## Permit Descriptions

---

**CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

**Federal Consistency Activity:** Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Flood Hazard Area:** A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

**Freshwater Wetlands:** A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

**General Groundwater Petroleum Products Cleanup:** This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits:** A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility:** A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Highlands Resource:** A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

**Tidal Wetlands:** A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval:** A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development:** A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

**Coastal Wetlands:** A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs  
Attn: Adjudicatory Hearing Requests

**NOTICE OF PUBLIC COMMENT PERIOD AND OPPORTUNITY FOR A PUBLIC HEARING REGARDING A SOLID WASTE FACILITY PERMIT RENEWAL FOR A SOLID WASTE TRANSFER STATION/MATERIALS RECOVERY FACILITY**

The New Jersey Department of Environmental Protection, Division of Solid and Hazardous Waste, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application regarding the operation of the existing S & L Zeppetelli, Inc. Transfer Station/Materials Recovery Facility located at 191 Moonachie Road, Borough of Moonachie, Bergen County, New Jersey.

The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept solid waste types ID 13 (bulky waste), ID 13C (construction and demolition waste) and ID 27 (dry industrial waste) and/or recyclable materials with a capacity of 20 tons on any operating day. The applicant has not requested any changes or modifications to the permitted operations.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Anthony Fontana, Chief  
Bureau of Solid Waste Permitting  
Division of Solid and Hazardous Waste  
New Jersey Department of Environmental Protection  
Mail Code 401-02C  
P.O. Box 420  
Trenton, New Jersey 08625-0420  
Telephone: (609) 292-9880 Fax: (609) 984-0565

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The permit renewal application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Solid and Hazardous Waste, the offices of the Moonachie Borough Clerk, the Bergen County Clerk, and the office of the Bergen County Solid Waste Coordinator.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**BUREAU OF COASTAL AND LAND USE COMPLIANCE AND ENFORCEMENT**  
**NOTICE OF INTENT TO SETTLE A FRESHWATER WETLANDS VIOLATION**

**PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION** intends to settle an enforcement action pertaining to the below site and responsible party for violations of the Freshwater Wetlands Protection Act pursuant to N.J.S.A. 13:9B-21.j.

IN THE MATTER OF:           David Elkouby  
  Enforcement File # 1328-12-0006.1  
  Block 21002 Lot 3  
  Old Bridge Twp, Middlesex County  
  Block 176 Lot 2  
  Marlboro Twp, Monmouth County

Comments regarding this settlement or requests for a copy of the settlement should be sent to: Jenifer Clayton, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 1510 Hooper Ave, Suite 140, Toms River, New Jersey 08753 or via email at jenifer.clayton@dep.nj.gov. Comments must be received by NJDEP within 30 days of this publication to be considered.

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment  
Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**Written comments should be submitted to:**

Elizabeth Semple, Acting Director

Land Use Management  
Division of Coastal and Land Use Planning  
Mail Code 401-07C  
PO Box 420, 401 East State Street  
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

**Proposed Amendment to the Ocean County Water Quality Management Plan**  
**Public Notice**  
Cedar Swamp Development

**Take notice** that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Ocean County Water Quality Management (WQM) Plan. This amendment proposal, entitled “Cedar Swamp Development”, submitted on behalf of Cedar Swamp Development LLC, would expand the Ocean County Utilities Authority (OCUA) sewer service area (SSA) by 5.07 acres. The proposed project site is located in Jackson Township, Ocean County on Block 4201, Lot 3 on the eastern side of the parcel (Property).

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L. 2013, c.188. This preliminary notice represents the Department’s determination that the proposed amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15.

As outlined at N.J.A.C. 7:15-5.24, sewer service may only be provided to areas that are not identified as environmentally sensitive areas (ESAs), Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes. Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. Review of the proposed project site has determined that there are no ESA’s identified on the Property.

Pursuant to N.J.A.C. 7:15-5.24(c), certain coastal planning areas, not applicable here, must also be excluded from SSA. Specifically, there are no Coastal Fringe Planning Areas, Coastal Rural Planning Areas, or Coastal Environmentally Sensitive Areas on the Property.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers are excluded from the adopted SSA either where local mapped information exists delineating these areas, or through a narrative description where mapping does not exist, except as provided under N.J.A.C. 7:15-5.24(f)1. Where a narrative approach has been used, it is noted as text on the adopted FWSA map. Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities), which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of these amendments and compliance is required.

In addition to the environmentally sensitive areas with Federal 201 grant limitations that prohibit the extension of sewers identified under N.J.A.C. 7:15-5.24(d)1, there are other special restricted areas, not applicable here, which must also be excluded from SSA pursuant to N.J.A.C. 7:15-5.24(d)2 through 4. Specifically, there are no beaches, coastal high hazard areas, or dunes on the Property.

In accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the existing zoning for the above mentioned lots has been evaluated. The Department has determined that the OCUA Northern Wastewater Pollution Control Facility has adequate available capacity to treat the proposed wastewater flow from the lots should they be developed in accordance with existing zoning regulations.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water supply for any proposed development on the property will be provided by the Jackson Township Municipal Utilities

Authority which is a public water system which withdraws water from the Potomac-Raritan-Magothy aquifer. The existing water allocation permit will not require modification to serve the proposed project

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2013, c. 188 directs that there is a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Jackson Township has an adopted stormwater management ordinance (No. 08-06) which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8.

In accordance with N.J.A.C. 5.25(h)5, riparian zones are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.25(h)i –vii. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. Review of the Property has determined that no riparian zones exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the Property has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the Property has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) through (h). In accordance with N.J.A.C. 7:15-5.24(e)2, a Letter of Interpretation, L.O.I. #1511-06-0019.1 FWW060001, issued by the Department's Division of Land Use Regulation (DLUR) on March 8, 2007 was submitted to the Department, confirming the presence and boundaries of exceptional and intermediate resource value wetlands, requiring 150 and 50 foot buffers, respectively. These wetlands areas are located on the western side of Lot 3. In compliance with the L.O.I., the proposed SSA excludes the mapped wetlands. This L.O.I. remains valid under the Permit Extension Act at N.J.A.C. 7:1B until June 30, 2015.

Additional issues which may need to be addressed for any new or expanded wastewater treatment facility proposal include, but are not limited to, compliance with stormwater regulations, antidegradation, effluent limitations, water quality analysis, and exact locations and designs of future treatment works. Additionally, sewer service to any particular project is subject to contractual allocations between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

**This notice** is being given to inform the public that a plan amendment has been proposed for the Ocean County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Office of

Coastal and Land Use Planning, 401 East State Street, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Coastal and Land Use Planning at (609) 984-6888.

**Interested persons** may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above, with a copy sent to Mr. David Eareckson, Matrix New World, 442 Route 35 – 2<sup>nd</sup> Floor, Eatontown, NJ 07724. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment proposal.

**Interested persons** may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Land Use Management  
Division of Coastal and Land Use Planning  
Mail Code 401-07C  
PO Box 420, 401 East State Street  
Trenton, New Jersey 08625-0420**

**Notice Regarding Adoption of Site Specific Water Quality Management Plan Amendment Applications  
Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Coastal and Land Use Planning, has adopted the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188 which was enacted on January 15, 2014. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of adoption of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice(s) of adoption of site specific amendment(s) for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below:

**Adopted Amendment to the Tri-County Water Quality Management Plan  
Public Notice:  
Camelot, Phase III**

**Take notice that August 28, 2014** , pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Tri-County WQMP was adopted by the Department of Environmental Protection (Department). This amendment will modify the current Gloucester County Utilities Authority (GCUA) wastewater management plan (WMP), adopted by the Department on December 10, 2008. This amendment, submitted on behalf of Aura Development Group, LLC, expands the sewer service area (SSA) of the GCUA wastewater treatment plant (WWTP) to include portions of Block 196.01, Lot 4; Block 197, Lot 1; and Block 198.10, Lot 1 located in the Borough of

Glassboro, Gloucester County. The SSA expansion will accommodate the proposed development of Camelot, Phase III, Sections 1 & 2, consisting of: 66 3-bedroom townhomes; one 3-bedroom single family home; 120 2-bedroom apartments; 4,800 square feet of community center use; 75,000 square feet of commercial/retail use; and restaurant seating to accommodate 1,000 patrons.

This amendment has been reviewed in accordance with the Water Quality Management Planning rules, N.J.A.C. 7:15-1 et seq. and P.L. 2011 c.203 as amended and supplemented by P.L. 2013 c.188. The Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed.

Notwithstanding, the projected wastewater flow of the project has been evaluated in accordance with N.J.A.C. 7:15-5.25(h)1. The subject development's proposed wastewater flow, calculated in accordance with N.J.A.C. 7:14A-23.3, is 0.09 million gallons per day (MGD). Currently, the GCUA WWTP (NJDPES #NJ0024686) is permitted to discharge up to 27 MGD of treated wastewater to the Delaware River. Based on an average of the monthly average flow for the most recent twelve month period for which discharge monitoring data is available, the existing wastewater flow discharged from GCUA WWTP was calculated to be 19.3 MGD. The addition of the proposed development's projected wastewater flow, estimated as 0.09 MGD, would not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the GCUA WWTP.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation (LOI) # 0806-02-0003.1 FWW 020001, dated September 8, 2003, its amendment LOI # 0806-04-0001.1 FWW 040001, and LOI # 0806-04-0001.1 FWW 040001 dated July 19, 2004, were submitted. Areas subject to those LOIs which were delineated as wetlands, including any associated buffers, are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by the Borough of Glassboro Water and Sewer Department, which is currently permitted under water allocation permit number WAP 5135 and PWSID No.: 0806001 to allocate 140.65 million gallons per month (MGM) and currently has a water supply surplus of 23.956 MGM. The proposed water demand of the project, calculated in accordance with N.J.A.C. 7:15-5.25(f)1i, is 3.495 MGM; therefore, sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. Compliance with this standard shall be demonstrated by the adoption of a municipal stormwater management ordinance that conforms with the requirements of N.J.A.C. 7:8 (Stormwater Management Rules). The Borough of Glassboro has adopted stormwater control ordinance §06-35 amending Chapter 107, Article X of the Borough code which complies with the performance standards of the Stormwater Management Rules. Consequently the requirements of N.J.A.C. 7:15-5.25(g)1 for stormwater control have been satisfied.

This amendment proposal was noticed in the Department Bulletin on July 9, 2014 at Volume #38, Issue #13 and no comments were received during the comment period.

This amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

## Waiver Rule Requests

*NOTE: Pursuant to N.J.A.C. 7:14B-2.3(c), this section contains only those waiver rule requests related to rules for which the Department publishes notice of permit decisions in the DEP Bulletin. To access information on all waiver rule requests received by the Department, use the interactive reports on the Department's DataMiner website. Please visit <http://www.nj.gov/dep/waiverrule> and click on the "Search for Waiver Requests and Decisions" button to access these reports.*

<b>Narrative</b>	<p>This Cover Letter is to provide a summary of what has happened to me in regard to the passing of the Highlands Act and the direct impact to me in regard to many mistakes made by the D.E.P., the Township of West Milford and the West Milford Municipal Utilities Authority and their employees during the implementation of said Act. I am seeking a waiver of Rule N.J.A.C. 7:14A-22.8(a) 11 and the reasons are as follows: 1-Due to the lack of Adequate, correct information prior to and immediately following the initial enactment of the Highlands Act to the Townships and their constituents, many errors were made by the above stated parties in their interpretation and guidance issued in writing and verbally. 2-Specifically, the incorrect guidance by the D.E.P. in regard to what the townships were authorized to do as far as issuing an exemption letter and I have provided the supporting attached documents and I will go into further detail below. 3-Based on the information received, the Township issued an exemption letter to me authorizing me to proceed with my subdivision. 4-After being authorized to begin all work, including sewer and water main work, road and drainage work, and related utilities I was then advised by the local M.U.A. that a T.W.A. would be required. 5-Shortly after submittal of an expedited T.W.A. application (05-0670) we were notified by Mr. Theodore Ovsiew, the review engineer that the application is complete subject to a valid Highlands Exemption, as the exemption letter I had submitted issued by the Township of West Milford, was not valid, the first time I had heard this. Since the requirement of a Highlands exemption letter was not part of the rule 7:14-22.8(a) 11 in 2005, and not added until 2008, I believe the T.W.A. should be issued retroactively, what I believe is a fair resolution to all of the mistakes made by the D.E.P. and would solve my problem immediately. 6- I can provide hundreds of more documents to support what I am stating; all true and also suppo</p>

OPERATIONS ELEMENT**

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at [www.nj.gov/dep/opra](http://www.nj.gov/dep/opra), or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz  
Operations Element  
PO Box 028  
Trenton, NJ 08625

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF WATER QUALITY  
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

<u>Permit:</u> • Name • NJPDES No. • Type	<u>Facility Location:</u> • Address • County	<u>NJDEP:</u> • Case manager • Bureau • Phone No.	<u>Receiving Discharge:</u> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<i>Executive Summary</i>
OCEAN CITY REG WTF NJ0035343 DSW Major	45th Street & Simpson Ave Ocean City, NJ 08226  Cape May County	Robert Hall  Bureau of Surface Water Permitting  (609)292-4860	Atlantic Ocean  SC(C2)  Cape May Bays & Tribs East	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge a NJPDES flow value of 8.24 million gallons per day (MGD) of treated and disinfected sanitary wastewater. This action proposes effluent limitations based on a NJPDES flow value of 8.24 MGD. Wastewater is treated through mechanical bar screens, primary clarifiers, rotating biological contactors, secondary clarifiers, and a chlorine contact chamber.
CAPE MAY COUNTY MUA NJ0052990 DSW Major	Seven Mile/middle Regional Wtp 1306 Moore Rd Crest Haven Comp Cape May Court House, NJ 08210  Cape May County	Robert Hall  Bureau of Surface Water Permitting  (609)292-4860	Atlantic Ocean  SC(C2)  Atlantic Coast(34th St to Cape May Pt)	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge a NJPDES permitted flow of 7.67 million gallons per day (MGD) of treated and disinfected domestic wastewater through outfall DSN 001A. The facility currently discharges a long-term average flow value of 3.47 MGD based on flow data from January 2009 through December 2013.  Sanitary Wastewater is processed through bar screens, seasonal chemical addition, a grit chamber, primary clarifiers, rotating biological contactors, secondary clarifiers, and sodium hypochlorite disinfection.
WILDWOOD/LOWE R REGION WTF NJ0053007 DSW Major	2701 Rt 47 S Rio Grande Blvd Rio Grande, NJ 08242  Cape May County	Robert Hall  Bureau of Surface Water Permitting  (609)292-4860	Atlantic Ocean  SC(C2)  Atlantic Coast(34th St to Cape May Pt)	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge a NJPDES flow value of 21.18 million gallons per day (MGD) for DSN 001B and 14.18 MGD for DSN 003A. The facility is currently discharging at 7.55 MGD at DSN 001B and 4.29 MGD for DSN 003A based on flow data from January 2009 through December 2013.  Sanitary wastewater for the CMCMUA-W/LRO is processed through bar screens, grit chambers, primary clarifiers, rotating biological contactors, secondary clarifiers, and a chlorine contact chamber.  All residuals management conditions have been removed from this NJPDES Permit and are now included in NJPDES Permit No. NJG0198382.

HOLMDEL BD OF ED VILLAGE SCHOOL STP NJ0027031 DSW Minor	67 Mccampbell Rd Holmdel, NJ 07733  Monmouth County	Dwayne Kobesky  Bureau of Surface Water Permitting  (609)292-4860	Ramanessin (Hop) Brook  FW2-TM(C1)  Navesink River / Lower Shrewsbury River	Surface Water Major Mod Permit Action This is a major modification of a NJPDES permit to discharge a permitted flow of 0.01 million gallons per day (MGD) of treated and disinfected domestic wastewater.
LAFAYETTE TWP SCHOOL DISTRICT NJ0074861 DGW	178 Beaver Run Rd Lafayette, NJ 07822  Sussex County	Gregory Chin  Bureau of Nonpoint Pollution Control  (609)633-7021	Rickenback  II-A	Ground Water Renewal Permit Action Lafayette Consolidated School is an existing elementary school with a cafeteria. The projected enrollment is 584 students. Design flow of the septic system is 8,760 gpd. Four ground water monitor wells continue to monitor the impact the discharge has on ground water quality. Residuals generated will be removed and managed at an approved residuals management site.
MC WILLIAMS FORGE CO INC NJ0127817 DGW	387 Franklin Ave Rockaway, NJ 07866  Morris County	Gregory Chin  Bureau of Nonpoint Pollution Control  (609)633-7021	Brunswick  II-A	Ground Water Renewal Permit Action McWilliams Forge Company, Inc. is an active steel forging facility adjacent to the Rockaway River in Rockaway Borough in north-central New Jersey. The facility consists of six buildings housing various metal forming processes and two buildings for administrative support. The facility withdraws water from the Rockaway River for use as contact and non-contact cooling water, and for steam to power the drop forge hammers. This permit regulates the discharge of boiler blowdown, contact and non-contact cooling water, and the drop hammer steam condensate through two lagoons.
MOBILE ESTATES OF SOUTHAMPTON INC NJ0028665 DSW Minor	2362 Rt 206 Southampton Twp, NJ 08088  Burlington County	Robert Hall  Bureau of Surface Water Permitting  (609)292-4860	Rancocas Creek  FW2-NT(C2)  Rancocas Creek NB (below New Lisbon dam)	Surface Water Renewal Permit Action The existing facility discharges a NJPDES permitted flow of 0.06 million gallons per day (MGD) of treated and disinfected domestic wastewater from a mobile home park. Treatment consists of a bar screen, comminutor, aeration tank, settling tank, chlorination tank, and dechlorination tank with cascading post aeration steps.
MT OLIVE VILLAGES SEWER CO STP NJ0099538 DGW	Formerly Eagle Rock Village 40 Wolf Rd Mount Olive Twp, NJ 07828-0000  Morris County	Brian Sage  Bureau of Nonpoint Pollution Control  (609)633-7021	Crystalline Rocks  II-A	Ground Water Renewal Permit Action The Mount Olive Villages Sewage Treatment Plant treats sanitary wastewater from the following facilities: a residential apartment/townhouse complex consisting of 1200 apartments, 152 townhouses, 54 single family homes, a middle school, and a town hall complex (municipal building, senior center, department of public works, and library). Sanitary wastewater is collected and treated by a treatment plant. This permit requires a flow limit of 330,00 gallons per day and a water quality discharge limit of 30 mg/l and 20 col/100ml for total nitrogen and fecal coliform, respectively. Treated wastewater is disposed of via two lagoons and four spray fields.
OAKS OF WEYMOUTH NJ0060682 DGW	11th Ave Rd #20 Weymouth Twp, NJ 08330  Atlantic County	Mike Pigliacelli  Bureau of Nonpoint Pollution Control  (609)633-7021	Cohansey  II-A	Ground Water Renewal Permit Action The Oaks of Weymouth is a mobile home community with a maximum capacity of 642 housing units, a recreational building, and a community pool. Each unit on the 153 acre site is intended to house no more than two persons, as regulated by the facility's management. The facility discharges sanitary waste generated by the housing units to an on-site treatment plant and a total of sixteen (16) underground disposal beds.

OCEAN CNTY UA NJ0029408 DSW Major	501 Hickory Ln Bayville, NJ 08721  Ocean County	Rachael Pepe  Bureau of Surface Water Permitting  (609)292-4860	Atlantic Ocean  SC(C2)  Toms River (below Oak Ridge Parkway)	Surface Water Renewal Permit Action The existing facility discharges treated, disinfected, domestic wastewater with industrial contribution into the Atlantic Ocean classified as SC waters. This existing facility has a NJPDES flow value of 3.2 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 21.45 MGD. This action proposes effluent limitations based on a flow of 32 MGD. The sanitary wastewater is treated through bar screens, grit chambers, primary clarifiers, activated sludge treatment units, secondary clarifiers and chlorine contact tanks.
CHATHAM HILL STP NJ0020281 DSW Minor	River Rd Chatham Twp, NJ 07928- 0000  Morris County	Leon Moss  Bureau of Surface Water Permitting  (609)292-4860	Passaic River  FW2-NT(C2)  Passaic River Upr (above Pine Bk br)	Surface Water Major Mod Permit Action The purpose of this major permit modification is to replace the Fecal Coliform limitations that were included in the current final permit, with the E. Coli limitations to reflect the change to the Surface Water Quality Criteria (SWQS) adopted in 2006, and to amend the existing 59 month compliance schedule for Total Phosphorus to a 36 month compliance schedule.
READINGTON- LEBANON SA NJ0098922 DSW Minor	1a Old Rt 28 Whitehouse, NJ 08888  Hunterdon County	Brian Salvo  Bureau of Surface Water Permitting  (609)292-4860	Rockaway Creek S B  FW2-NT(C2)  Lamington River	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge an average of 0.8 million gallons per day (MGD) of treated domestic wastewater. This renewal permit action also includes additional limitations for discharge flow values of 1.2 and 1.45 MGD. Treatment consists of screening, a comminutor, secondary treatment via an oxidation ditch, secondary clarifier, ultraviolet disinfection and aeration.
NEW JERSEY AMERICAN WATER CO POTTERSVILLE STP NJ0022781 DSW Minor	Mccann Mill Rd Tewksbury Twp, NJ 07979  Hunterdon County	Margaret Elsishans  Bureau of Surface Water Permitting  (609)292-4860	Lamington River  FW2-TP(C1)  Lamington River	Surface Water Renewal Permit Action This is a NJPDES permit renewal action to discharge a flow of 0.048 MGD of treated, domestic wastewater into the Lamington River .
TRENTON MERCER AIRPORT (TTN) NJ0173096 DST	1100 Terminal Circle Dr Ste 301 Ewing, NJ 08628  Mercer County	Kevin Ball  Bureau of Nonpoint Pollution Control  (609)633-7021	West Branch Shabakunk Creek  FW2-NT(C2)  Assumpink Creek (below Shipetaukin Ck)	Stormwater Discharge New Permit Action
AMERICAN IRON AND METAL INTERNATIONAL NJ0201685 DST	301 12th St South Millville, NJ 08332  Cumberland County	David Pepe  Bureau of Nonpoint Pollution Control  (609)292-1900	Maurice River (above Sherman Ave Bridge)	Stormwater Discharge New Permit Action This is a new scrap metal facility with an on-site shredder. The permit will regulate the discharge of stormwater associated with this industrial activity to ground water via an infiltration basin. The discharge of the stormwater from the facility will be directed to a lined surface impoundment. Monitoring will occur when the stormwater is pumped from the impoundment to an infiltration basin.
