

Pollution Prevention Resources

The New Jersey Department of Environmental Protection website and materials may contain hypertext or links to other internet computer sites, which are not owned, operated, controlled or reviewed by the State. These links are provided solely as a courtesy and convenience to you, the visitor.

- Pollution Prevention Resource Exchange (P2Rx) – www.p2rx.org

The Pollution Prevention Resource Exchange (P2Rx™) is a consortium of eight regional pollution prevention information centers. These centers all provide pollution prevention information, networking opportunities and other services to States, local governments and technical assistance providers in their region. The centers represent a broad constituency, which contributes to an overall breadth of P2 information and opportunities.

- Toxics Use Reduction Institute (TURI) – www.turi.org

The Toxics Use Reduction Institute helps Massachusetts companies and communities find innovative, cost effective ways to reduce toxic chemical use at the source, rather than treat wastes once produced.

- Pollution Prevention Roundtable – www.p2.org

The National Pollution Prevention Roundtable, is the largest membership organization in the United States devoted solely to pollution prevention (P2). [The mission of the Roundtable is to provide a national forum for promoting the development, implementation, and evaluation of efforts to avoid, eliminate, or reduce pollution at the source.]

- Pollution Prevention Gems (P2 Gems) – www.p2gems.org

A guide to hundreds of Pollution Prevention resources on the internet

- Waste Reduction Resource Center (WRRC) – <http://wrrc.p2pays.org>

A member of the Pollution Prevention Resource Exchange (P2Rx) network of regional centers, the Waste Reduction Resource Center provides pollution prevention technical support to the states in EPA Regions III and IV.

- Northeast Waste Management Officials' Association (NEWMOA) – www.newmoa.org

As a part of P2Rx, NEWMOA contains searchable databases of regional pollution prevention, solid waste, and waste site cleanup information. In addition, a rapid response service, subject specific resource guides or Hubs, and up-to-date information on NEWMOA workgroup activities are available.

- Significant New Alternatives Policy (SNAP) – www.epa.gov/ozone/snap

The Significant New Alternatives Policy (SNAP) Program is EPA's program to evaluate and regulate substitutes for ozone-depleting chemicals being phased out under the stratospheric ozone protection provisions of the Clean Air Act (CAA). The purpose of the program is to allow a safe, smooth transition away from ozone-depleting compounds by identifying substitutes that offer lower overall risks to human health and the environment.
