone.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element
PO Box 028
Trenton, NJ 08625

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Public Notice of Proposed Permit Actions - 01/23/2013
(Division of Water Quality)

<u>Permit:</u> • Name • NJPDES No. • Type	<u>Facility Location:</u> • Address • County	<u>NJDEP:</u> • Case manager • Bureau • Phone No.	<u>Receiving Discharge:</u> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<i>Executive Summary</i>
PRINCETON LAND LLC NJ0005541 DSW Major	4201 Quakerbridge Rd Princeton Junction, NJ 08550 Mercer County	Ramanathan Asokan Bureau of Surface Water Permitting (609)292-4860	Duck Pond Run FW2-NT(C2) Stony Brook	Surface Water Renewal Permit Action This application is for the renewal of a NJPDES permit to discharge wastewater through two outfalls. Discharge Serial Number (DSN) 001A discharges 0.22 MGD of treated wastewater comprised of sanitary and laboratory wastewater, stormwater and non-contact cooling water. DSN 002A discharges an average of 0.074 MGD of wastewater consisting of non-contact cooling water and storm water runoff. Currently the wastewater treatment plant is idled since operations at the site have been suspended. Long term usage of the site has not been finalized yet it is anticipated that a potential restart of the facility can occur. The permittee has applied for renewal of DSNs
LERTCH SLF NJ0056570 DGW	1550 Belmar Blvd Wall, NJ 07719 Monmouth County	Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021	Kirkwood II-A	Ground Water Renewal Permit Action Lertch Sanitary Landfill is a 23-acre site that contains a landfill that accepts construction debris from a wrecking company which is also operated onsite by the permittee. Aluminum, steel, etc., are sorted in separate areas and concrete is crushed onsite for recycling. Other materials that are collected are also recycled. In addition to the materials that are recycled, there are several areas of landfilled construction debris at the facility. The landfill is unlined.
PHILLIPS 66 CO NJ0001511 DSW Major	1400 Park Ave Linden, NJ 07036 Union County	Robert Hall Bureau of Surface Water Permitting (609)292-4860	Morse's Creek SE3(C2) Morses Creek / Piles Creek	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge wastewater through several outfalls. Operations at the facility include petroleum refining, manufacturing of lubricants, manufacturing of industrial organic chemicals and ongoing remediation activities. DSN 002A is the terminus of the treatment plant which includes treated wastewater components that originate from the refinery process, wastewater from other Exxon facilities, stormwater and groundwater from the site. The renewal permit includes permit conditions for three newly regulated outfalls, namely DSN 003A, DSN 004A and DSN 005A which are primarily composed of non-contact cooling water.
SIEGFRIED (USA) INC NJ0053594 DSW Minor	33 Industrial Park Rd Pennsville, NJ 08070-3298 Salem County	Margaret Elsishans Bureau of Surface Water Permitting (609)292-4860	Miles Creek via unnamed trib. FW2-NT(C2) Alloway Creek / Hope Creek	Surface Water Renewal Permit Action This permit action is for a renewal of a NJPDES/DSW permit to discharge an average of 0.05 million gallons per day (MGD). Under normal operating conditions, non-contact cooling water is sent to the Pennsville Sewerage Authority (PSA). However, under emergency conditions, the facility will divert the non-contact cooling water (untreated) to Miles Creek as authorized by this permit.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
