Inspection Summary Report for ODACO INC - Activity Number BCI 040005

Oct 21, 2004 01:47

NOTE: The information contained in this report will be limited to the date each program began using the Department's integrated database, NJEMS. The programs began using the system for this information as follows: Air - 10/1998; Hazardous Waste - 1/2000; Water - 7/2000; TCPA - 12/2001; Land Use 12/2001; DPCC - 1/2002; Solid Waste - 1/2002; Right To Know - 3/2002 and Pesticides - 4/2002. For complete information prior to these dates, please submit an official OPRA request form to the Department. If printing this report, select landscape orientation. For a list of terms and definitions, click on the following link:<http://www.state.nj.us/dep/infoview/enforcement.html>

Disclaimer: Only final inspection reports are listed in this report. Inspections for which a report has not been finalized by the Department will not appear in this report. Also, inspections which yield violations but where the inspected entity has not yet been notified of the violation are not listed in this report. For inspections indicating Out of Compliance, this means that violations were observed during the inspection, based on facts and information known to the Department at the time of the inspection. Errors or omissions in the factual basis for any violation may result in a future change in classification as a violation when such information becomes known.

Activity Number: BCI 040005 Inspection Type: *Brief Compliance Inspection Program Interest ID: 132312

Inspection Start Date: 08/13/04 End Date: 08/13/04 Lead Investigator: McPeak, Brandi

Comments:

As we approached the site we noticed piles of logs along the left side of the facility. If trees were planted as depicted on the site plan, we would not have seen the logs from the roadway. The logs, as we noticed upon entry, were in an area designated for final product. Following the site plan we moved around the site from left to right. There were no fire hydrants in place, as depicted on the site plan. There was also improper use of asphalt milling on the driveway. As we continue toward the back of the site there was a fire pond, but inadequate per the site plan. The fire breaks between the piles are missing. There is also no hose house, or pump house on site, as it says there should be on the site plan. The vertical markers need to be erected correctly, and were no horizontal markers noted anywhere on site. The site plan also depicts that there are two entrances into the site, the one on the right is for trucks with unprocessed material to drop off and the left for processed final product to leave. The right entrance is blocked off with a gate and looks to have not been used for some time. If the right entrance is not to be used, then permit/site plan modification needs to be submitted, and appropriate signage needs to be in place at the left entrance. The driveways onto and off the site are not paved. There is also a large pile of overs near the back right corner that needs to be removed ASAP. We did also notice a truck enter the site and dump a load, and there was no one inspecting the loads. There were no managers on site, only one machine operator who did not speak english was present. No records could not be reviewed. There was also no tub grinder on site. There will be violations issued, and the site will also be referred to the Fire Safety Department head of South Brunswick Twp.
