YOU ARE INVITED

Reinvesting in Urban Water Infrastructure through Combined Sewer Overflow Long Term Control Plans

THURSDAY, JANUARY 8, 2015

9AM – 4PM

RUTGERS NEWARK ACKERSON HALL ROOM 123
180 UNIVERSITY AVENUE NEWARK NEW JERSEY

Join the NJDEP and its partners for an informative workshop on the new permit requirements and opportunities associated with addressing Combined Sewer Overflows. Learn about:

Tools for building collaborative community partnerships	Case studies of innovative gray and green infrastructure that address flooding, reduce pollution and improve neighborhoods	Financing for gray and green infrastructure investments

This is an invitation only event, please RSVP to Beverly.lawson@dep.nj.gov

Attendance at this workshop can count for 5.5 non-safety TCH for wastewater licenses. If you are interested, please remember to bring your wastewater license number and to register your arrival and departure on the roster. Certificates will be available at the end of the day.
