O = Other

REG = HMDC/Pinelands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF COASTAL AND LAND USE COMPLIANCE AND ENFORCEMENT
NOTICE OF INTENT TO SETTLE A WATERFRONT DEVELOPMENT VIOLATION

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to settle an enforcement action pertaining to the below site and responsible party for violations of the Waterfront Development Act pursuant to N.J.S.A. 12:5-1 et seq

IN THE MATTER OF: SCHUMACHER, JAMES & LAURA
 Enforcement File # 1338-10-0014.1
 Block and Lot [109, 19]
 Oceanport Boro, Monmouth County

Comments regarding this settlement or requests for a copy of the settlement should be sent to: Michele Kropilak, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 1510 Hooper Ave Suite 140 Toms River NJ 08753 or via email at Michele.Kropilak@dep.nj.gov. Comments must be received by NJDEP within 30 days of this publication to be considered.

NOTICE OF PUBLIC COMMENT PERIOD
REGARDING A SOLID WASTE RESOURCE RECOVERY FACILITY PERMIT RENEWAL

The New Jersey Department of Environmental Protection, Division of Solid & Hazardous Waste hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application regarding the operation of the existing Solid Waste Resource Recovery Facility Permit for Covanta Union, Inc. located at 1499 Route 1 North in the City of Rahway, Union County.

The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types 10, 25, and 27 with an approved continued maximum waste throughput capacity of 562,100 tons per year.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Anthony Fontana
Chief
New Jersey Department of Environmental Protection
Division of Solid & Hazardous Waste
Bureau of Solid Waste Permitting
Mail Code 401-02C
P.O. Box 420
Trenton, New Jersey 08625-0420
(609) 292-9880

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Solid & Hazardous Waste, the office of the City of Rahway Clerk and the office of the Union County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Kim Beccia at the above address or contact her at (609) 292-9880.

Lawrence Twp, Mercer County

Comments regarding this settlement or requests for a copy of the settlement should be sent to: Dwayne Snead, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 401 East State Street, Mail Code 401-04C, PO Box 420, Trenton, New Jersey 08625 or via email at Dwayne.Snead@dep.state.nj.us. Comments must be received by NJDEP within 30 days of this publication to be considered.

Division of Land Use Regulation
P.O. Box 420, Mail Code 501-02A,

Fax # (609) 777-3656

Notice of the Department's intent to initiate a reconsideration of application of substantive standards under N.J.A.C. 7:7-1.10(c) of the Coastal Permit Program Rules and to provide a 15 day comment period as provided in N.J.A.C. 7:7-1.10(k).

Reconsideration of application of substantive standards is being initiated for:

John Herlihy
207 Bay Avenue
Block: 37, Lots: 2.07 & portion of 2.08
Borough of Island Heights, Ocean County
CAFRA Permit Application No. 1510-02-0002.2 CAF 070001

On November 5, 2008, the Department denied a CAFRA permit on the above property for the construction of single-family home along with associated improvements. The Department has begun to reassess the strict application of the coastal zone management regulations and will determine if construction of a single family dwelling may occur in accordance with the amelioration rules under the Coastal Program pursuant to N.J.A.C. 7:7-1.10.

A 15-day public comment period shall commence upon the publication of the May 6, 2015 DEP bulletin. Comments may be sent to:

Shorefront Region Section Chief,
Division of Land Use Regulation,
NJDEP, Mail Code 501-02A PO Box 420
Trenton, NJ 08625-0420,
by e-mail care of chris.dolphin@dep.state.nj.us,
the office may be reached by telephone: (609) 777-0454.

A preliminary analysis of the reconsideration of application of substantive standards may be obtained by contacting the above. A copy of the notice shall be sent to those agencies and individuals identified at N.J.A.C. 7:7-1.10(k).

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO SETTLE
WATERFRONT DEVELOPMENT PERMIT APPLICATION**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Settlement Agreement and issue a Waterfront Development Individual Permit (Authorization) that would resolve the appeal of Waterfront Development Individual Permit #1331-10-0032.1 WFD100001. Said Authorization would authorize the construction of an 8' x 37' fixed pier, a 3' x 20' ramp, an 8' x 20' floating dock, and a 12' x 24' boat lift.

submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Colleen Kokas, Director
Office of Water Resource Management Coordination
Mail Code 401-02A
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

Proposed Amendment to the Tri-County Water Quality Management Plan

**Public Notice
Crystal Lakes**

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management (WQM) Plan. This amendment proposal, submitted by the Monroe Municipal Utilities Authority, would expand the sewer service area (SSA) of the Gloucester County Utilities Authority Sewage Treatment Plant (GCUA STP) to include the entirety or portions of 78 residential and 10 commercial parcels in Monroe Township, Gloucester County. The project is identified as “Crystal Lakes Area”, Project Identification No. 435433, Activity No. AMD140005 and includes the following parcels: Block 301, Lots 29, 30, 33, 35-42; Block 401, Lots 20-27; Block 501, Lots 25-27, 29, 31-37, 42, 42.01, 43, 45; Block 603, Lots 1-4, 7-13, 17, 31; Block 604, Lots 1.01, 1.02, 5-15, 18; Block 605, Lot 1; Block 606, Lots 1, 2; Block 611, Lots 1, 3-7, 9-13.

This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188). Section 6 of P.L. 2013, c. 188 allows for the consideration of an application for a WQM Plan amendment that does not propose a specific project or activity and delineates as SSA a parcel not to exceed 100 acres in size that complies with the regulatory criteria for the delineation of a SSA established at N.J.A.C. 7:15-5.24. The proposed expansion of SSA complies with N.J.A.C. 7:15-5.24(g), as the Department has determined that Environmentally Sensitive Areas (ESAs) in the proposed SSA are included, but to allow infill development, and to remove undulations in the SSA boundary as necessary to create a linear boundary that relates to recognizable geographic or political features as allowed by N.J.A.C. 7:15-5.20(b)2, and that the ESAs included in the SSA are not critical to a population of endangered or threatened species, the loss of which would decrease the likelihood of the survival or recovery of the species in the State.

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 20,078 gallons per day. Currently, the GCUA STP is permitted to discharge 27 million gallons per day (MGD) of treated wastewater to the Delaware River under NJDPES permit number NJ0024686. The average of the last twelve months of discharge monitoring data show that the GCUA STP has discharged an average daily flow of 18.54 MGD. The additional 0.20 MGD of wastewater from the expanded SSA will not exceed the permitted capacity of the GCUA STP.

The GCUA STP provides treatment for the northern portion of Gloucester County known as the Consolidated District. Along with Monroe Township, the Consolidated District includes Clayton Borough, Deptford Township, Glassboro Borough, Mantua Township, National Park Borough, Paulsboro Borough, Pitman Borough, Wenonah Borough, West Deptford Township, Westville Borough, Woodbury City, Woodbury Heights Borough, and portions of East Greenwich, Elk, and Washington Townships. As part of the GCUA WMP, an environmental constraints/build-out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Monroe Township has a projected need to treat 3.774 MGD of additional wastewater flow, which is not yet connected to the GCUA STP. The additional 0.020 MGD of planned wastewater flow generated from this project would be added to the current planning flow of 3.774 MGD, resulting in a new residential planning flow of 3.794 MGD for Monroe Township. The GCUA WMP would be updated to reflect the proposed SSA expansion.

In accordance with N.J.A.C. 7:15-5.24, environmentally sensitive areas (ESAs) have been assessed to determine what areas are appropriate for inclusion in the proposed SSA. ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, special water resource protection areas along Category One waters and their tributaries established under the Stormwater Management rules, N.J.A.C. 7:8 are not to be included in the proposed SSA, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Category One waterways or their tributaries exist in the project area.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Wetlands identified on Block 501, Lots 31, 32, 45 have been included in the proposed SSA as they are less than 25 acres and not contiguous. Wetland areas are also included in the proposed SSA on the developed residential parcels on Blocks 604, 605, 606, 301, and commercial parcels on Block 501 and 611, pursuant to N.J.A.C. 7:15-5.24(g), as the Department has determined that these wetlands in the proposed SSA are included to remove undulations in the SSA boundary as necessary to create a linear boundary that relates to recognizable geographic or political features as allowed by N.J.A.C. 7:15-5.20(b)2, and that the ESAs included in the SSA are not critical to a population of endangered or threatened species, the loss of which would decrease the likelihood of the survival or recovery of the species in the State. Essentially, these parcels are generally small, less than ¼ of an acre and predominantly not environmentally sensitive. The proposed SSA also includes wetlands on undeveloped parcels, Block 301, Lots 35 and 39, where only a portion of the lots fronting Herbert Boulevard are proposed for inclusion in the SSA. These parcels are included in the proposed SSA pursuant to N.J.A.C. 7:15-5.24(g), as the Department has determined that wetlands in the proposed SSA are included to allow infill development, and that the ESAs included in the SSA are not critical to a population of endangered or threatened species, the loss of which would decrease the likelihood of the survival or recovery of the species in the State.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), special restricted areas including areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains, in addition to special restricted areas of designated beaches, coastal high hazard areas, and dunes are not included in the SSA. These restricted areas are not applicable here.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Office of Water Resources Management Coordination, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Water Resources Management Coordination at (609) 777-4349.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above with a copy sent to Mr. Jerry Moore, Executive Director, Monroe Municipal Utilities Authority, 372 South Main Street, Williamstown, NJ 08094-1727. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Proposed Amendment to the Tri-County Water Quality Management Plan

Public Notice Pinedge III

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management Plan (WQMP). This amendment proposal, submitted on behalf of Joseph Bernardino, Managing Member, PlanLand, LLC, would expand the sewer service area (SSA) of the Delaware No. 1 Wastewater Pollution Control Facility (WPCF) to include portions of Block 2103, Lots 1, 2, and 3 and Block 2202, Lot 1 for the proposed development of 145 single family homes, located in Berlin Township, Camden County. The project is identified as "Pinedge III", Project Identification No. 435433, Activity No. AMD140006. This proposal would update the Camden County Municipal Utilities Authority (CCMUA) Wastewater Management Plan as well as the Tri-County WQMP.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules, N.J.A.C. 7:15-1 et seq. and P.L. 2011 c.203 as amended and supplemented by P.L. 2013 c.188. The proposal qualifies as a site specific amendment pursuant to Section 7 of P.L. 2013 c. 188.

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed. However, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 43,500 gallons per day (gpd). Currently, the Delaware No. 1 WPCF is permitted to discharge 80 million gallons per day (MGD) of treated wastewater to the Delaware River under NJDPES permit number NJ0026182. The average of the last twelve months of discharge monitoring data show that Delaware No. 1 WPCF has discharged an average daily flow of 55.65 MGD. The additional 0.0435 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the treatment facility.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Landscape Project has identified State Endangered timber rattlesnake habitat. A report submitted by the applicant's environmental consultant, Osprey Environmental indicates that "Based upon site inspections, areas of habitat suitable for this species were identified on the subject property. These areas included patches of upland second growth forested woodlands. However, the parcels surrounding the subject property are developed with a mixture of commercial/industrial and residential subdivisions. The developed areas do not provide suitable habitat for the snakes. Habitat would be limited within the area surrounding the subject parcel and possibly would not provide migratory pathways for the species to and from the subject property." The Department's Endangered and Nongame Species Program determine that the site is too landlocked to provide suitable snake habitat.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). A Natural Heritage database search request indicates rare plant life in the vicinity of the property and on the property; the endangered swamp-pink. The Department's Endangered and Nongame Species Program recommend applying wetland and riparian buffers to avoid the swamp-pink populations. Accordingly, and as described in further detail below, these buffers have been applied and are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. Kettle Run, a FW2-NT stream runs west to east on the southern-most part of this property. Flood Hazard Area Verification Approval, File No.: 0406-02-0001.1 FHA130001 has been obtained. The approved mapping entitled "Pinedge III, BK 2202, Lot 1 and BK 2103, Lots 1, 2, and 3, Situate Berlin Township, Camden County, New Jersey" prepared by Land Dimensions Engineering, dated August 2013, last revised May 5, 2014, shows wetland and flood hazard areas, and designates a 150 foot riparian protection buffer from the top of bank along both sides of Kettle Run Creek and its unnamed tributary. The riparian width is due to the Department's determination that the critically dependent on regulated water (CDW) species are present on the site and within one linear mile downstream from the site as measured along the length of the regulated water. The waterway and its associated 150 buffer are removed from the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with

N.J.A.C. 7:15-5.24(e)2, freshwater wetlands Letter of Interpretation (LOI) #0406-02-0001.1-FWW100001 (June 26, 2012) was submitted. The LOI determines that there are freshwater wetlands and wetland buffers present on the property and these are detailed on a plan entitled "Outbound Survey, Wetland Flag Location & Topography Check, Block 2202, Lot 1 & Block 2103, Lots 1.01, 1.02, & 1.03, Berlin, NJ", prepared by B&B Hi-Tech Solutions, LLC, dated June 7, 2008, last revised April 3, 2012. The wetlands identified along with associated buffers are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), special restricted areas including areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains, in addition to special restricted areas of designated beaches, coastal high hazard areas, and dunes are not included in the SSA. CCMUA received a federal grant with conditions under Environmental Protection Agency (EPA) project number C-34-708-02 for District I as well as C-340524-03. Specifically, the grant condition prohibits sewer connections from new development in wetlands and floodplains. To comply with Section 5.24(d), the applicant submitted a USEPA waiver approval letter, dated December 29, 2014, which indicates that the project will not impact wetlands or the flood hazard area, and grants a partial waiver of the grant condition for this project, as wetlands and wetland transitional areas still remain throughout the site. A sewer connection restriction remains in effect for the wetlands onsite, and any modification to the project resulting in disturbance to wetlands will require a resubmittal of the waiver request to the USEPA for a revised determination. Again, as stated above, wetlands and their associated buffers are not included in the proposed SSA. Additionally, there are no designated beaches, coastal high hazard areas, or dunes onsite.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water would be provided by Berlin Borough Water Department which holds PWSID #4050001, is allocated 94.2 MGM, and currently has a water supply surplus of 16.418 MGM. Pursuant to N.J.A.C. 5:21-5.3, Table 5.1, the daily residential water demand for a four-bedroom home is 395 gpd, therefore the total water demand for 145 four-bedroom homes is 57,275 gpd or 0.057275 MGD or 1.71825 MGM. The projected water demand of 1.71825 MGM is within the 16.418 MGM water supply surplus available from Berlin Borough Water Department. This area is within Critical Area 2, which is an area of critical water supply concern, therefore the applicant will request consent from the water department for this proposal.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Berlin Township has adopted stormwater control ordinance #2006-14, which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQMP. All information related to the WQMP and the proposed amendment is located at the Department, Office of Water Resources Management Coordination, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, N.J. 08625-

0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Water Resources Management Coordination at (609) 777-4349.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above with a copy sent to Richard Clemson, P.E., James Sassano Associates, Inc., 41 South Route 73, Building 1, Suite 201, Hammonton, NJ, 08037. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing

Proposed Amendment to the Tri-County Water Quality Management Plan

Public Notice Winding Brook

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management Plan (WQMP). This amendment proposal, submitted by Marathon Engineering and Environmental Services on behalf of Krysta Enterprises would expand the sewer service area (SSA) of the Elmwood Avenue Wastewater Treatment Plant (NJPDES Permit # NJ0024031) to include portions of Block 14, Lot 3, in Evesham Township, Burlington County. This proposal is named "Winding Brook Development" and is assigned Program Interest No. 435433, Activity No. AMD140009.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules, N.J.A.C. 7:15-1 et seq and Section 6(h) of P.L. 2011 c. 203 as amended and supplemented by P.L. 2013, c. 188, which allows for the consideration of an application for a WQMP amendment that does not proposed a specific project or activity and delineates as SSA a parcel, not to exceed 100 acres in size, that had been previously included in a formerly adopted SSA, provided it can be demonstrated with the use of updated or more accurate information that the parcel complies with the regulatory criteria for the delineation of a SSA established at N.J.A.C. 7:15-5.24.

In accordance with N.J.A.C. 7:15-5.24, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened) , 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, C1 special water resource protection areas are not to be included in the proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) - (h). Sharps Run, classified as a FW2-NT waterbody runs along the northern order of this parcel, however it is not classified a C1 or its tributary.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation, L.O.I. # 0300-06-0004.1 (FWW140001) was submitted, which re-delineates wetlands identified onsite, and these areas are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

All other special restricted areas as defined at N.J.A.C. 7:15-5.24(d)1-4; areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains; and beaches, coastal high hazard areas, and dunes are not applicable to the proposed amendment's site location.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Office of Water Resources Management Coordination, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Water Resources Management Coordination at (609) 777-4349.

Interested persons may submit written comments on the proposed amendment to the Office of Water Resources Management Coordination, at the Department address cited above with a copy sent to Rick Ricciardi, Marathon Engineering and Environmental Services, Inc., 553 Beckett Road, Suite 608, Swedesboro, NJ 08085. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Public notice of proposed permit actions

<i>Facility name / NJPDES Permit No ./ SRP Case ID</i>	<i>Facility location / address / County</i>	<i>NJDEP case manager / Bureau / phone number</i>	<i>Permit Type / Formation / Ground Water Classification</i>	<i>Executive Summary</i>

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Pilar Patterson, Chief

<u>Permit:</u>	<u>Facility Location:</u>	<u>NJDEP:</u>	<u>Receiving Discharge:</u>	<i>Executive Summary</i>
<ul style="list-style-type: none"> • Name • NJPDES No. • Type 	<ul style="list-style-type: none"> • Address • County 	<ul style="list-style-type: none"> • Case manager • Bureau • Phone No. 	<ul style="list-style-type: none"> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed 	
SOLVAY SPECIALTY POLYMERS USA LLC NJ0005185 DSW Major	10 Leonards Ln West Deptford Twp, NJ 08086 Gloucester County	Brian Salvo Bureau of Surface Water Permitting (609)292-4860	Delaware River (Zone 4) Mainstem Delaware-Zone 4 Woodbury / Big Timber / Newton Creeks	Surface Water Renewal Permit Action This is a renewal NJPDES permit to discharge a long-term average flow of 0.41 million gallons per day (MGD) of treated industrial wastewater. Treated wastewater discharged to surface water includes process and scrubber wastewater from the Meforex 142b and Vinylidene Fluoride areas, deionizer regenerations, incinerator scrubber water, steam condensate and cooling tower blowdown. The wastewater is directed to the wastewater treatment plant and treated through Equalization, pH Adjustment, Fluoride Precipitation, Metals Precipitation, Clarification, and Post Neutralization.
PHILLIPSBURG MARBLE CO NJ0069698 DGW	1355 River Rd Phillipsburg, NJ 08865-0172 Warren County	Matt Klewin Bureau of Nonpoint Pollution Control (609)633-7021	Crystalline Rocks II-A	Ground Water Renewal Permit Action This is a permit renewal action. Phillipsburg Marble is a stone cutting and polishing facility that cuts and polishes marble, granite and limestone for residential and commercial properties. They use water drawn from the nearby abandoned quarry to rinse the stone and to cool the diamond saws during the cutting process. The rinse/cooling water is then discharge back to the lagoon. The discharge monitoring point is located prior to the point of discharge to the quarry.
CO-STEEL RARITAN NJ0031178 DGW NJ0031178 DST	225 Elm St Perth Amboy, NJ 08862 Middlesex County	Keith Howell (609)633-7021	Raritan-Magothy Raritan River II-A SE1(C2) Raritan R Lower (below Lawrence)	Consolidated Renewal Permit Action Gerdau Ameristeel has applied for a renewal NJPDES permit. This facility is a steel recycling and forging facility. Scrap metal is stored on location on an open lot until it is processed. Slag and millscale are stored on location until it is sold for reuse. This is a consolidated permit with stormwater and ground water conditions.
UNIMIN CORP - DIVIDING CREEK FACILITY NJ0089362 DGW	1100 Whitehead Rd Dividing Creek, NJ 08315 Cumberland County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Cohansey II-A	Ground Water Renewal Permit Action Unimin Corporation - Dividing Creek facility, is a sand quarry engaged in hydraulic dredging and processing to produce industrial Silica Sand (SIC 1446), used primarily in the glass industry. The facility has been in operation for more than 50 years.

MUELLER PROPERTY HOLDINGS LLC NJ0005266 DST	1101 East Pearl St Burlington City, NJ 08016- 1999 Burlington County	Daniel Kuti Bureau of Nonpoint Pollution Control (609)633-7021	Delaware River Mainstem Delaware-Zone 2 Burlington/Edgewater Park Delaware tribs	Stormwater Discharge Renewal Permit Action The above named facility is the the former U.S. Pipe facility. The facility no longer manufactures product and now functions as a distrobution center. The Department intends to convert the existings discharge to surface water permit into a stormwater only individual permit and combine it with the existing discharge to ground water permit.
LAKE & SHORE CAMPGROUND NJ0087734 DGW	515 Corson Tavern Rd Ocean View, NJ 08230 Cape May County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Cape May II-A	Ground Water Renewal Permit Action Lake & Shore Campground is a 411 site campground with laundry facilities and associated recreational amenities, including a water park and a snack bar. Sanitary wastewater generated will be treated to Ground Water Quality Standards prior to discharge for all parameters, except fecal coliform, by an on-site treatment plant. While UV disinfection will be provided, final treatment for fecal coliform will occur in the unsaturated soils beneath the disposal areas. Treated wastewater will be discharged to ground water through 3 (three) infiltration/percolation lagoons. Maximum daily wastewater flow from the facility shall be 61,920 gallons per day (gpd).
FOREST MANOR HEALTH CARE CTR NJ0102920 DGW	145 State Park Rd Frelinghuysen Twp, NJ 07844-0000 Warren County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Rickenback II-A	Ground Water Renewal Permit Action This facility is a nursing home with 120 beds and a support staff of 40 people set on 18 acres in Hope, New Jersey. The maximum discharge allowed is 10,000 gallons per day. The effluent is treated at a sewage treatment plant before discharge to groundwater. There is one groundwater monitoring point and four groundwater monitoring wells.
CBS CORPORATION NJ0108502 DSW Minor	1 Westinghouse Plaza Bloomfield, NJ 07003 Essex County	Theodore Denberg, P.E. Bureau of Surface Water Permitting (609)292-4860	Second River FW2-NT(C2) Passaic River Lower (Nwk Bay to Saddle)	Surface Water Renewal Permit Action The permit action is for the renewal of a NJPDES permit to discharge an estimated 0.003 MGD of remediated groundwater to the Second River via storm sewer.
NJPDES MASTER GENERAL PERMIT PROGRAM INTEREST NJ0235075 RES	401 E State St Trenton, NJ 08625 Mercer County	Stephen Boyer Bureau of Pretreatment and Residuals (609)633-3823		Residual Master General Permit New This new general permit is issued to a Domestic Treatment Works that generates only domestic septage, or that has a permitted flow of 0.020 MGD or less and that removes all sewage sludge generated to an off-site in-State treatment works treating domestic sewage. It is intended to implement the provisions of the Sludge Quality Assurance Regulations (SQAR, N.J.A.C. 7:14C) for residual quality and quantity monitoring as well as other general conditions required by N.J.A.C. 7:14A-6.
S&L ZEPPELELLI INC NJ0171603 DST	191 Moonachie Rd Moonachie, NJ 07074 Bergen County	Kerri Standowski Bureau of Nonpoint Pollution Control (609)633-7021	Moonachie Creek FW2-NT/SE2(C2) Hackensack R (below/incl Hirshfeld Bk)	Stormwater Discharge Renewal Permit Action The above named applicant has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) permit renewal to the New Jersey Department of Environmental Protection (NJDEP), Bureau Nonpoint Pollution Control. The applicant is involved with the recycling of construction materials under the Standard Industrial Classification (SIC) 4212. The proposed permit regulates stormwater discharges to the Moonachie Creek, classified as FW2-NT/SE2.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.
