General Application Milestone Codes

Application Approved	F = Complete for Filing	P = Permit Decision Date
Application Denied	H = Public Hearing Date	R = Complete for Review
Application Withdrawal	I = Additional Information Requested	T = Additional Information Received
A= Approved	IS = Issued	W= Withdrawn
C = Cancelled	L = Legal Appeal of Permit Decision	
D= Denied	M = Permit Modification	

Specific Decision Application Codes

O = Other

REG = HMDC/Pinlands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests

**Notice Regarding Adoption of Site Specific Water Quality Management Plan Amendment
Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Coastal and Land Use Planning, has adopted the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188 which was enacted on January 15, 2014. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of adoption of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice(s) of adoption of site specific amendment(s) for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below:

**Adopted Amendment to the Tri-County Water Quality Management Plan (WQMP)
Public Notice
Soboleski Property**

Take notice that September 10, 2014, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management (WQM) Planning rules, N.J.A.C. 7:15 -3.4, an amendment to the Tri-County Water Quality Management (WQM) Plan was adopted by the Department of Environmental Protection. This amendment proposal was noticed in the New Jersey Bulletin on May 21, 2014 on page 15 and no comments were received during the comment period. This amendment, submitted on the behalf of David Soboleski would modify the Burlington County Future Sewer Service Area Map (FWSA) to expand the sewer service area (SSA) by 32.277 acres on Block 11.52, Lot 3, in Evesham Township, Burlington County.

This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18. N.J.A.C. 7:15-5.24 and N.J.A.C. 7: 15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203 as amended by P.L. 2013, c. 188, the Department may approve an amendment to a wastewater management plan or water quality management plan that would delineate as a sewer service area as a parcel, not to exceed 100 acres in size that had been previously included in a formerly adopted sewer service area, provided that the applicant can demonstrate with the use of updated or more accurate information that the parcel complies with the regulatory criteria for the delineation of a sewer service area established at N.J.A.C. 7:15-5.24. Block 32.77, Lot 3 in Evesham Township has been removed from SSA due to the presence of wetlands as indicated on the Department's Geographic Information System data layer

for wetlands. The applicant has submitted a Letter of Interpretation, L.O.I. #0313-12-0009.1, which more accurately re- delineates the wetlands and their associated buffers. The parcel now complies with the regulatory criteria for the delineation of a sewer service area established at N.J.A.C. 7:15-5.24.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas have been assessed to determine what areas of the project are appropriate for inclusion in the SSA. ESA's evaluated include, but are not limited to: habitat for threatened and endangered wildlife species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESA's are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1 to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in the proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) through (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in the proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) through (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Rules. No riparian zones have been identified on the site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) through (h). In accordance with N.J.A.C. 7:15-5.24(e)2, a Letter of Interpretation, L.O.I. # 0313-12-0009.1 was submitted, which re-delineates the wetlands and their associated buffers.

In accordance with N.J.A.C. 7:15-5.24(h) (6), development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24 (c) lands with certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. This project site is not in a coastal planning areas.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from SSA's. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h) 3, the water supply need for the amendment has been evaluated. Under current zoning, the site could accommodate 129 dwelling units, and would be served by the public water supply provided by the Evesham Township Municipal Utilities Authority, which is currently permitted under water allocation permit number WAP 090001 and PWSID 0313001 to allocate 149 MGM millions gallons per month (MGM) and has a water supply surplus of 42.3 MGM. The potential water demand of the project is 0.0419 MGD or 1.25 MGM; therefore sufficient water supply is available to serve the amendment within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h) 4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, c. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Evesham Township has adopted stormwater control ordinance # 29-10-2004 (refer to Chapter 139 of the Evesham Township Municipal Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of the proposed development.

Approval of this amendment would not eliminate the need for any permits, approvals or certifications required by any other Federal, State, County or municipal review agency with jurisdiction over this project activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan
Amendment Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

**Propose Amendment to the Tri-County Water Quality Management Plan
Public Notice:
Waterwood at Mount Laurel Township**

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of Medford Village East Associates, LLC, would return approximately 24 acres to the sewer service area (SSA) of the Mount Laurel Township Municipal Utility Authority/Hartford Road Water Pollution Control Facility (NJPDES# NJ0025178) to Block 510, Lot 3 within Mount Laurel Township, Burlington County.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules, N.J.A.C. 7:15-1 et seq. and P.L. 2011 c.203 as amended and supplemented by P.L. 2013 c.188. Section 6(h) of P.L. 2013, c. 188 allows for the consideration of an application for a WQM Plan amendment that does not propose a specific project or activity and delineates as SSA a parcel not to exceed 100 acres in size that complies with the regulatory criteria for the delineation of a sewer service area established at N.J.A.C. 7:15-5.24.

In accordance with N.J.A.C. 7:15-5.24 environmentally sensitive areas (ESAs) are assessed to determine what areas of the property are appropriate for inclusion in the proposed SSA. Environmentally sensitive areas are defined based on a composite geographic information systems (GIS) analysis, as any contiguous area of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination, ESAs are required to be excluded from the SSA.

Medford Village East Associates, LLC currently owns Block 510, Lots 3 and 3.01 within Mount Laurel Township. As identified in the previously adopted Mount Laurel Municipal Utility Authority Wastewater Management Plan Block 510, Lots 3 and 3.01 were both designated as SSA. However, as superseded by the Burlington County Future Wastewater Service Area (FWSA) Map adopted on May 7, 2013, within Block 510, Lot 3, approximately 24 acres were removed and only 5 acres retained as SSA. The entirety of Lot 3.01 was included as SSA on the adopted FWSA map. The 24 acres of SSA on Block 510, Lot 3 were removed pursuant to N.J.A.C. 7:15-5.24 based on the presence of wetlands as mapped by the Department's GIS analysis of geo-referenced Wetlands data set (from - 2007 Land Use/Land Cover Update). This data set suggested that the wetlands located on Block 510, Lot 3 were part of a contiguous wetlands/ ESA area of 25 acres or greater.

As part of this proposed amendment no specific project activity has been presented for the area proposed for inclusion in the SSA. Furthermore, as describe below, the Department determined that inclusion of the 24 acres as SSA to this site is compliant with N.J.A.C. 7:15-5.24(b), and this proposal qualifies as an amendment under the section 6(h) of P.L 2013, c. 188.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Landscape Project version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened) , 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e). The Department determined no threatened or endangered species habitat or other priority species habitats were identified on the property.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). A site review of the property determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, Category One (C1) special water resource protection areas are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). The Department determined no classified C1 water bodies exist on or near the property.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not proposed as SSAs, except as provided under N.J.A.C. 7:15-5.24(e)2. In accordance with N.J.A.C. 7:15-5.24(e)2, a Letter of Interpretation (LOI) #0324-12-0008.1, dated June 4, 2014 confirmed that the actual size of the delineated regulated onsite wetlands were significantly less in area than depicted on the Department's GIS Wetlands data-set (from 2007 Land Use/Land Cover Update). Moreover, the LOI confirmed that portions of the onsite GIS mapped wetlands were, in fact, state open waters and not regulated wetland areas. Finally areas identified as contiguous wetlands using the GIS Wetlands data-set are now developed lands. This, in conjunction with the actual size of the onsite wetlands collaborated by the approved LOI thereby reduced the net area of wetlands to less than the 25 acre threshold.

All other ESA as defined at N.J.A.C. 7:15-5.24(c) 1-3; lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not applicable to this proposed amendment location nor are any ESA as defined at N.J.A.C. 7:15-5.24(d) 1-4; areas with Federal 201 grant limitations, and beaches, coastal high hazards area or dunes as defined under N.J.A.C.7:7E.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Division of Coastal and Land Use Planning, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above with a copy sent to Mr. Richard Hluchan, Attorney, Hyland Levin LLP, 6000 Sagemore Drive, Suite 6301, Marlton, NJ 08053. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Waiver Rule Requests

NOTE: Pursuant to N.J.A.C. 7:1B-2.3(c), this section contains only those waiver rule requests related to rules for which the Department publishes notice of permit decisions in the DEP Bulletin. To access information on all waiver rule requests received by the Department, use the interactive reports on the Department's DataMiner website. Please visit <http://www.nj.gov/dep/waiverrule> and click on the "Search for Waiver Requests and Decisions" button to access these reports.

Narrative	Description
	There exists in the City of Absecon an infiltration basin constructed as part of a major subdivision at Block 96, Lot 13.02 known as Bay View Landing. Runoff is conveyed to the basin through a water quality swale and overflows to the adjacent wetlands buffer. Although the subdivision resulted in less than 0.25 acres of additional impervious, it was determined that water quality design standards were applicable since the roadway curbing would result in runoff from an impervious area of 0.30 acres. The City has been monitoring stagnant water in this basin since June 2007. The developer has attempted to remediate the basin on multiple occasions, including removal of clayey materials, elevation adjustments, and re-grading of the swale. The City has determined that the infiltration rate of the basin is not adequate to drain the runoff volume of the water quality design storm within 72 hours. Based on empirical evidence, it does not appear that the basin can be remediated to provide the required infiltration rate due to groundwater and soil conditions. This matter is unduly burdensome for the City and neighboring residents. Stagnant water has resulted in anaerobic conditions, odor, and mosquito breeding, creating quality of life, health, and safety concerns. Furthermore, the City and neighboring residents have exhausted considerable resources addressing this issue. The City is requesting a waiver to permit the filling of the basin and extending the swale directly to the adjacent wetlands buffer, allowing runoff to discharge without stagnating in the basin. This is consistent with the intent of the water quality standards since the subdivision resulted in less than 0.25 acres of additional impervious. It will have de minimis impact on water quality due to the small size of the basin. In fact, it may result in a net environmental benefit by maintaining infiltration in the swale while eliminating the hazards of stagnate water.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

Notice of Public Comment Period for Request for Federal Consistency Determination

The requests for a Federal Consistency Determination for the projects listed below are reviewed under the Rules on Coastal Zone Management, N.J.A.C. 7:7E.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

UNITED WATER ARLINGTON HILLS SEWERAGE CO INC NJ0065226 DGW	Valley Rd Mount Arlington, NJ 07856 Morris County	Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021	Undifferentiated glacial drift II-A	Ground Water Renewal Permit Action This is a permit for Arlington Hills Sewerage Company. Sanitary wastewater is generated by the Arlington Corporate Center and the Hills of Arlington, which consists of townhouses, shops and office buildings. The facility consists of an onsite wastewater collection and treatment system. Physical and chemical wastewater treatment occur such that final effluent meets applicable ground water quality limits prior to subsurface disposal. A flow limit of 204,225 gallons-per-day will be distributed to up to ten (10) subsurface disposal beds.
CAPE MAY COUNTY MUA NJ0052990 DSW Major	Seven Mile/middle Regional Wtp 1306 Moore Rd Crest Haven Comp Cape May Court House, NJ 08210 Cape May County	Robert Hall Bureau of Surface Water Permitting (609)292-4860	Atlantic Ocean SC(C2) Atlantic Coast(34th St to Cape May Pt)	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge a NJPDES permitted flow of 7.67 million gallons per day (MGD) of treated and disinfected domestic wastewater through outfall DSN 001A. The facility currently discharges a long-term average flow value of 3.47 MGD based on flow data from January 2009 through December 2013. Sanitary Wastewater is processed through bar screens, seasonal chemical addition, a grit chamber, primary clarifiers, rotating biological contactors, secondary clarifiers, and sodium hypochlorite disinfection.
INDEPENDENCE CENTRAL SCHOOL NJ0065161 DGW	281 Rt 46 Independence Twp, NJ 07838 Warren County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Glacial Drift II-A	Ground Water Renewal Permit Action Independence Central School has applied for a renewal NJPDES-DGW permit. Effluent generated from the elementary school and middle school is treated by an on-site treatment plant. Discharge is achieved via an on-site subsurface disposal system.
PAULSBORO REFINING CO NJ0085502 DGW	800 Billingsport Rd Paulsboro Boro, NJ 08066 Gloucester County	Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021	II-A	Ground Water Renewal Permit Action The facility is a petroleum refinery (formerly Mobil Oil) that manufactures various weights and grades of petroleum products from crude oil. An unlined industrial landfill at the facility is used to dispose of inert, non-putrescible catalyst material and construction and demolition debris. The tank farm consists of more than a thousand above-ground storage tanks of varying sizes. Stormwater is directed to several basins located at the facility and is subsequently treated at the wastewater treatment plant. Sampling of the series of basins and ponds onsite is also required by the permit.

MACK-CALI HOLMDEL LLC WTP NJ0035718 DSW Minor	23 Main St Holmdel, NJ 07733 Monmouth County	Theodore Denberg, P.E. Bureau of Surface Water Permitting (609)292-4860	Willow Brook FW2-NT(C2) Navesink River / Lower Shrewsbury River	Surface Water Major Mod Permit Action This modification proposes changes to the total phosphorus concentration and loading limitations, removes conditions regarding total phosphorus, removes all residual requirements and corrects a typographical error regarding total suspended solids.
FRELINGHUYSEN ELEMENTRY SCH NJ0081680 DGW	780 Rt 94 Frelinghuysen Twp, NJ 07846 Warren County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Martinsburg Formation II-A	Ground Water Renewal Permit Action Freylinghuysen Township Elementary School occupies 30,000 square feet and is designed to service 400 individuals (375 students plus 25 faculty members). The facility's sanitary wastewater design flow is 6,000 gallons per day. The sanitary wastewater is discharged to ground water via two subsurface disposal beds, each consisting of 12,500 square feet. The facility shall meet ground water quality standards at ground water monitoring wells
MANSFIELD FARMS NJ0108120 DGW	Rt. 68 Mansfield, NJ 08022-0000 Burlington County	Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021	Englishtown II-A	Ground Water Renewal Permit Action This modification permit action is for Mansfield Farms which is a 1,000 unit housing development. A commercial development is proposed consisting of four retail stores, a home improvement store, four restaurants, a fast food restaurant, a convenience store and a gas station. This permit limits wastewater flow to 376,000 gpd. An on-site treatment plant treats the wastewater prior to disposal to ground water via infiltration percolation lagoons. Monitor wells assess the impact the discharge has on ground water quality.
24 REALTY LLC NJ0109029 DGW	340 Rt 34 Colts Neck, NJ 07722 Monmouth County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Red Bank II-A	Ground Water Renewal Permit Action Orchards at Colts Neck Shopping Center has applied for a renewal NJPDES-DGW permit. This facility consists of commercial retail shop(s), medical office(s), food services(s) and dry cleaning. The combined square footage is 39,321 square feet. This facility is designed to discharge 5,222 gallons per day of sanitary wastewater which is treated and discharged to an on-site subsurface disposal system.
A M BEST CO INC NJ0134627 DGW	1 A M Best Rd Oldwick, NJ 08858-9988 Hunterdon County	Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021	Brunswick II-A	Ground Water Renewal Permit Action The facility is an office complex. Sanitary wastewater is discharged to a Wastewater Treatment and Recycling System (WTRS) that discharges to subsurface disposal beds. Potable water softener backwash and boiler blow down water to the WTRS represents an additional discharge of 121 gpd. The previous permit action authorized an increased loading rate to the disposal bed from 1 gpd/sq ft. to 2 gpd/sq.ft. The design flow of the WTRS is 8,221 gpd. The disposal field is comprised of two beds of laterals with a total of 3,825 square feet of disposal area. The discharge of wastewater to the onsite disposal field is limited to a flow volume of 7,500 gpd.
JONES ISLAND WATER RECLAMATION PLANT NJ0146072 RES	700 E Jones St Operated By Veolia Water Milwaukee Llc Milwaukee, WI 53207 Out Of State County	Stephen Boyer Bureau of Pretreatment and Residuals (609)633-3823		Residual Renewal Permit Action Renewal of an Out of State EQ Heat Drying Facility. Since it is a Category V1 the permit conditions exist under the NJPDES Permit Exemption - General Distribution Approval letter. The Milwaukee Metropolitan Sewerage District owns the residuals processing (direct drying) facility at the Jones Island Water Reclamation Plant in Milwaukee, WI, which is operated by Veolia Water Milwaukee LLC. The residual product (organic fertilizer pellet) is marketed to NJ under the tradename Milorganite.

MISSIONARY SOCIETY OF SALESIAN SISTERS INC NJ0173738 DGW	20 Old Swartwood Rd Newton, NJ 07860 Sussex County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021		Ground Water Renewal Permit Action The facility consists of Camp Auxilliam, a day care and camp with a maximum student and staff population of 500, as well as a Retreat Center consisting of a four bedroom residence, a chapel, and a dormitory with 45 rooms. Camp Auxilliam was previously regulated by a T1 General Permit (NJG0140333), while the Retreat Center was inadvertently omitted despite being a component of the common facility. This permit regulates entire facility under one individual NJPDES-DGW permit.
