Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

**NOTICE OF PUBLIC COMMENT PERIOD
ON THE PROPOSED RENEWAL OF A PERMIT UNDER
THE RESOURCE CONSERVATION AND RECOVERY ACT**

The State of New Jersey, Department of Environmental Protection (Department) has reviewed the hazardous waste facility permit renewal application submitted by:

ExxonMobil Research and Engineering Company
1545 Route 22 East
Clinton Township, New Jersey 08801
USEPA ID No. NJD000692111

for a hazardous waste storage facility permit to continue to operate a hazardous waste container storage area with a maximum capacity of 16,500 gallons.

THE DRAFT PERMIT

The Department issues hazardous waste facility permits to regulate ongoing activities involving treatment, storage, and/or disposal of hazardous waste. The Department has prepared a draft hazardous waste facility permit for public comment for ExxonMobil Research and Engineering Company (ExxonMobil) to continue to operate a hazardous waste container storage area. This draft permit and the permit application include the following:

- ° Strict Specifications of the Activities Allowed Under the Permit
- ° Identification of Waste Types Handled by the Facility
- ° Design Specifications for all Approved Activities and Required Monitoring Systems
- ° A Contingency Plan
- ° Inspection Schedules
- ° Financial Assurances

FACILITY DESCRIPTION

The hazardous waste facility permit issued on June 15, 2004 authorized ExxonMobil to store containerized hazardous wastes generated from petrochemical research and development and maintenance activities at their Clinton Township site. Containers of hazardous waste are stored in an indoor area with a maximum capacity of 16,500 gallons. Issuance of this permit renewal will authorize ExxonMobil to continue to operate the aforementioned hazardous waste container storage area. All hazardous waste stored at the site are shipped off-site to other authorized hazardous waste facilities.

WHERE TO OBTAIN ADDITIONAL INFORMATION

Copies of the draft permit and supporting permit application are available at the Department's offices in Trenton. Anyone wishing to obtain a copy of a fact sheet on the facility, the draft permit, and/or further information or to arrange to review the administrative record should first contact:

Mail Code 401-02C
Guy Watson, Chief
Bureau of Recycling & Hazardous Waste Management
Division of Solid & Hazardous Waste
New Jersey Department of Environmental Protection

**Notice Regarding Adoption of Site Specific Water Quality Management Plan Amendment Applications
Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Coastal and Land Use Planning, has adopted the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188 which was enacted on January 15, 2014. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of adoption of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice(s) of adoption of site specific amendment(s) for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below:

**Adopted Amendment to the Tri-County Water Quality Management Plan (WQMP)
Crystal Lakes Area
Public Notice**

Take notice that on July 10, 2015, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Tri-County WQMP was adopted by the Department of Environmental Protection (Department). This amendment, submitted by the Monroe Municipal Utilities Authority, expands the sewer service area (SSA) of the Gloucester County Utilities Authority Sewage Treatment Plant (GCUA STP) to include the entirety or portions of 78 residential and 10 commercial parcels in Monroe Township, Gloucester County. The project is identified as "Crystal Lakes Area", Project Identification No. 435433, Activity No. AMD140005 and includes the following parcels: Block 301, Lots 29, 30, 33, 35-42; Block 401, Lots 20-27; Block 501, Lots 25-27, 29, 31-37, 42, 42.01, 43, 45; Block 603, Lots 1-4, 7-13, 17, 31; Block 604, Lots 1.01, 1.02, 5-15, 18; Block 605, Lot 1; Block 606, Lots 1, 2; Block 611, Lots 1, 3-7, 9-13.

The GCUA STP provides treatment for the northern portion of Gloucester County known as the Consolidated District. Along with Monroe Township, the Consolidated District includes Clayton Borough, Deptford Township, Glassboro Borough, Mantua Township, National Park Borough, Paulsboro Borough, Pitman Borough, Wenonah Borough, West Deptford Township, Westville Borough, Woodbury City, Woodbury Heights Borough, and portions of East Greenwich, Elk, and Washington Townships. As part of the GCUA WMP, an environmental constraints/build-out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Monroe Township has a projected need to treat 3.774 MGD of additional wastewater flow, which is not yet connected to the GCUA STP. This amendment's proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 20,078 gallons per day. The additional 0.020 MGD of planned wastewater flow generated from this project is added to the current planning flow of 3.774 MGD, resulting in a new residential planning flow of 3.794 MGD for Monroe Township. The GCUA WMP will be updated to reflect the adopted SSA expansion.

This amendment has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 as modified by P.L.

2011, c. 203 (amended by P.L. 2013, c. 188). Section 6 of P.L. 2013, c. 188 allows for the consideration of an application for a WQM Plan amendment that does not propose a specific project or activity and delineates as SSA a parcel not to exceed 100 acres in size that complies with the regulatory criteria for the delineation of a SSA established at N.J.A.C. 7:15-5.24.

In accordance with N.J.A.C. 7:15-5.24(a), SSA may only be provided to areas that are not identified as environmentally sensitive areas (ESAs), coastal planning areas or special restricted areas, except as provided by N.J.A.C. 7:15-5.24(e) - (h). In accordance with N.J.A.C. 7:15-5.24(b), ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One special water resource protection areas, and wetlands, alone or in combination. Each of these ESAs was assessed for inclusion in the SSA as outlined below.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in SSAs except as provided under N.J.A.C. 7:15-5.24(e) - (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species, the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in SSAs, except as provided under N.J.A.C. 7:15-5.24(e) - (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, special water resource protection areas along Category One waters and their tributaries established under the Stormwater Management rules, N.J.A.C. 7:8 are not to be included in the SSA, except as provided under N.J.A.C. 7:15-5.24(e) - (h). Review of the project site has determined that no Category One waterways or their tributaries exist in the project area.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in SSAs, except as provided under N.J.A.C. 7:15-5.24(e) - (h). Wetlands identified on Block 501, Lots 31, 32, 45 have been included in the adopted SSA as they are less than 25 acres and not contiguous. Wetland areas are also included in the adopted SSA on the developed residential parcels on Blocks 604, 605, 606, 301, and commercial parcels on Block 501 and 611. Pursuant to N.J.A.C. 7:15-5.24(g), the Department has determined that these wetlands in the adopted SSA are included to remove undulations in the SSA boundary as necessary to create a linear boundary that relates to recognizable geographic or political features as allowed by N.J.A.C. 7:15-5.20(b)2, and that the ESAs included in the SSA are not critical to a population of endangered or threatened species, the loss of which would decrease the likelihood of the survival or recovery of the species in the State. These parcels are generally small, less than one quarter of an acre, and predominantly not environmentally sensitive. The adopted SSA also includes wetlands on undeveloped parcels, Block 301, Lots 35 and 39, where only a portion of the lots fronting Herbert Boulevard are included in the SSA. These parcels are included in the SSA pursuant to N.J.A.C. 7:15-5.24(g), as the Department has determined that wetlands in the SSA are included to allow infill development, and that the ESAs included in the SSA are not critical to a population of endangered or threatened species, the loss of which would decrease the likelihood of the survival or recovery of the species in the State.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), special restricted areas including areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains, in addition

to special restricted areas of designated beaches, coastal high hazard areas, and dunes are not included in the SSA. These restricted areas are not applicable here.

This amendment proposal was noticed in the New Jersey Bulletin on March 4, 2015 at Volume 39, Issue 5, and no comments were received during the comment period. The following affected entities consented to this amendment: Gloucester County Board of Chosen Freeholders on May 20, 2015, Gloucester County Utilities Authority in Resolution #2015-093, and Monroe Township in Resolution #91-2015. There were no comments submitted opposing this SSA amendment.

This amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF PUBLIC COMMENT PERIOD
REGARDING THE MODIFICATION OF A NJPDES-DGW PERMIT FOR A SANITARY LANDFILL**

Notice is hereby given that the Division of Solid and Hazardous Waste of the New Jersey Department of Environmental Protection (Department) proposes to modify New Jersey Pollutant Discharge Elimination System-Discharge to Groundwater (NJPDES-DGW) Permit NJ0033936 issued to Kinsley's Landfill Inc. for the groundwater monitoring wells at Kinsley's Landfill on Hurffville Road in Deptford Township, Gloucester County, New Jersey. This notice is being given in accordance with the provisions of the New Jersey Water Pollution Control Act (N.J.S.A. 58:10A-1 *et seq.*) and its implementing regulations (N.J.A.C. 7:14A-1 *et seq.*). The modification involves reducing the frequency of groundwater monitoring from quarterly to semi-annual.

The permit modification is based on the administrative record which is on file at the offices of the Department's Division of Solid and Hazardous Waste located at 401 East State Street, Trenton, Mercer County, New Jersey. It is available for inspection between 8:30 a.m. and 4:30 p.m., Monday through Friday. Further information regarding file inspection may be obtained by contacting Ms. Lisa Offredo at (609) 984-5950.

Interested persons may submit written comments on the proposed permit modification to:

Mail Code 401-02C
Anthony Fontana, Chief
Bureau of Solid Waste Permitting
NJ Department of Environmental Protection
P.O. Box 420
Trenton, New Jersey 08625-0420

All comments must be submitted within 30 days of the date of this public notice. The Department shall make a final decision after the close of the public comment period. Prior to the issuance of a final decision, the Department shall consider all comments submitted by interested persons in response to this notice within the public comment period. The Department will respond to all significant and timely comments when a final decision is made. The owner or operator and each person who has submitted written comments will receive notice of the final decision.

Any person may request in writing that the Department conduct a non-adversarial public hearing on the proposed action. Said request shall state the nature of the issues to be raised at the hearing and shall be submitted to the above address within 30 days of the date of this public notice. A public hearing shall be conducted whenever the Department determines that there is a significant degree of public interest in the permit action. If a public hearing is held, the public comment period shall automatically be extended to the close of the hearing.

Additional information, as well as a fact sheet concerning the proposed permit modification, may be obtained by contacting Victoria Goldman of the Bureau of Solid Waste Permitting at the above address or at (609) 292-9880.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF PUBLIC COMMENT PERIOD
REGARDING THE MODIFICATION OF A NJPDES-DGW PERMIT FOR A SANITARY LANDFILL**

Notice is hereby given that the Division of Solid and Hazardous Waste of the New Jersey Department of Environmental Protection (Department) proposes to modify New Jersey Pollutant Discharge Elimination System-Discharge to Groundwater (NJPDES-DGW) Permit NJ0055301 issued to J.Vinch & Sons, Inc. for the groundwater monitoring wells at the J. Vinch & Sons Demolition Landfill, Ward Avenue, Block: 106 Lot 4.01, Chesterfield Twp. in Burlington County, New Jersey. This notice is being given in accordance with the provisions of the New Jersey Water Pollution Control Act (N.J.S.A. 58:10A-1 *et seq.*) and its implementing regulations (N.J.A.C. 7:14A-1 *et seq.*). The modification involves reducing the frequency of groundwater monitoring from quarterly to semi-annual.

The permit modification is based on the administrative record which is on file at the offices of the Department's Division of Solid and Hazardous Waste located at 401 East State Street, Trenton, Mercer County, New Jersey. It is available for inspection between 8:30 a.m. and 4:30 p.m., Monday through Friday. Further information regarding file inspection may be obtained by contacting Ms. Lisa Offredo at (609) 984-5950.

Interested persons may submit written comments on the proposed permit modification to:

Mail Code 401-02C
Anthony Fontana, Chief
Bureau of Solid Waste Permitting
NJ Department of Environmental Protection
P.O. Box 420
Trenton, New Jersey 08625-0420

All comments must be submitted within 30 days of the date of this public notice. The Department shall make a final decision after the close of the public comment period. Prior to the issuance of a final decision, the Department shall consider all comments submitted by interested persons in response to this notice within the public comment period. The Department will respond to all significant and timely comments when a final decision is made. The owner or operator and each person who has submitted written comments will receive notice of the final decision.

Any person may request in writing that the Department conduct a non-adversarial public hearing on the proposed action. Said request shall state the nature of the issues to be raised at the hearing and shall be submitted to the above address within 30 days of the date of this public notice. A public hearing shall be conducted whenever the Department determines that there is a significant degree of public interest in the permit action. If a public hearing is held, the public comment period shall automatically be extended to the close of the hearing.

Additional information, as well as a fact sheet concerning the proposed permit modification, may be obtained by contacting Victoria Goldman of the Bureau of Solid Waste Permitting at the above address or at (609) 292-9880.

Waiver Rule Requests

NOTE: Pursuant to N.J.A.C. 7:1B-2.3(c), this section contains only those waiver rule requests related to rules for which the Department publishes notice of permit decisions in the DEP Bulletin. To access information on all waiver rule requests received by the Department, use the interactive reports on the Department's DataMiner website. Please visit <http://www.nj.gov/dep/waiverrule> and click on the "Search for Waiver Requests and Decisions" button to access these reports.

Narrative	<p>There exists in the City of Absecon an infiltration basin constructed as part of a major subdivision at Block 96, Lot 13.02 known as Bay View Landing. Runoff is conveyed to the basin through a water quality swale and overflows to the adjacent wetlands buffer. Although the subdivision resulted in less than 0.25 acres of additional impervious, it was determined that water quality design standards were applicable since the roadway curbing would result in runoff from an impervious area of 0.30 acres. The City has been monitoring stagnant water in this basin since June 2007. The developer has attempted to remediate the basin on multiple occasions, including removal of clayey materials, elevation adjustments, and re-grading of the swale. The City has determined that the infiltration rate of the basin is not adequate to drain the runoff volume of the water quality design storm within 72 hours. Based on empirical evidence, it does not appear that the basin can be remediated to provide the required infiltration rate due to groundwater and soil conditions. This matter is unduly burdensome for the City and neighboring residents. Stagnant water has resulted in anaerobic conditions, odor, and mosquito breeding, creating quality of life, health, and safety concerns. Furthermore, the City and neighboring residents have exhausted considerable resources addressing this issue. The City is requesting a waiver to permit the filling of the basin and extending the swale directly to the adjacent wetlands buffer, allowing runoff to discharge without stagnating in the basin. This is consistent with the intent of the water quality standards since the subdivision resulted in less than 0.25 acres of additional impervious. It will have de minimis impact on water quality due to the small size of the basin. In fact, it may result in a net environmental benefit by maintaining infiltration in the swale while eliminating the hazards of stagnate water.</p>

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

ALLENTOWN BORO WWTP NJ0020206 DSW Minor	Fowlers Bridge Rd Allentown, NJ 08501 Monmouth County	Ramanathan Asokan Bureau of Surface Water Permitting (609)292-4860	Doctors Creek FW2-NT(C2) Doctors Creek	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge a design flow of 0.238 MGD of treated, domestic wastewater. Treatment consists of two primary settling tanks, a trickling filter system, a rotating biological contactor, two final settling tanks, a sand filter, a chlorine contact tank and a dechlorination tank.
ATLANTIC COUNTY UTILITIES AUTH WWTF NJ0024473 DSW Major	1801 Absecon Blvd Atlantic City, NJ 08401 Atlantic County	Rachael Pepe Bureau of Surface Water Permitting (609)292-4860	Atlantic Ocean SC(C2) Reeds Bay / Absecon Bay & tribs	Surface Water Revoke & Reissue Permit Action This existing facility discharges treated, disinfected, domestic wastewater with industrial contribution into the Atlantic Ocean as classified as SC waters. This facility has a NJPDES flow value of 40 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 29 MGD. This action proposes effluent limitations based on a flow of 40 MGD. Treatment units consist of bar screens, primary clarifiers, equalization basin, aeration basins, secondary clarifiers and disinfection chambers. This permit reincorporates Reclaimed Water for Beneficial Reuse (RWBR) requirements and has a separate Wastewater Mining Facility.
CITGO PETROLEUM - PETTY'S ISLAND TERMINAL NJ0004511 DST	36th St & Delaware River Pennsauken, NJ 08110 Camden County	Daniel Kuti Bureau of Nonpoint Pollution Control (609)633-7021	Delaware River Mainstem Delaware-Zone 3 Cooper River	Stormwater Discharge Renewal Permit Action Details about this permit may be found in the Administrative Record for this activity which are stored in the Departments Central File Room.
CUMBERLAND COUNTY UTILITIES AUTHORITY NJ0024651 DSW Major	333 Water St Bridgeton, NJ 08302-0000 Cumberland County	Ramanathan Asokan Bureau of Surface Water Permitting (609)292-4860	Cohansey River FW2-NT(C2) - tidal trib to Zone 6 Cohansey River (below Cornwell Run)	Surface Water Renewal Permit Action This permit renewal authorizes the discharge of a permitted flow of 7.0 million gallons per day of treated and disinfected domestic wastewater with some industrial contribution. Treated wastewater is discharged to the Cohansey River classified as FW2-NT waters. Treatment consists of equalization, clarification, aeration, chlorination and dechlorination. This permit action will authorize the permittee to beneficially reuse treated effluent for landscape irrigation (within the fenced perimeter of the treatment plant only), sewer jetting, street sweeping, and STP washdown water.

MCDONALD'S RESTAURANT NJ0137804 DGW	542 Monmouth Rd Millstone Twp, NJ 08510 Monmouth County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Kirkwood II-A	Ground Water Renewal Permit Action The facility is an existing 94 seat McDonald's fast food restaurant. Sanitary wastewater generated by the facility is treated by a wastewater treatment plant and discharged to ground water through two (2) on-site disposal beds. The facility is permitted to discharge up to 5,200 gpd.
OSPREY VILLAGE WTP NJ0239755 DGW	2058 S Shore Rd Upper Twp, NJ 08223 Cape May County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Cohansey III-A	Ground Water New Permit Action 2058 South Shore Road LLC, is proposing to build an age restricted, 110 unit, 2 bedroom, mobile home park with a club house, located at 2058 South Shore Road in Ocean View, New Jersey. This complex will utilize an on-site sanitary treatment and disposal system able to treat up to 20,000 gallons per day. This facility is restricted to disposal of 18,800 gallons per day under the Cape May County Water Quality Management Plan.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.
