

ATTENTION ALL NEW JERSEY WATER OR WASTEWATER OPERATIONS PERSONNEL:

Pursuant to the instructions of the Statement of Qualifications (SOQs), the Exams and Licensing Unit and the Water and Wastewater Board of Examiners would like to further remind all licensed operators in the State of New Jersey, to obtain the signature of ALL DEP-recognized Licensed Operators in Charge under whom you have ever worked. Recently, some examination application SOQs were rejected or conditionally approved due to the fact that the signature of the Licensed Operator in Charge during certain specified work experience time periods could not be obtained or otherwise verified. The current license operator in charge can only certify the time period in which you worked under his/her purview.

Thank you for your attention to this matter.
