General Application Milestone Codes

Application Approved
Application Denied
Application Withdrawal
A= Approved
C = Cancelled
D= Denied

F = Complete for Filing
H = Public Hearing Date
I = Additional Information Requested
IS = Issued
L = Legal Appeal of Permit Decision
M = Permit Modification

P = Permit Decision Date
R = Complete for Review
T = Additional Information Received
W= Withdrawn

Specific Decision Application Codes

O = Other

REG = HMDC/Pinlands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

**ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING**

**Adopted Amendments to the Mercer County Water Quality Management Plan
Public Notices
Community Park**

Take notice that on **JULY 17, 2014**, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning (WQMP) rules (N.J.A.C. 7:15-3.4), an amendment to the Mercer County WQMP was adopted by the Department of Environmental Protection (Department). This amendment, submitted on behalf of Mr. Timothy McGough, Professional Engineer, Township of Robbinsville, expands the sewer service area (SSA) of the Hamilton Township Water Pollution Control Facility (WPCF) to include portions of Block 24, Lot 1 in Robbinsville Township, Mercer County. The SSA expansion includes the proposed development of restroom facilities and a concession stand with cooking facilities, which would serve approximately 350 visitors per day at Community Park. This amendment updates the Mercer County Wastewater Management Plan (WMP) adopted October 9, 2013, as well as the Robbinsville Township WMP chapter, to include the Community Park Development in the Hamilton Township WPCF SSA.

This amendment has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 5,250 gallons per day. Currently, Hamilton Township WPCF is permitted to discharge 16 million gallons per day (MGD) of treated wastewater to Crosswicks Creek under NJDPES permit number NJ0026301. The average of the last twelve months of discharge monitoring data show that Hamilton Township WPCF has discharged an average daily flow of 8.09 MGD. The additional 0.005 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the Hamilton Township WPCF.

The Hamilton Township WPCF provides treatment for Robbinsville, Hamilton, and West Windsor Townships. As part of the Mercer County WMP, an environmental constraints/build out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Robbinsville Township has a projected need to treat a total wastewater flow of 2.5 MGD and the total build out for Hamilton Township WPCF SSA is 12.735 MGD, including 0.156 MGD from West Windsor and 10.079 from Hamilton Township. The additional 0.005 MGD of planned wastewater flow will not cause the future wastewater generation potential of the expanded SSA to exceed the 16 MGD permitted capacity of the Hamilton Township WPCF.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the adopted SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that Landscape Project identifies bobcat habitat in a 2.5 acre linear stretch along the drainage ditch onsite, however the Department's Endangered and Nongame Species Program has indicated that this habitat is not significant for the bobcat. Additionally, SSA is not adopted in this area.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. There are no riparian zones on the project site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). The drainage ditch onsite identifies as wetlands on Department mapping, is less than 25 acres, and is not included in the adopted SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Aqua New Jersey, Inc., which is currently permitted under water allocation permit number WAP1000001 and PWSID1103001 to allocate 283 million gallons per month (MGM) and has a water supply surplus of 45.801 MGM. The proposed water demand of the project is 0.001 MGD or 0.030 MGM, which is diminimus; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Robbinsville Township has adopted stormwater control ordinance #2006-16 (refer to Chapter 142, Section 35 of their Land Use Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This amendment proposal was noticed in Volume 38, Issue 9 of the New Jersey Bulletin on May 7, 2014, and the public hearing on the proposed WQMP amendment, conducted by the Mercer County Planning Board, was held on Wednesday, June 11, 2014. No public comments were made at the public hearing and no comments were received during the public comment period. In accordance with the Mercer County WQMP Amendment Procedures, the Mercer County Planning Board formally endorsed the amendment in the form of Resolution No. 2014-02.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Edinburg Village

Take notice that on **JULY 17, 2014**, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning (WQMP) rules (N.J.A.C. 7:15-3.4), an amendment to the Mercer County WQMP was adopted by the Department of Environmental Protection (Department). This amendment, submitted on behalf of Mr. Timothy McGough, Professional Engineer, Township of Robbinsville, expands the sewer service area (SSA) of the Hamilton Township Water Pollution Control Facility (WPCF) to include portions of Block 9, Lots: 1, 25.01, and 55 in Robbinsville Township, Mercer County. The SSA expansion includes the proposed development of 50 single family homes named Edinburg Village, formerly known as Washington Woods. This amendment updates the Mercer County Wastewater Management Plan (WMP) adopted October 9, 2013, as well as the Robbinsville Township WMP chapter, to include the Edinburg Village Development in the Hamilton Township WPCF SSA.

This amendment has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 15,000 gallons per day. Currently, Hamilton Township WPCF is permitted to discharge 16 million gallons per day (MGD) of treated wastewater to Crosswicks Creek under NJDPES permit number NJ0026301. The average of the last twelve months of discharge monitoring data show that Hamilton Township WPCF has discharged an average daily flow of 8.09 MGD. The additional 0.015 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the Hamilton Township WPCF.

The Hamilton Township WPCF provides treatment for Robbinsville, Hamilton, and West Windsor Townships. As part of the Mercer County WMP, an environmental constraints/build out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Robbinsville Township has a projected need to treat a total wastewater flow of 2.5 MGD and the total build out for Hamilton Township WPCF SSA is 12.735 MGD, including 0.156 MGD from West Windsor and 10.079 from Hamilton Township. The additional 0.015 MGD of planned wastewater flow will not cause the future wastewater generation potential of the expanded SSA to exceed the 16 MGD permitted capacity of the Hamilton Township WPCF.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for

Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the adopted SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

A Riparian zone has been identified on the project site. In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The soils onsite are identified as acidic soils (Magothy and Merchantville formations), therefore the required riparian buffer width for the unnamed tributary to the Assunpink Creek identified onsite is 150 feet from top of bank. The proposed development has obtained Department-issued Flood Hazard Area Permits under file number 1112-07-0012.1, which allow disturbance in the Riparian Zone. Specifically, most of the disturbance is proposed within the riparian zone and stream corridor enhancement area where the perpendicular farm ditch (the unnamed tributary) will be realigned into a meandering stream through the clustered development. Robbinsville Township has adopted Riparian Corridor protections in Ordinance 2004-30; however, the ordinance is not in full compliance with the aforementioned regulations. To become compliant, and in accordance with N.J.A.C. 7:15-5.25(h)5iii, the Riparian Corridor Analysis has been satisfied by applying the 150 foot buffer to the new stream as approved by Department permits and removing the riparian zone from the adopted SSA.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation, L.O.I. # 1112-07-0012 was submitted, which re-delineates the wetlands and their associated buffers, and these areas are not included in the adopted SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Aqua New Jersey, Inc., which is currently permitted under water allocation permit number WAP1000001 and PWSID1103001 to allocate 283 million gallons per month (MGM) and has a water supply surplus of 45.801 MGM. The proposed water demand of the project is 0.016 MGD or 0.480 MGM; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Robbinsville Township has adopted stormwater control ordinance #2006-16 (refer to Chapter 142, Section 35 of their Land Use Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This amendment proposal was noticed in Volume 38, Issue 9 of the New Jersey Bulletin on May 7, 2014, and the public hearing on the proposed WQMP amendment, conducted by the Mercer County Planning Board, was held on Wednesday, June 11, 2014. No public comments were made at the public hearing and no comments were received during the public comment period. In accordance with the Mercer County WQMP Amendment Procedures, the Mercer County Planning Board formally endorsed the amendment in the form of Resolution No. 2014-02.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Tindall Park

Take notice that on **JULY 17, 2014**, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning (WQMP) rules (N.J.A.C. 7:15-3.4), an amendment to the Mercer County WQMP was adopted by the Department of Environmental Protection (Department). This amendment, submitted on behalf of Mr. Timothy McGough, Professional Engineer, Township of Robbinsville, expands the sewer service area (SSA) of the Hamilton Township Water Pollution Control Facility (WPCF) to include the proposed development of a recreation building with restroom facilities and a concession stand with cooking facilities, which would serve approximately 150 visitors per day, at Tindall Park on of Block 10, Lot 8.03 in Robbinsville Township, Mercer County. This amendment updates the Mercer County Wastewater Management Plan (WMP) adopted October 9, 2013, as well as the Robbinsville Township WMP chapter, to include the Tindall Park Development in the Hamilton Township WPCF SSA.

This amendment has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in

accordance with N.J.A.C. 7:14A-23.3 is 2,250 gallons per day. Currently, Hamilton Township WPCF is permitted to discharge 16 million gallons per day (MGD) of treated wastewater to Crosswicks Creek under NJDPES permit number NJ0026301. The average of the last twelve months of discharge monitoring data show that Hamilton Township WPCF has discharged an average daily flow of 8.09 MGD. The additional 0.002 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the Hamilton Township WPCF.

The Hamilton Township WPCF provides treatment for Robbinsville, Hamilton, and West Windsor Townships. As part of the Mercer County WMP, an environmental constraints/build out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Robbinsville Township has a projected need to treat a total wastewater flow of 2.5 MGD and the total buildout for Hamilton Township WPCF SSA is 12.735 MGD, including 0.156 MGD from West Windsor and 10.079 from Hamilton Township. The additional 0.002 MGD of planned wastewater flow will not cause the future wastewater generation potential of the expanded SSA to exceed the 16 MGD permitted capacity of the Hamilton Township WPCF.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that Landscape Project identifies bobcat habitat onsite, however SSA is not adopted in this area.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

A riparian zone has been identified onsite. In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The soils onsite are identified as acidic soils from the Merchantville formation, therefore the required riparian buffer width for the unnamed tributary to the Assunpink Creek identified onsite is 150 feet from top of bank. SSA is not adopted in this area.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Wetlands are identified onsite, however, are not included in the adopted SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Aqua New Jersey, Inc., which is currently permitted under water allocation permit number WAP1000001 and PWSID1103001 to allocate 283 million gallons per month (MGM) and has a water supply surplus of 45.801 MGM. The proposed water demand of the project is 0.000 MGD or 0.000 MGM, which is diminimus; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Robbinsville Township has adopted stormwater control ordinance #2006-16 (refer to Chapter 142, Section 35 of their Land Use Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This amendment proposal was noticed in Volume 38, Issue 9 of the New Jersey Bulletin on May 7, 2014, and the public hearing on the proposed WQMP amendment, conducted by the Mercer County Planning Board, was held on Wednesday, June 11, 2014. No public comments were made at the public hearing and no comments were received during the public comment period. In accordance with the Mercer County WQMP Amendment Procedures, the Mercer County Planning Board formally endorsed the amendment in the form of Resolution No. 2014-02.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

**NOTICE OF PUBLIC COMMENT PERIOD
REGARDING A MODIFICATION TO A SOLID WASTE FACILITY PERMIT
FOR THE
GLOUCESTER COUNTY IMPROVEMENT AUTHORITY LANDFILL**

The New Jersey Department of Environmental Protection, Division of Solid & Hazardous Waste, hereby gives notice that it has tentatively approved an application for a modification of a Solid Waste Facility (SWF) Permit, including the lateral expansion, of the existing Gloucester County Improvement Authority (GCIA) Landfill. The application for modification of the SWF Permit was submitted in accordance with the requirements established at N.J.A.C. 7:26-2.

The GCIA Landfill is located on Swedesboro-Monroeville Road in South Harrison Township. GCIA, whose business address is 503 Monroeville Road, Swedesboro, New Jersey 08085, is the owner of the landfill. The facility is permitted to accept waste types ID 10 (Household, Commercial and Institutional Wastes), ID 13 (Bulky Wastes), ID 13C (Construction and Demolition Waste), ID 23 (Vegetative Waste), ID 25 (Animal and Food Processing Waste), ID 27 (Dry Industrial Waste), ID 27A (Waste Material consisting of Asbestos or Asbestos Containing Waste), ID 27I (Waste Material consisting of Incinerator Ash or Ash Containing Waste) and Treated Medical Waste (Class 1 through 7).

The GCIA Landfill was constructed on a 573.5 acre site of which approximately 138.5 acres are currently permitted for solid waste disposal. The proposed expansion will add 25.7 acres for solid waste disposal, increasing the landfill footprint to approximately 164.2 acres.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. During this period, any interested person may submit written comments to the Department concerning the draft permit action. Comments must be directed to:

Mail Code 401-02C
Anthony Fontana, Chief
New Jersey Department of Environmental Protection
Division of Solid & Hazardous Waste
Bureau of Solid Waste Permitting
401 E. State Street, P.O. Box 420
Trenton, New Jersey 08625-0420
(609) 292-9880

Upon written request of any interested party, which raises significant issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft SWF Permit and fact sheet, are available for inspection at the above noted office of the Department's Division of Solid & Hazardous Waste. Copies of these documents were provided to the offices of the South Harrison Township Clerk and the Gloucester County Clerk.

Anyone who would like to obtain copies of the draft permit and fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

Waiver Rule Requests

NOTE: Pursuant to N.J.A.C. 7:1B-2.3(c), this section contains only those waiver rule requests related to rules for which the Department publishes notice of permit decisions in the DEP Bulletin. To access information on all waiver rule requests received by the Department, use the interactive reports on the Department's DataMiner website. Please visit <http://www.nj.gov/dep/waiverrule> and click on the "Search for Waiver Requests and Decisions" button to access these reports.

Narrative	
	I will be selling my property to my mother for below cost. We will not be able to afford to change cesspool. She also does not have the funds to change the cesspool. It is working properly and we just had it pumped. It will be a family transfer sale. We ask that under the family exception we not have to change the cesspool to a septic system at this time. The sale and purchase of another property all lies on wether or not this needs to be replaced. I appreciate your time and help with this matter. Thanks, Andrea

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
Notice of Public Comment Period for Request for Federal Consistency Determination

The requests for a Federal Consistency Determination for the projects listed below are reviewed under the Rules on Coastal Zone Management, N.J.A.C. 7:7E.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF REMEDIATION MANAGEMENT AND
OPERATIONS ELEMENT**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Public Notice of Proposed Permit Actions - 08/06/2014
(Division of Water Quality)

<u>Permit:</u> • Name • NJPDES No. • Type	<u>Facility Location:</u> • Address • County	<u>NJDEP:</u> • Case manager • Bureau • Phone No.	<u>Receiving Discharge:</u> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<i>Executive Summary</i>
C M & SON TRUCKING INC NJ0029726 DST	40 Hewson Ave Waldwick, NJ 07463 Bergen County	Kerri Standowski Bureau of Nonpoint Pollution Control (609)633-7021	Smokisvoll Brook FW2-NT(C2) Saddle River	Stormwater Discharge Renewal Permit Action CM & Son Trucking, Inc. has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) Renewal Permit to the New Jersey Department of Environmental Protection (NJDEP), Bureau of Nonpoint Pollution Control. The applicant is involved with the storage and "over the road" distribution of highway and road salt under the Standard Industrial Classification (SIC) 4212. The proposed renewal permit regulates stormwater discharges to Smokisvoll Brook, classified as FW2-NT (C2).
WOODSTREAM STP NJ0024040 DSW Major	Brandywine Dr Marlton, NJ 08053 Burlington County	Dwayne Kobesky Bureau of Surface Water Permitting (609)292-4860	South Branch Pennsauken Creek FW2-NT(C2) Pennsauken Creek	Surface Water Renewal Permit Action This is for a renewal of a NJPDES permit to discharge up to 1.7 million gallons per day (MGD) of treated, disinfected domestic wastewater with some industrial contribution. The existing and this proposed permit have two staged NJPDES flow values of 1.5 and 1.7 MGD. Additionally, the permittee has authority to reuse it's effluent under an authorization (NJ0166014) of the reuse general permit (NJ0142581). The renewal permit proposes to revoke that authorization and authorize effluent reuse under this individual permit.
IMTT-BAYONNE NJ0002089 DSW Major	250 E 22nd St Bayonne, NJ 07002 Hudson County	Robert Hall Bureau of Surface Water Permitting (609)292-4860	Kill Van Kull/Upr. NY Bay SE3(C2) Newark Bay / Kill Van Kull / Upr NY Bay	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge a current long-term average flow of 0.72 million gallons per day (MGD) for DSN 001A and 0.22 MGD for DSN 002A. Discharges consist of treated industrial wastewater from a bulk liquid storage and distribution facility of chemicals and refined petroleum products.
GLOUCESTER CNTY SOLID WASTE COMPLEX NJ0103420 DGW	503 Monroeville Rd Swedesboro, NJ 08085 Gloucester County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Bridgeton II-A	Ground Water Renewal Permit Action Gloucester County Solid Waste Complex is a 573 acre facility which operates as a landfill. Since 1987, construction and development of the landfill has continued under development phase identified as I through VI. Phases I through VI have been constructed and landfilling occurs there. Phase VII will expand landfill cells 11B & 12-15. Ground water monitoring wells monitor the performance of the landfill's leachate collection system.

HAMILTON TWP WPCF NJ0026301 DSW Major	300 Hobson Ave Hamilton, NJ 08610 Mercer County	Kelly Perez Bureau of Surface Water Permitting (609)292-4860	Crosswicks Creek FW2-NT(C2) Crosswicks Ck (below Doctors Creek)	Surface Water Renewal Permit Action This permit action is a renewal of an existing major permit for a municipal wastewater treatment plant. The facility discharges a permitted flow of 16 MGD of treated disinfected wastewater with industrial contribution into Delaware River Zone 2 water. Treatment units consist of bar screens, grit tanks, primary and secondary clarifiers, trickling filters, rotating biological contactors, chlorine contact tanks and dechlorination.
LANDIS SEWERAGE AUTHORITY NJ0134091 RES	1776 S Mill Rd Vineland, NJ 08360 Cumberland County	Stephen Boyer Bureau of Pretreatment and Residuals (609)633-3823		Residual Major Mod Permit Action This Modification is for the acceptance of Fats Oil & Grease (FOG), cow manure and food processor waste at the LSA Wastewater Treatment Plant which will be fed into the existing anaerobic digester(s) to generate increased methane that can then be used in the existing combined heat and power plant.
MEDFORD TWP WASTEWATER TREATMENT PLANT NJ0026832 DSW Major	10 Fostertown Rd Medford, NJ 08055 Burlington County	Theodore Denberg, P.E. Bureau of Surface Water Permitting (609)292-4860	Southwest Br Rancocas Creek FW2-NT(C2) Rancocas Creek SB SW Branch	Surface Water Renewal Permit Action The existing facility discharges treated, disinfected, domestic wastewater into the Southwest Branch Rancocas Creek, classified as FW2-Non Trout waters. The South Branch Rancocas Creek is located within the Delaware River basin. The existing facility has a NJPDES flow value of 1.75 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 1.09 MGD. This action proposes effluent limitations based on a flow of 1.75 MGD. Reuse requirements are proposed in this permit action.
PSEG FOSSIL ESSEX GENERATING STATION NJ0000639 DST	155 Raymond Blvd Newark, NJ 07105 Essex County	Kerri Standowski Bureau of Nonpoint Pollution Control (609)633-7021	Passaic River SE3(C2) Passaic River Lower (Nwk Bay to Saddle)	Stormwater Discharge Renewal Permit Action The above named applicant has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) renewal permit to the New Jersey Department of Environmental Protection (NJDEP), Bureau Nonpoint Pollution Control. The applicant is involved with Electric Power Generation under the Standard Industrial Classification (SIC) 4911. The existing permit regulates stormwater discharges to the Passaic River, classified as SE3(C2).
EDISON GENERATING STATION NJ0003603 DST	164 Silver Lk Ave Edison, NJ 08817 Middlesex County	Kerri Standowski Bureau of Nonpoint Pollution Control (609)633-7021	Raritan River SE1(C2) Raritan R Lower (Lawrence to Millstone)	Stormwater Discharge Renewal Permit Action The above named applicant has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) permit renewal to the New Jersey Department of Environmental Protection (NJDEP), Bureau Nonpoint Pollution Control. The applicant is involved with Electric Power Generation under the Standard Industrial Classification (SIC) 4911. The existing permit regulates stormwater discharges to the Raritan River, classified as SE1(C2).
SEABROOK BROTHERS & SONS INC NJ0087602 DGW	85 Finley Rd Seabrook, NJ 08302-0000 Cumberland County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Cohansey II-A	Ground Water Renewal Permit Action Seabrook Brothers and Sons have applied for a renewal NJPDES-DGW permit. This facility is a wholesale produce washing facility. Approximately 1.5 million gallons per day of produce wash water is used to irrigate nearby fields. Vegetative waste is distributed for land application.

MOTIVA ENTERPRISES LLC - SEWAREN TERMINAL NJ0166863 DST	111 State St Sewaren, NJ 07077 Middlesex County	Kerri Standowski Bureau of Nonpoint Pollution Control (609)633-7021	Woodbridge Creek SE3(C2) Rahway River / Woodbridge Creek	Stormwater Discharge Renewal Permit Action The above named applicant has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) permit renewal to the New Jersey Department of Environmental Protection (NJDEP), Bureau of Nonpoint Pollution Control. The applicant is involved with the distribution of fuels including Gasoline, Kerosene, Fuel Oil #2, Ethanol, Jet Fuel, Diesel Fuel, and Low Sulfur Diesel (LSD) under the Standard Industrial Classification (SIC) 5171. This permit regulates stormwater discharges to the Woodbridge Creek, classified as SE3(C2).
DUCK ISLAND TERMINAL INC NJ0066753 DST	1463 Lambertson Rd Hamilton, NJ 08611 Mercer County	Shashi Nayak Bureau of Nonpoint Pollution Control (609)633-7021	Delaware River Mainstem Delaware-Zone 2 Duck Creek and UDRV to Assumpink Ck	Stormwater Discharge Renewal Permit Action This is a stormwater renewal permit action issued to Duck Island Terminal, Inc., which is involved in storage and distribution of petroleum products under the SIC code 5171. The permit authorizes discharge of stormwater runoff to the Delaware River, classified as Zone 2.
US SILICA CO NJ0004251 DSW Minor	9035 Noble St Mauricetown, NJ 08329 Cumberland County	Ramanathan Asokan Bureau of Surface Water Permitting (609)292-4860	Clay Branch of Mill Creek FW2-NT(C2) Dividing Creek	Surface Water Renewal Permit Action This existing facility is in the business of sand and mining operations. When discharging, the facility discharges 0.32 MGD of sand mining process wastewater and stormwater to Clay Branch as a result of an overflow from Dragston Pond. This discharge only occurs through one outfall, namely DSN 002A. The facility is not actively mining at this location at this time of permit renewal.
GREAT ATLANTIC & PACIFIC TEA NJ0104655 DGW	Rt 94 & Buchanan Rd Blairstown, NJ 07825 Warren County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Glacial Drift II-A	Ground Water Renewal Permit Action Blair Plaza has applied for a renewal NJPDES-DGW permit. This facility is an existing retail shopping center and super market located on a 72,296 sq/ft foot print. The facility is located on 9.92 acres. This facility was not designed to handle restaurants or other water intensive uses. Management and treatment of sanitary waste will be treated by an on-site wastewater treatment system. Following treatment, wastewater is discharged to the ground waters of the State through two (2) on-site subsurface disposal beds.
MEL CHEMICALS INC NJ0168637 SIU	500 Barbertown Point Breeze Rd Flemington, NJ 08822 Hunterdon County	Nilesh Naik Bureau of Pretreatment and Residuals (609)633-3823	TRENTON CITY DPW SEWER AUTH	Significant Indirect User (SIU) Renewal Permit Action The facility manufactures inorganic chemicals (SIC Code 2819). Zirconium chemicals are produced from zirconium oxychloride. Process wastewater is pH adjusted. An average of about 50,000 gallons daily of the process wastewater is trucked to TSU for further treatment.
LA BREA BAKERY NJ0139700 SIU	11 Technology Dr Logan Twp, NJ 08085 Gloucester County	Nilesh Naik Bureau of Pretreatment and Residuals (609)633-3823	LOGAN TWP MUA WWTP	Significant Indirect User (SIU) Major Mod Permit Action A New Jersey Pollutant Discharge Elimination System/Significant Indirect User (NJPDES/SIU) permit was issued on April 8, 2013 for the said discharge. The current permit has monthly average limitations for oil & grease, BOD5 and TSS based on allocation from the LTMUA. The proposed expansion will add additional manufacturing line and products. The applicant has requested modification of the permit based on acquiring additional oil & grease, BOD & TSS allocation. Only the changes being proposed are revised effluent limitations for oil & grease, BOD5 and TSS in this draft document are open to comment.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.
