## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION (NJDEP) has received an application for the release and modification of the boundaries of the Conservation Restricted Area. The Conservation Easement/Declaration of Environmental Restriction was required by the 2003 CAFRA permit obtained by JSM @ Hickory Street L.L.C.. Even though the easement was not recorded the applicant/owner must follow the provisions of the "New Jersey Conservation Restriction and Historic Preservation Restriction Act." N.J.S.A. 13:8B-4 and 5.

If the request to release the 2003 Restriction and construct the at grade detention basin is approved, the applicant will record a new restriction that modifies the location of the original area to be restricted under the 2003 Restriction. In addition, the applicant will provide compensation through the purchase of habitat credits authorized by NJDEP. The release of restrictions is authorized under the provisions of the "New Jersey Conservation Restriction and Historic Preservation Restriction Act" N.J.S.A. 13:8B-5 and 6.

Narrative
I bought the house in foreclosure and the previous owners finished off the basement and built a bathroom with a grinder pump but never pulled permits. I talked to your staff and town health official he said get a waiver since we did not do the work. Currently 2 tanks 1000 gallons each in a series with a pump and a field. Can you please waive the increase of the field in this case since it would be exceptional hardship to back do this and since in the basement the grinder pump will not at a lot of water to the field.
