319/CBT PROJECTS

PROJECT NAME AND DESCRIPTION:

RP02-075 MENDHAM TOWNSHIP, MORRIS COUNTY - DETENTION BASIN RETROFIT

319(H) - \$27,000

This detention basin retrofit involved the removal of the existing low flow channel, modification of the existing outfall structure and planting vegetation appropriate for a wet basin environment. The project was completed on June 30, 2005 at a total cost of \$27,000 and resulted in the creation of a 20,000 square foot wet stormwater basin which discharges to the Whippany River.

The 319(h) program is administered through the Division of Policy Implementation and Watershed Restoration. Additional information is available at www.nj.gov/dep/watershedmgt/319grant.htm.
