**What is myNewJersey?** It's a system that uses a single ID to let you access many services. If you have a business, you can access taxes, permits, payments, and other information. If you're an employee, you can get pension and payroll information, and for many departments, access your email and other resources when you're not in the office.

**How does myNewJersey help me?** It lets you access all of your information without having to remember separate account IDs and passwords for each service. Plus, you only have to log in once each "session" (each time you need any one of the services). You can access any other service during that same session, without having to log in again.

**Why do I need myNewJersey to use NJDEP Online?** NJDEP Online is the service that lets you work with your permits. myNewJersey is the system that logs you in, or "authenticates" you, to be able to access NJDEP Online and any other services you're authorized to use.

Do I have to do this each time? No, you only have to request access to NJDEP Online once, and you only have to link it to your myNewJersey account once. Each time you need to use NJDEP Online in the
