Emission Statement Update & RADIUS 4.0

Danny Wong
April 10, 2013
ACE Academy

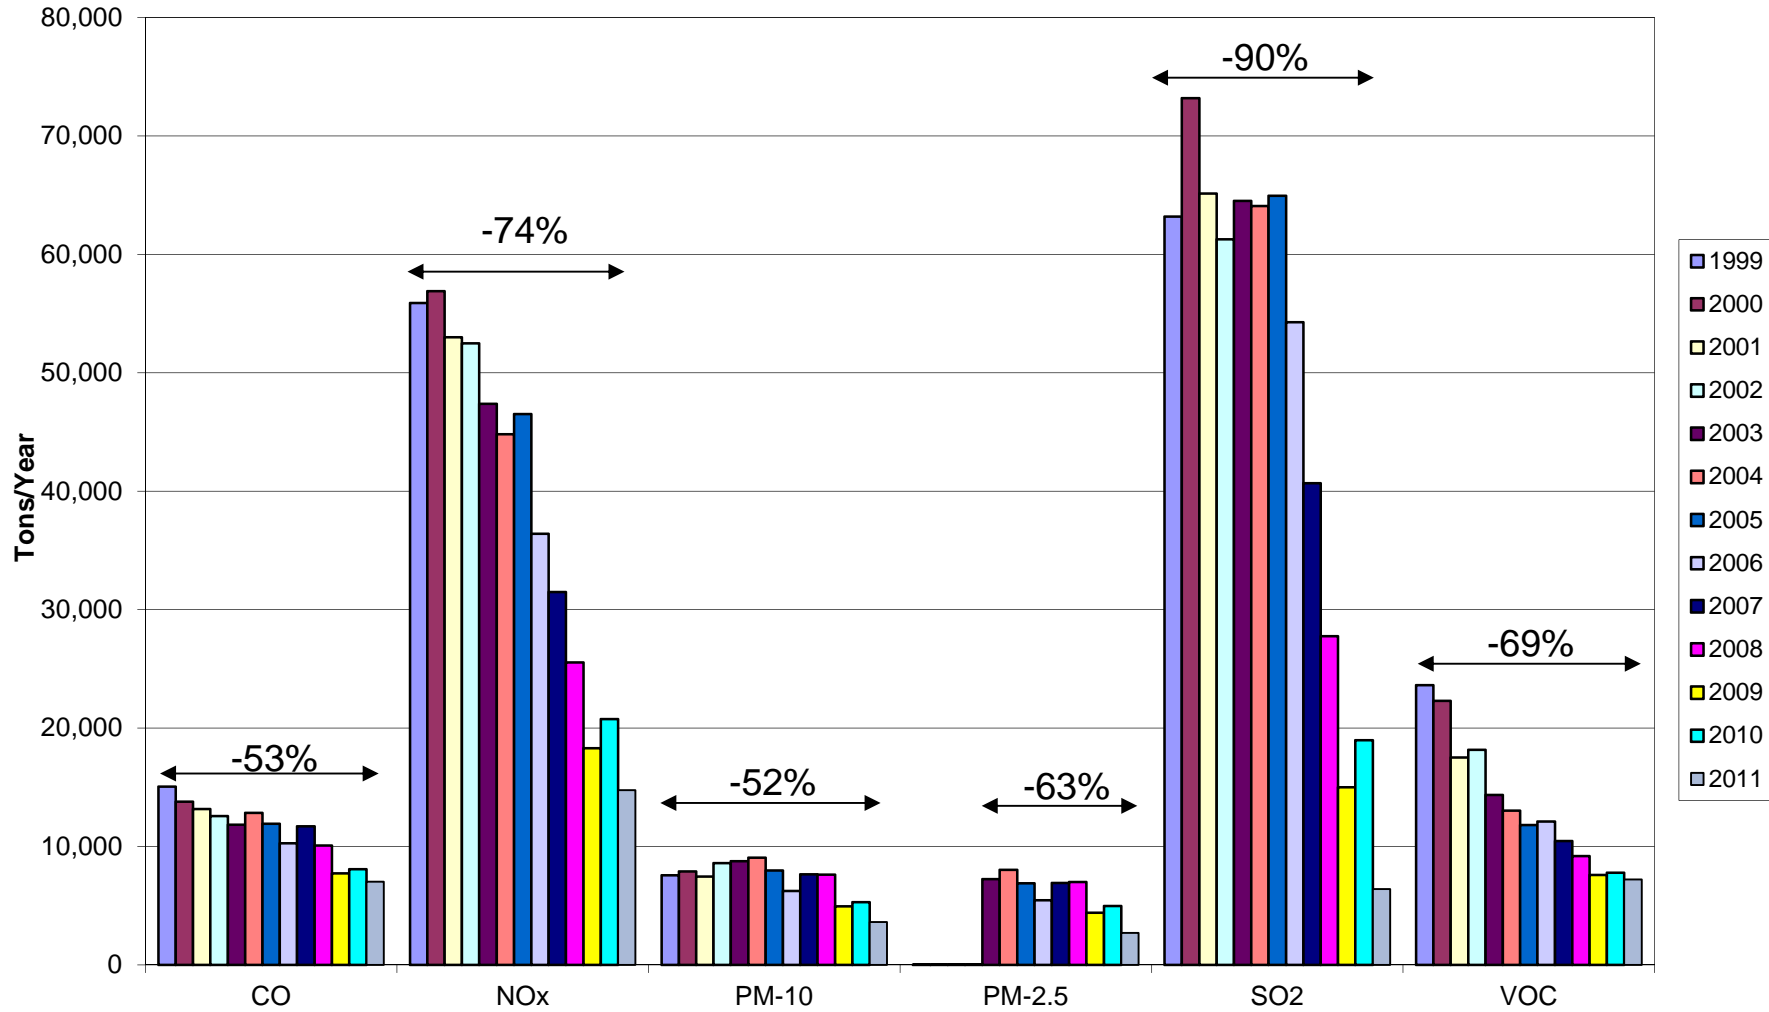

Objective

- Emission Statement Update
- RADIUS 4.0
- NJ Portal

Summary of 2011 Emission Statement

- Received 524 emission statements
 - 264 majors
 - 260 non-majors

Emissions Reported To The Emission Statement Program "Stationary Sources"

What To Expect When Submitting 2012 Emission Statement

- Due May 15, 2013
 - Still have the extension to June 15th if request by May 1st
 - NJ Portal submissions get automatic extension to June 15th
- No new requirement
- Reporting by NJDEP Online Services Portal

Planning For Submitting

- Start a little earlier
- Be patient
 - As with all new products, there will be kinks
 - NJDEP staff is always available to help but give them time to respond
- What to do with Sandy related issues?
 - All emissions must be reported
 - Create separate U/BP for all Sandy related emissions that are beyond permit requirement (U777777)

Common Issues in 2011 Emission Statements

- Structure of the Emission Statement
 - Mirror permit(s)
 - Correctly link the equipment, emission point, and control device in the Emission Unit/Batch Process Inventory
 - Correctly identifying the Equipment Type
 - Create new equipment/operating scenario for control devices that burn fuel
 - Delete sources that are no longer permitted and did not operate during that reporting year

Common Issues in 2011 Emission Statements

- Process & Emissions Screens:
 - Report fuel usage for combustion sources
 - Report amount of coating/ink/solution for coating/printing operations
 - CO₂ in 1000 tons/yr and TAP's in lbs/yr
 - NO_x for 5/1-9/30 in tons/season
 - PM_{2.5} at source level for sources of particulates
 - Ammonia at source level
 - Emission factors except for CEM and material balance
 - Source Details and Control Operations

Common Issues in 2011 Emission Statements

- Other Miscellaneous Issues:
 - Select pollutants from drop-down list
 - Autocalculate does not calculate emissions for the NO_x tons/season (5/1-9/30) nor emissions for PM_{2.5}, ammonia, CO₂, methane, and TAP's
 - Use of proper AP-42 emission factors
 - Include condensable as part of PM
 - Checklist for reviewing the emission statements
 - N.J.A.C. 7:27-21(j)
 - Reporting roof landing emissions via RADIUS
 - Additional reporting of information beyond RADIUS

Why Update RADIUS?

- Provide a mechanism to submit RADIUS files online
- To make the RADIUS file submission process compliant with CROMERR for permits and emission statements

RADIUS 4.0 Updates

- Removed electronic PIN certification capability within RADIUS
- Removed the ability within RADIUS to attach electronic documents
- Added functionality for RADIUS to generate a PDF document
 - However, users will only be able to access this PDF via the Portal
- Can only import ‘exported’ files, not ‘submitted’ files

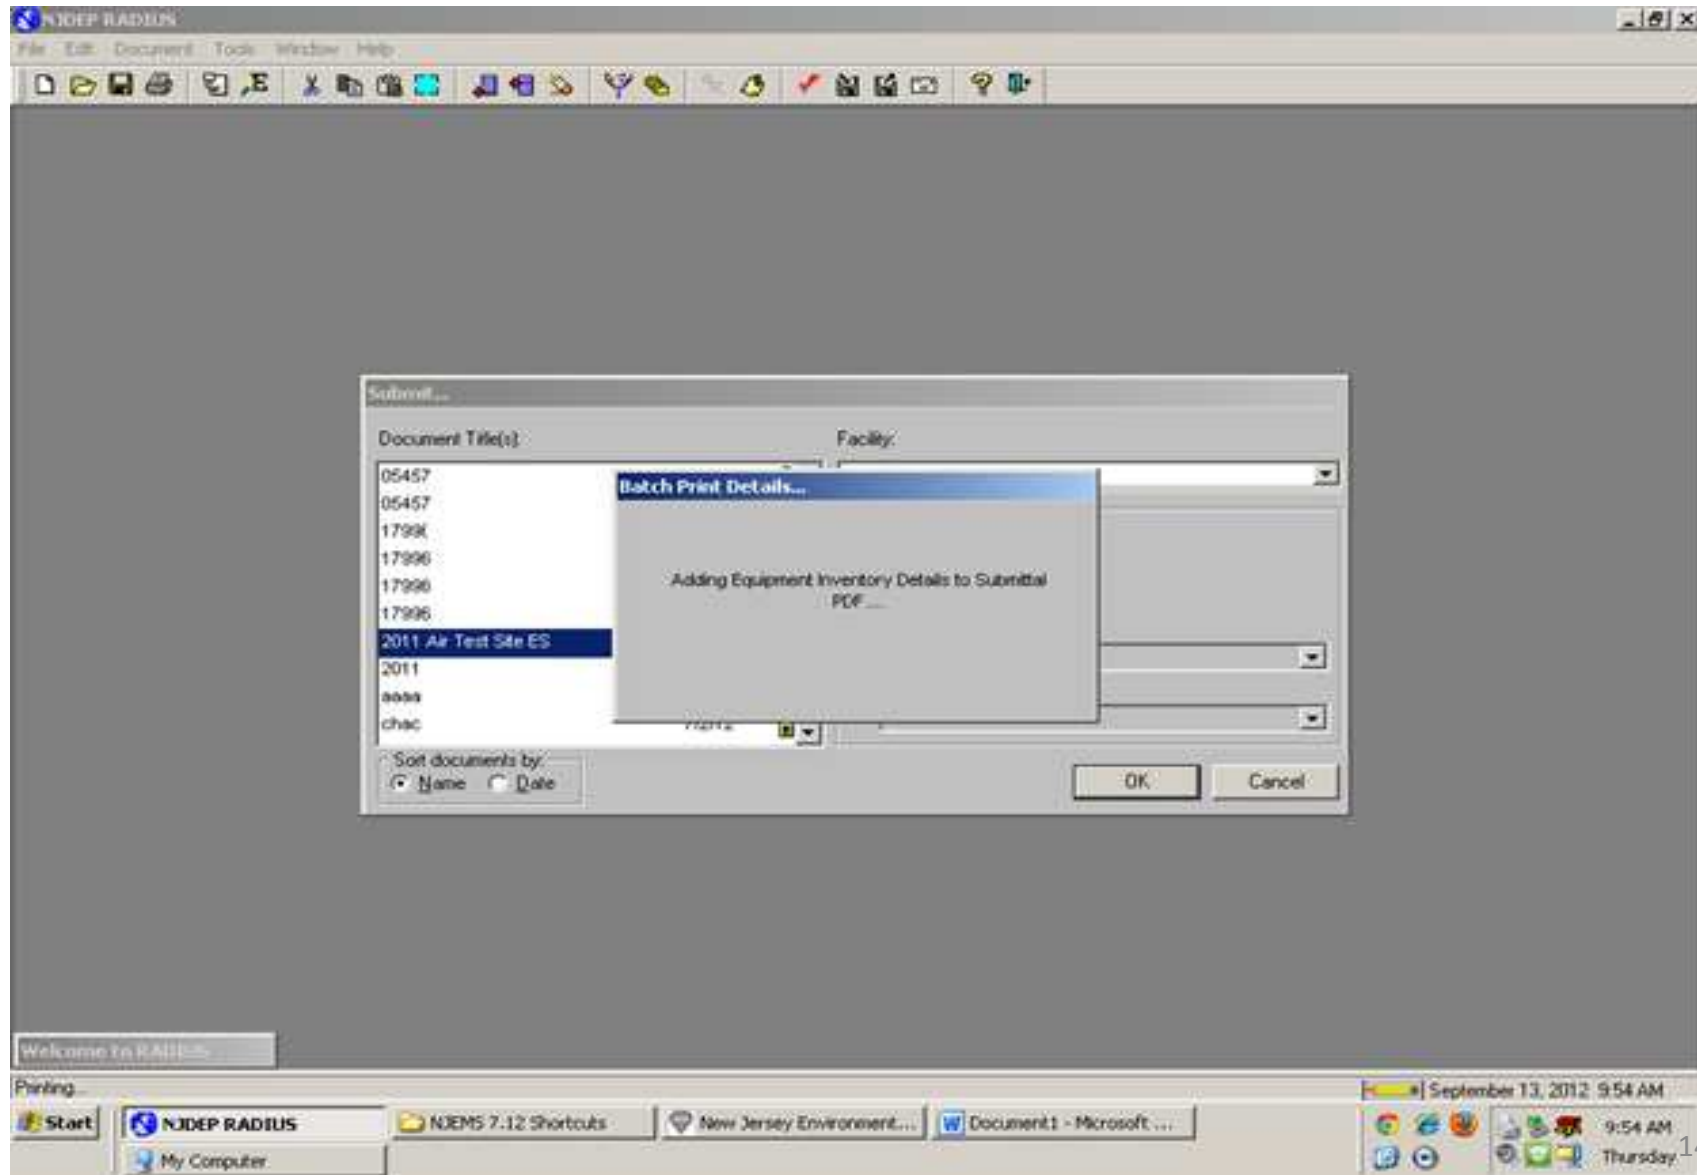

RADIUS 4.0 Updates

- For any contacts listed, email address is required
- Responsible Official contact information required
 - Emission Statement was already required in the past
- For those few that use a 3rd party data entry system to fill out emission statements through the back-end of RADIUS, there may be issues since changes were made to RADIUS

Where to find RADIUS

- Download the software at <http://www.nj.gov/dep/aqpp/radius.html>
 - RADIUS can only be installed to the C: drive
 - RADIUS cannot be installed on a network
- If this is an upgrade - Setup will automatically convert your existing documents to the new version
- New reference table – cmtb_naics

PDF Generation Screen

NJDEP Online Services Portal

- Not mandatory
 - Can still use USPS/FedEx/UPS/etc.
 - Still need paper certification
 - No longer accepting via email
 - Continue to use email for communication with DEP
- Why?
 - CROMERR (applicable to major sources)
 - Catching up with technology
- Training
 - Webinar held on 12/13/12
 - User guide (18 pages)
 - <http://www.nj.gov/dep/aqpp/applying.html>

NJDEP Online Services Portal

- Only RADIUS 4.0.09 documents can be used for a Portal submission
- Will allow authorized users within a facility to submit applications for permits and emission statements in a secure manner
- Users will be able to attach electronic documents to supplement the RADIUS file
 - Size limitation
 - 5 MB for RADIUS file
 - 5 MB for attachments
 - 1MB/attachment
 - Maximum of 10 attachments

NJDEP Online Service Portal

- Users will be able to view all of the information in the RADIUS file as a PDF via the Portal
 - PDF will be available after file is uploaded
- Users will be able to electronically certify a RADIUS submission
- If you have submitted an Air General Permit, then you have used the Portal
 - The screens have the same feel as the General Permits

NJDEP Online Services Portal

- Users must have a myNew Jersey Portal account
- If you do not have a myNew Jersey Portal account, go to www.njdeponline.com
 - There is a link and instructions for creating a new account
- If you have an account you will need to access the RADIUS File Submission service

The screenshot shows a web browser window titled "NJDEP Online - Windows Internet Explorer". The address bar displays the URL: https://www11.state.nj.us/DEP_RSP/Orchestrate.do?orchestrationId=NJDEP-Air-RADIUSFileSubmission&btnAction=SelectRegEntit. The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. The Favorites bar shows links to EPA Ozone Reduction, EPA Technology Transfer, and Suggested Sites. The NJDEP Online header includes navigation links: njdep home | about dep | index by topic | programs/units | dep online. A secondary navigation bar contains tabs for My Workspace, User Profile, Certifications, Payments, Documents and Forms, and Permit Folder. The main content area shows the user is logged in as Michael Santilli (MSANTILLI) with ID 61085 at the DEP AIR TEST SITE. The "SUBMISSION INFORMATION" section includes a sidebar with steps: 1 - Facility Selection, 2 - Upload RADIUS File, 3 - Attachment Upload, 4 - Certification, 5 - Payment, and 6 - Summary. The main form asks for submission details: "Please indicate the nature of the submission:" (Emission Statement), "Is this an initial submission or a revision to a previous application/submission?" (dropdown), and "If this is a revision to a previous application/submission, has the RADIUS file been modified since the previous submission?" (dropdown). The "UPLOAD RADIUS FILE" section includes a "Please Note" box and a file selection area with a text box containing "D:\Documents and Settings\msantill\Desktop\61085_14.exp" and a "Browse..." button. A "Continue" button is located at the bottom right of the form area. The Windows taskbar at the bottom shows the Start button, several open application windows, and the system tray with the time 9:29 AM.

RADIUS Certification Authorization Form

This certification authorization is required to satisfy the federal reporting requirements of EPA's Cross-Media Electronic Reporting Regulations (CROMERR). Users who wish to complete major source (Title V) RADIUS Emission Statement submittals and Operating Permit applications via NJDEP Online must fill out this form and submit it to NJDEP in order to obtain the authorization necessary to certify the submittals.

This Certification Authorization Form is only required for individuals at major source (Title V) facilities who wish to submit RADIUS files online. It is not required for minor source submittals, or for major or minor source submittals sent via postal mail, since those are not subject to CROMERR.

Instructions

1. Prior to submission of this form, users must create an account in NJDEP Online. If you do not already have an account, you can create one by following the instructions at: <http://njdeponline.com/>.
2. Fill out Part A of this form: Certifier Information. All items in this section are required.
3. Fill out Part B of the form if you are a Responsible Official as described in Part B and/or Fill out Part C of the form if you are an Individual With Direct Knowledge as described in Part C.
Note that you must be either a Responsible Official or an Individual With Direct Knowledge at a facility in order to be able to certify permit applications or emission statements for that facility. Some users may fill both roles.
4. Mail or fax the completed and signed form to:

NJDEP Air Quality Permitting Program
