

New Jersey Department of Environmental Protection
School Chemical Management Project

REDUCING HAZARDS, IMPROVING HEALTH & SAFETY

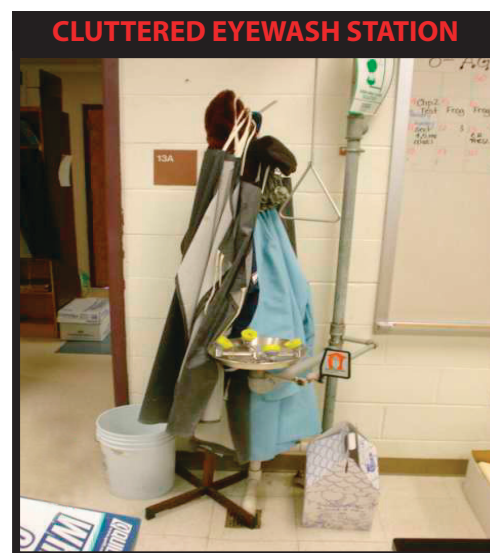

Why your school should get involved today:

- No cost - **FREE** site visits by county health departments or NJDEP
- Address **Best Management Practices** for **chemicals, pesticides** & **universal waste**
 - Compliance plan with detailed findings provided
 - Assistance with identifying waste and disposal requirements
 - Reduce costs through effective purchasing
- Reduce hazards & improve student, teacher, and staff health & safety

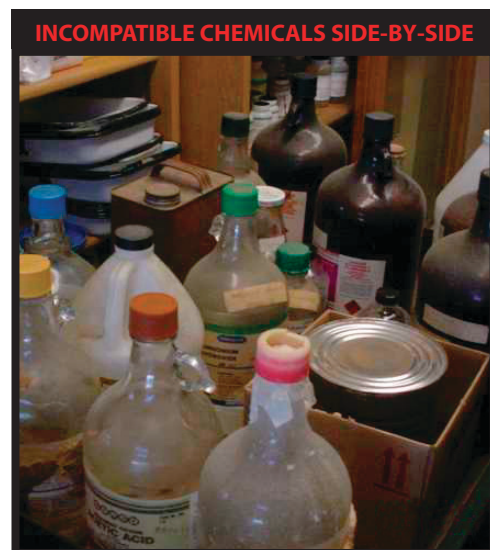

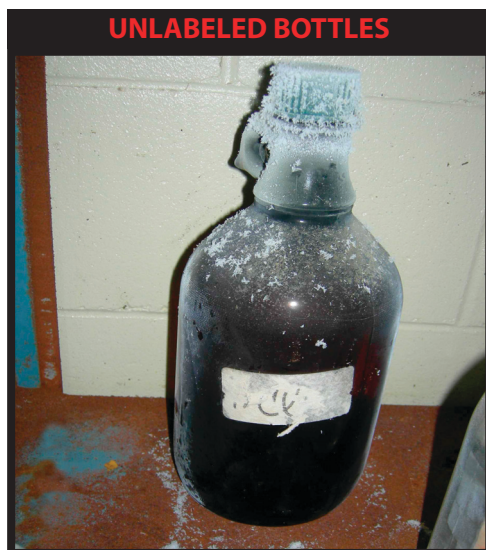

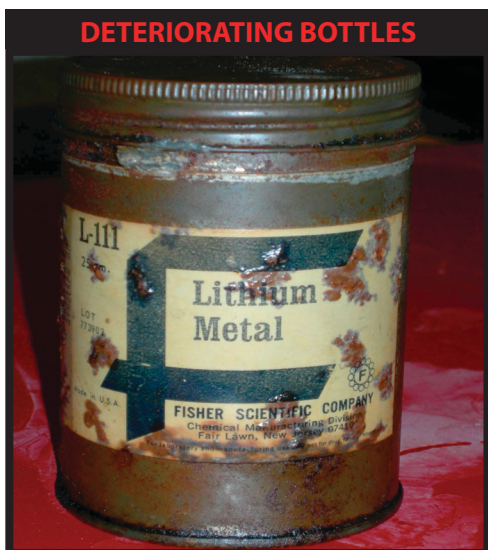

**Does your school
have chemicals that are...**

**older than 7 years?
exceeding a 2 year supply?
missing labels?**

Commonly Found Hazards
