2006 NJ Wild Turkey Hunting Season Information and Permit Application

NEW JERSEY DIVISION OF
Fish and Wildlife

Application Period Closes February 22, 2006

Exciting Changes to the Turkey Permit Application Process

This year, the New Jersey Division of Fish and Wildlife is pleased to announce some exciting changes to the application process for 2006 Spring and Fall Turkey Permits. There are now two ways to submit an application. You may choose to apply in the traditional way, by submitting the enclosed paper application with full payment, or by submitting an application electronically via the Division's new Internet License and Permit Sales Web site.

Advantages to Applying Online:

- **Easy, Secure Payment**

You may now use a credit card to submit an application and pay for your permits if you are successful in the lottery. The Internet sales site accepts most major credit cards and electronic checks as payment, and uses proven security technologies to guarantee the safety of your transaction.

- **Less Money Tied Up**

When applying online, you only have to submit the application fees "up front" instead of the full permit costs. For example, if you are applying for all three lotteries (two spring; one fall), you only need to initially pay the \$6 application fee (\$2 per lottery). If you are successful in the lottery, your credit card will be charged for the remaining cost of the permit and the permit will be mailed to you. If you are unsuccessful in the lottery, you won't have to wait for a refund check in the mail because your credit card won't be charged.

- **Application is Guaranteed Correct**

Every year, the Division must devote significant resources to checking the accuracy of each paper application. If there is a problem with an application, it is not always easy

to get in contact with the applicant to correct the error, or it may be too late in the application period to fix it. The online application process will not allow you to submit an application that contains an error. You can be assured that when your application is submitted, it is correct.

- **Instant Confirmation**

Upon submitting an application online, you will receive a confirmation number and receipt of payment. The Division can then easily and instantly determine the status of your application. You will no longer have to worry about whether the application you mailed in was received.

- **More Time to Apply**

Since the web site is available 24 hours a day, 7 days a week, you may file your application anytime, day or night, during the application period. Although we encourage you to submit your application early, you will be able to apply right up until the last minute of the application period, which is 12 midnight on February 22.

- **Faster Notification**

If you have applied online and provided a valid e-mail address, you will be notified of your permit status immediately upon completion of the lottery and shortly thereafter you will receive your permit in the mail. You may also check the status of your lottery application 24 hours a day, 7 days a week by visiting the Internet sales site. If you submitted a paper application, you must wait to receive either a permit or notice of non-selection by mail.

Any permits not awarded to customers will be returned to the pool of permits available for over-the-counter sales.

As you can see, there are tremendous benefits to applying online. Why not give it a try?

The special statewide Youth Turkey Hunting Day is Saturday, April 15, 2006

- All youth turkey hunters 10 to 16 years of age must possess a valid spring turkey hunting permit
- Must be accompanied by a properly licensed, non-shooting adult age 21 or older who may not shoot on this youth day (See page 2)
- Considered an **extension** of the regular season permit held by the youth
- If youth hunter harvests a turkey on this youth hunting day, that permit is no longer valid for future hunting
- All other spring turkey hunting regulations apply

continued on page 2

Youth Turkey Hunting Program

A special youth turkey hunting program is designed to ensure all applicants 10 to 16 years of age will receive their first choice permit request in the first lottery for the Spring and Fall Turkey Seasons. Permits awarded to youth hunters will not be counted as part of the permit quota. The Fish and Game Council and the Division of Fish and Wildlife recognize that a quality hunting experience, such as turkey hunting with a properly licensed adult, will be fondly remembered for years and has a positive influence toward maintaining our hunting heritage in New Jersey.

The **first** spring turkey permit issued to a youth is valid to hunt *all* weeks A through G for the zone designated, provided the youth (ages 10 - 13 hunting other than on Youth Turkey Hunting Day) is accompanied by a properly licensed adult age 21 or older. **Additional** youth permits are valid only for the designated week.

When licensed adult hunters are only supervising, they need *not* be in possession of a turkey permit for that hunting area and/or week.

After taking their first spring turkey on their **first** permit, youths are then restricted to hunt only the week designated on any **additional** permit purchased.

The youth must be under the direct supervision of the adult. For the purposes of this section, direct supervision is defined as both the youth permittee and the adult set up together at the same location, hunting as a unit, not hunting independently for different birds. The season bag limit for the youth permit remains at one turkey. For additional information on the Youth Turkey Hunting Program, please call the turkey permit hotline at 609-292-9192.

Three Permit Lotteries

Hunters may file only one application and may apply **either** using the new Internet-based system **or** using the mail-in application form on the last page of this publication. The application allows a hunter to apply for a total of three turkey permits, two Spring Season permits and one Fall Season permit. The Fall Season Permit must be applied for at the same time as Spring Season Permits. There will not be an additional application period for the Fall Season.

Three random lotteries will be conducted: two for the Spring Season and one for the Fall Season. There is one lottery for the Fall Season due to the limited number of permits available. Hunters may enter only once for each of the three lotteries.

If you choose to file electronically—DO NOT SEND A PAPER APPLICATION.

Spring Gobbler Season

First Lottery:

- Selects applicants from the “Spring Season First Lottery” section of the permit application.

- Refer to “2005 Wild Turkey Season Dates” section for important information on the structure of turkey hunting segments.
- The Youth Turkey Hunting Program is designed to ensure that all applicants 10 to 16 years of age (still eligible to hunt using their Youth License) will receive their first choice permit request in the first lottery for the Spring Season. This permit is guaranteed. These permits will not be counted as part of the permit quota.

Second Lottery:

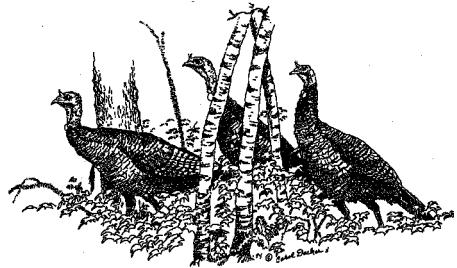

- Gives each applicant an opportunity to win/receive a second permit for the Spring Season.
- Selects applicants independently of the first lottery.
- Assigns permits not issued (leftover) from the first lottery to applicants from the second lottery portion of the application.
- Youth permit requests for the second lottery will receive the same treatment as all other permit requests. Permits are **not** guaranteed and will be selected independent of the first lottery.
- Permits and non-selection notices will be mailed in early April.

If you request the same turkey hunting area and period in both the first and the second spring lotteries you may receive two permits for the identical area and period combination. This might happen if you list the same area and hunting period in the first and second lottery even if listed in a different order. Permits will not be exchanged if you received the permits you requested on your application. Consider your requests carefully!

Fall Turkey Season

One Lottery Only:

- Fall Season lottery is run independent of the spring lottery.
- There is one six-day fall season hunting segment in Turkey Hunting Areas 1–11, 20 and 21.
- Complete the “Fall Season Lottery” portion of the turkey permit application, either online or on paper.
- The Youth Turkey Hunting Program is designed to ensure that all applicants 10 to 16 years of age (still eligible to hunt using their Youth License) will receive their first choice permit request in the Fall Season. This permit is guaranteed. These permits will not be counted as part of the permit quota.
- The lottery will actually be conducted in early spring. An added benefit of applying via the Internet is the ability to look up your permit status online. Only those who applied via the Internet will be able to know if they are successful in the lottery months before the season begins.
- Permits and non-selection notices will be mailed in July.

Disabled Veteran's Turkey Permits

Legislation provides for the issuance of free hunting licenses and permits for NJ resident disabled veterans.

For the purposes of this program, the legislation defines Disabled Veterans as "... any resident of New Jersey who has been honorably discharged or released under honorable circumstances from active service in any branch of the Armed Forces of the United States and who has been declared by the United States Department of Veteran Affairs, or its successor, to have a service-connected disability of any degree . . ."

Disabled Veterans who are in our database will be mailed special instructions and applications in late January/early February.

January/early February. Disabled Veteran Licenses can also be obtained at most Division field offices, the Trenton Office and on our Web site at www.njfishandwildlife.com.

Disabled Veteran Applications

1. Documentation that one is currently receiving benefits for a service-connected disability must be presented to obtain the free license. Applicants must first have a Disabled Veteran license to obtain a free Disabled Veteran turkey permit.

2. Do not complete the regular application found in this supplement.

3. Qualified individuals are entitled to one free Spring Season permit and one free Fall Season permit. An additional (second) spring permit must be purchased at the regular price of \$21.00.

4. Using the Disabled Veteran status does not guarantee the applicant of permits, nor does it give the applicant preference in the lottery.

Application Tips and Procedures

Increase Your Chance of Receiving a Permit

Certain Turkey Hunting Areas and/or Area and Period combinations are extremely popular. These areas are traditionally applied for by more hunters than there are permits available (over-subscribed). A table of permit quotas and first choice requests for each area is provided on the map page inside to assist your decision.

When deciding on your first, second and third choices, consider where and when you plan to hunt. Choose your favorite area and week (period) as a first choice in the FIRST lottery. **Do not list popular areas or weeks as second or third choices in the first lottery; and do not list popular areas or weeks for any choices in the second lottery.** Those popular areas and weeks are unlikely to be available. Permits will not be exchanged and money will not be refunded for unwanted permits. Give your choices some thought, but in all cases, make sure that you have a place to hunt BEFORE submitting your application.

Completing the Application

These guidelines are for both online Web-based applications and mail-in paper applications:

- Persons whose license privileges are revoked are not eligible to apply.
- It is a violation to submit more than one application for the turkey permit lotteries. **SUBMITTING MORE THAN ONE APPLICATION WILL RESULT IN THE DISQUALIFICATION OF ALL OF YOUR APPLICATIONS.**
- The Second and Third choices in each lottery are there to give you additional chances to win a permit of your choice. If you will only accept a permit for one area and period, leave the second and third choices blank.
- You may apply only once even if you have a firearm and an archery license. Once you receive a permit, you may choose to hunt with either gun or bow, provided you are properly licensed, even if you did not apply using the license number for that particular sporting arm.
- If you made a mistake on your submitted application, do not submit a second application. Contact the Division for specific instructions.

Notification

- Late mail-in applications will be returned with an automatic rejection notice.
- Spring Season applicants will receive a permit or notice of non-selection in early April for each permit requested.
- Spring Season refund checks will be mailed out in May to non-selected applicants who mailed in their application and paid in full. Refunds will not include the \$2.00 non-refundable application fee.

Special Farmer Turkey Hunting Applications

Only the owner or lessee of a farm, who resides thereon, or the immediate members of his family who also reside thereon, may apply for one special farmer turkey hunting permit for the spring and one for the fall season.

* Applicants must be at least 10 years of age

* Qualified farmers may apply only if their land is in a turkey hunting area open to hunting

* Qualified farmers will receive a permit valid for the entire Spring season (A through G) and the Fall season if they apply for *both* permits on their Farmer Turkey Permit Application

* Applications are available at Fish and Wildlife offices, county agricultural agents and from conservation officers throughout the state

* The farmer bag limit is one turkey during the Spring and one turkey during the Fall seasons

NOTE: For the purpose of applying for a turkey hunting permit, the 2005-2006 Game Code defines a farm as an area of five acres or more producing a gross income in excess of \$500 and is tax assessed as farmland.

Special farmer turkey hunting permits can be used only by the person whose name is on the permit and may be used only on the farm listed on the application. All mandatory turkey checking requirements apply.

Farmers may also apply for regular spring and fall turkey hunting permits in addition to the farmer turkey permits.

Outstanding Garden State Gobbler Records Program

The outstanding gobbler program is administered by the New Jersey Chapter of the National Wild Turkey Federation.

Minimum score:

- 60 - Typical
- 80 - Non-typical (multiple beards or spurs)

Minimum weight: 20 pounds

Score Calculation:

$$\text{Weight} + 2(\text{beard length}) + 10(\text{combined spur lengths})$$

Any scale used for commercial purposes (hardware store, butcher shop) is suitable to determine the weight. Get a receipt on the establishment's stationery.

For more information, contact your local or state chapter representative at:

continued from page 3

- Internet applicants will not need refunds for Spring or Fall Seasons.
- Fall Season applicants will receive a permit or notice of non-selection in July.
- An added benefit of applying via the Internet is the ability to look up your permit status online. Only those who applied using the Internet will be able to know if they are successful in the lottery months before the season begins.
- Fall Season refund checks will be mailed before the end of July to non-selected applicants who mailed in their application and paid in full. Refunds will not include the \$2.00 non-refundable application fee.

For questions about the permit process, call the 24-hour Permit Hotline at 609-292-9192.

Questions about the status of individual spring season permits will not be answered before April 3, 2006; questions concerning fall season permits will not be answered before July 24, 2006.

If you have not received a permit or notice of non-selection by the above dates, please call. A person not notifying the Division will not receive replacements or refunds for permits that were undeliverable or lost in the mail once the permit has expired.

LEFTOVER PERMIT SALES

When fewer turkey hunting permit applications are received than the quotas have allotted, leftover permits may be available after the lottery selection process is complete. If there are a substantial number of permits leftover, they will be sold to hunters on a first-come, first serve basis. Hunters who have already received permits are also eligible to purchase leftover permits should a surplus occur.

- Information on the sale of leftover permits will be announced via the Permit Hotline at (609) 292-9192, the Division Web site at www.njfishandwildlife.com, or through local newspapers.
- Remember, the **daily** bag limit is **one** turkey, even if a hunter possesses more than one permit valid for that day.

Wildlife Management Area (WMA) Ranges

The following information pertains to NJ Division of Fish and Wildlife facilities. Information on privately operated facilities is available at "Where To Shoot," a site maintained by the National Shooting Sports Foundation at www.nssf.org.

- All WMA regulations apply.
- At least one member of the shooting party must have a current, valid hunting license in possession.
- Shotgun range: fine shot only.
- Archery range: target or practice tips only (NO broadheads).
- Muzzleloading rifle and shotgun range: muzzleloading firearms, shotguns with rifled slugs or buckshot and modern rimfire (.22 caliber) rifles only.
- No handguns or centerfire rifles permitted.
